**Why Do Chiropractors Advertise?**

This question has often been asked every Chiropractor. The answer is indeed simple.

Chiropractic is the newest of the sciences. Many, many persons are still totally unacquainted with the principles of this science. It therefore, becomes necessary for the Chiropractor to inform them through the medium of the printed word.

Chiropractic does not claim to be the great cure-all. There are cases which require the attention of a doctor of medicine, others that of a surgeon, but many afflictions can be relieved permanently only through this new drugless science, Chiropractic. Those suffering from these ailments should consult a Chiropractor without delay.

The following are a few of the many diseases which yield readily to Chiropractic:

- |                      |                    |                   |
|----------------------|--------------------|-------------------|
| Kidney Trouble       | Head Aches         | Asthma            |
| Stomach Trouble      | Sciatic Rheumatism | Acute and Chronic |
| Chronic Constipation | Neuritis           | Colds             |
| Cough                | Heart Troubles     | Pneumonia         |
|                      | Bach Ache          |                   |

**Be sure of your furnace!**

Your comfort—even your health—depends on the kind of heat you obtain from your furnace. That kind of heat depends on the construction of your furnace and the skill with which it is installed in your home. Health requires an abundant circulation of warm moist heat! Not just heated air. Comfort requires adequate heat at minimum expense and effort.
