Babies Come First In Prenatal Pacts

LOS ANGELES, Sept. 18.—A helpless babe takes precedence over any voluntary "pacts" entered into by its parents before their marriage.

Its tiny body must be properly clothed and its hunger appeased despite any arrangements or agreements of its parents to the contrary.

These decisions were rendered by Judge Walter Gates here Friday in the divorce action of Mrs. Mary Sotobehrer against her husband, Leonard.

The action of Mrs. Sotobehrer in asking for support of her baby boy was protested by the husband on the ground that he had signed a pact with his wife on their marriage that if there were any children he would not have to support them.

In her plea, Mrs. Sotobehrer waived support for herself.

"A baby is a baby," said the court. "A child is entitled to the support of its father regardless of any pacts." Judge Gates ordered the father to contribute \$6 weekly to the support of his child.

K. F. HUNTERS ARE GETTING BIG DEER

Deer, big bucks at that, continue to be brought to Klamath Falls by Klamath sportsmen and during the past 48 hours three mule tails have fallen before the shot of rifles.

Dr. H. D. Lloyd Stewart brought in one of the finest specimens of the season when he brought down a four point mule tail deer near the Grohs ranch. Stewart with "Red" Piper spent the middle of the week on the hunt. Although Piper was unsuccessful he vows to bring down a buck before the close of the season.

Two mule tail bucks, both tipping the scale around 200 pounds were bagged by Bob Sloan and Charlie Moore. Sloan and Moore brought the deer into Klamath Falls last night from Paradise valley, where they have been since Monday.

Carr Dalton of Malin and J. Martin Adams, both armed with plenty of shot, heavy blankets and food, plan to leave this afternoon for the Dalton ranch, going into Steel swamp near Clear lake. They have made the promise that they would not return empty-handed "if it took them all season."

The week-end will prove a perfect exodus from Klamath Falls for Klamath sportsmen who are planning to take Saturday night and all Sunday out in the woods.

DISABLED STEAMER SENDING S.O.S. CALL

SAN FRANCISCO, Sept. 18.—The steamer George Allen, enroute to San Francisco from Philadelphia, has been disabled at sea 230 miles south of San Pedro, the marine exchange of the chamber of commerce reported late Friday.

The tug Sea Lion has been sent from San Diego to aid the vessel.

Water in the oil supply has made the vessel's fuel unfit for use, and the tug Sea Lion has been sent to tow her into San Pedro. The George Allen, of approximately 10,000 tons, is a freighter of the Garland Steamship company.

LEAGUE COUNCIL PROBES OIL LAND

GENEVA, Sept. 18.—(United News)—The most dangerous current international question will invade the league of nations council chamber Saturday when the Mosul sub-commission is expected to present its findings regarding the Anglo-Turkish dispute over the vailayet of that name in Asia minor.

According to some delegates, the commission will present a majority and minority report and the council is expected to take advantage of this difference of opinion among its commissioners to postpone a final decision until the December council meeting.

There are others who believe that the council will make its final Mosul decision Saturday basing it on a compromise solution which would not too greatly aggravate either Turkey or Great Britain.

A Uruguayan proposal to facilitate United States adhesion to the world court by amending the court's status was offered and withdrawn Friday. There was general opposition to the proposed amendments and the proposal was withdrawn when it was explained that the present admin-

istration in Washington already was seeking to enter the court.

The disarmament question arose again Friday when a commission composed of representatives of Chile, Belgium, Denmark, England, Spain, France, Holland, Hungary, Italy, Japan, Poland and Czechoslovakia was appointed to chart the league's next move toward a disarmament conference. The commission is to decide whether the league shall begin preparations immediately for

a conference or wait until security has been sufficiently attained to permit reduction of armaments.
