

FIRE CHIEFS IN CAMPAIGN FIGHT TO OUST HAZARDS

Fire reduction is the goal set by more than 500 chiefs of fire departments who met last week in Seattle, according to Keith Ambrose, chief of the Klamath Falls department, who spent the past week in the north, attending the convention of Pacific Coast Fire Chief's association.

According to Ambrose more than 15,000 lost their lives in fires during the past year with a fire loss of property set at \$548,000,000.

"The goal of the association," said Ambrose, "is to reduce the cost by \$100,000,000 and to cut down the fatalities by 5,000."

Formal declaration of the war against fire was signed by every member of the association and Jay Stevens, state fire marshal of California, has assisted materially in putting over the idea which will reduce the terrific destruction.

VARSITY WOMEN TO HOLD MEETING

Drama and dramatic art sections of the American Association of University Women will meet Thursday evening at 8 o'clock at the home of Mrs. Wilbur Jones at 215 High street, according to an announcement made last night.

Mrs. Charles Wood Eberlein will handle the section for the winter course and on Thursday evening will give a review of the early drama. In addition to the review Mrs. Eberlein will further organize the group into two sections for winter study.

SIXTH ST. OBJECT OF ORGANIZED CLUB

(Continued from Page One)

have the change made a special Southern Pacific engineer will be sent here and that the railroad will do its part.

Appeal To Council

Paving of Sixth street will be requested of the city council by the organization, which elected its board of directors yesterday. They are Merle West, J. A. Gordon, J. A. McDonald, S. E. Martin and W. D. Miller.

According to members of the Industrial Improvement club the next year will find more construction on that street than has ever been made in years. Many of the old ramshackle structures on that street will be removed within the coming year, according to members.

KLAMATH COUNTY TO MAKE FIGHT FOR LINE

(Continued from Page One)

Tule Lake region in which they pointed out the necessity for prompt concerted action to promote the main line east through Tule lake.

"We have no interest one way or another in the proposed Oregon Trunk's extension from Bend to Klamath Falls except as it may prevent the Southern Pacific from building the Klamath-Alturas line to a connection with the broad-gauged Nevada, California-Oregon line," stated Mr. McArthur, speaking for the Modoc county people.

Interests Identical

"The railroad development controversy appears to have gotten in a mess, and in order to bring about the development that we most need, Klamath certainly should join with its friends across the state line. All of our interests in this matter are the same. We want the line and you want the line. We hope that we, who have always been friends with your community, may fight shoulder to shoulder with you on this proposition."

Avoid Building Delays

The Modoc county representatives will appear before the board of directors of the Klamath county chamber of commerce tomorrow and make their appeal for action to prevent the possibility of the whole railroad development proposition becoming so involved with various conflicting issues, disputes of various communities, the Oregon Public Service commission's antagonistic attitude toward the Alturas line, and other considerations that may bring on lawsuits and delay in railroad building in this territory for many years.

Caillaux Given New Debt Plans

WASHINGTON, Sept. 28.—The American debt commissioners have handed Joseph Caillaux and his colleagues another proposal for funding the \$4,200,000,000 French debt to the United States. The American proposal in effect reiterates the previous American demand, but it is understood has some modifications.

"The situation is not gloomy, but it is not going along as we would like it to go," it was stated by a high American authority Monday, following the delivery of the American proposal to the French.

Two brief meetings at the treasury building resulted in the delivery of the American proposal, consisting of several typewritten pages. In the morning the commissions were together about 25 minutes, during which Caillaux re-stated his first offer to pay in a formal document, which was distributed among the Americans, and then made a telling speech in English for negotiations on those terms. He said that private conversations he has had with Mellon had shown it possible to reach a compromise on some points.

COUNCIL CALLS FOR SPECIAL ELECTION

way on this side of the Upper Lake. Grade Wantland Ave.

Grading of the streets in Mills addition, particularly Wantland avenue, which is declared to be in a disgraceful condition was asked by the council.

While no action has been taken on the improvement of Linkville cemetery the council is by no means going to drop the subject. It was suggested last night that voluntary subscriptions be asked of those relatives of deceased buried in Linkville cemetery first, and if this sum proved inadequate the entire public would be asked to contribute of a free will. It is estimated that \$3,500 would put the cemetery in proper condition and once the improvement was completed the city would maintain it that way under its own wing.

SMITH ENTERS RACE FOR COUNCIL SEAT

(Continued from Page One)

night to be a candidate.

"At all times in the past has the role of a councilman in this city been an important one. However, it seems to me we are now on the threshold of some of the city's most vital problems. Important problems of today will be disposed of and tomorrow there will be others of equal import.

City's Interest at Heart

"Regarding the problems of tomorrow permit me to say that, as in deciding those of today, if elected, I will be guided solely by a desire to act toward the best interests of the city. I have no axe to grind with anyone; I am under no obligations to anyone. I shall, if elected, throughout my term of office strive with this one big purpose in view—development of this community for the welfare of the community. In other words I am for progressiveness here, meeting every issue squarely in the face and deciding it on its merits—regardless of the consequences.

"I may have to disagree with the mayor and with other members of the council at times, but I will strive for a spirit of harmony in the city council.

For Rail Development

"The rail question is uppermost in the mind of the city at the present time, perhaps. I stand for all rail development we can possibly get for the Klamath country. I favor the entrance of the northern lines into this section. At the same time I am not antagonistic to the Southern Pacific, for I realize that in the proposed development program lies one of the greatest boons to the development of Klamath.

"A prompt solution of the deplorable sanitary conditions here is vital to this city. A new sewage system is needed and it must be worked out, contingent on our expenses, as quickly as possible.

More Police Protection

"I favor a bigger and better police force. Klamath Falls has not had adequate police protection for some time in the past. One of the prob-

mount needs in the police department is a night man to remain in the police station. I have heard numerous complaints from many sources about the inefficiency of the police force, due mostly to a personnel inadequate in numbers.

"The fire department has worked out its own needs. Our present fire fighting force is as efficient as you will find any place.

"I favor a cleaner city, morally. I believe, that more can be accomplished along this line by education and segregation than by any other methods. This is indeed a serious problem.

"With all its industrial activity this city has forgotten somewhat its civic pride. We must strive for an adequate and suitable city park."

SON OF BUILDER CAUGHT IN RAID

(Continued from Page One)

band throw the still and moonshine away.

A pint bottle, more than half full, and two whisky glasses were found by McBride on the kitchen sink drain during the raid on the house. Almeter is unable to account for their presence.

Almeter is the son of John Almeter, prominent Klamath Falls contractor, who now holds the contract for the building of the Fremont school.

Charges of possession of intoxicating liquor will be pressed against Almeter, according to McBride.

Another raid at 1134 Klamath avenue netted a small amount of moonshine and the arrest of Clinton Kelley yesterday afternoon when McBride and several assistants surprised Kelley and a house full of "visitors" shortly after three o'clock. Kelley attempted to destroy the evidence by throwing it down the sink but enough was saved by McBride to bring a fine of \$100 in Judge Kendall's court.

Frank Moore was released yesterday afternoon on \$1000 bonds following his arrest Sunday night on Main street, between Second and Third streets, shortly after he had broken a gallon jug containing alleged moonshine whiskey. A charge of possession, transportation of intoxicating liquor and breaking glass on a pavement has been preferred against Moore.

The arrest was made by Deputy Sheriff Tom Tracy and Patrolman Morgan.

DENIES BRIBING GUARDS

CHICAGO, Sept. 28.—(United News)—Question: "Well, how about the guards? Did you give them any money?"

Answer: "That was extra tips—\$3, \$5, \$10—they were not on my pay roll."

The guards referred to were the guards of the Cook county jail; the speaker was Terry Druggan, youthful millionaire lootlegger, who with large, tortoise, shell-rimmed glasses looks like an earnest and capable insurance salesman.

"And my pay roll," was the pay roll he alleges he distributed to make life pleasant while serving a year in jail.

ORDER OF ANTLERS IN SORE PLIGHT FOR ROPE

Sixty-five boys who have looked forward to winter activities as members of the Order of Antlers are now "up a stump" so to speak, for during the summer some one without thinking perhaps, removed their canvas and ropes that they use for athletic work from the basement of the Elks temple.

What the boys are going to do until the canvas and ropes are returned so that they can resume

STATE FAIR HELD ASSURED SUCCESS

SALEM, Sept. 28.—With a larger attendance recorded Monday than on the opening day last year, the Oregon state fair swings into its second day with every promise that it will be more successful from every standpoint than any previous one. The exhibits are better, and with anything like favorable weather the fair is already an assured success.

The thrills during the racing came as usual during the running events. H. Reating riding Little Pointer, was crowded to the outside of the track and took a bad spill. A later examination showed the jockey was not seriously injured.

Not much judging will take place before Tuesday, partly due to late arrivals of some of the stock.

BEATING WIFE AMONG THREE ANNUAL FETES PERFORMED BY LONG

SACRAMENTO, Sept. 28.—(United News)—Along with celebrations of Christmas and the Fourth of July Edward Long had another annual custom. He beat his wife regularly, once a year.

Long admitted this in court Monday after his wife had caused his arrest. The practice had been going on for the 12-years of their married life, he said.

The judge decided that each beating was worth 15 days in jail and assigned Long quarters for the next six months.

STATE FAIR HELD ASSURED SUCCESS

their wrestling practice and work-out bouts in boxing is a question. If some one who has the paraphernalia will return the same, as the yep in the want ads, and the boys want this badly, they will not regret the fact. Otherwise a benefit fund will have to be raised in order to enjoy these luxuries again.
