

"Let us have faith that right makes might, and in that faith let us to the end dare to do our duty as we understand it."—Abraham Lincoln.

**Keep on Signing the Petitions**

*Klamath County Wants Railroad Development*

Looks as if Klamath Falls has won the biggest prize in its history—a united sentiment for a direct line east.

Keep on signing the petitions. Let the Interstate Commerce Commission know that Klamath Falls is awake to the fact that it has in its grasp not only a place on a north and south main line, not only a great railroad terminal which will add more than \$1,000,000 a year to the money flowing through local cash registers. **BUT A DIRECT LINE EAST.**

The direct line east, which, to Klamath Falls, is the most important plan of railroad development for Oregon, will place Klamath Falls at least 200 miles nearer to the great middlewest and east—the great centers of population and America's biggest markets—than would the proposed plan of the Oregon Trunk.

The most important part of our business community—the lumber manufacturers and the farmers—are out almost to a man fighting for the Southern Pacific program. **THE ONLY PLAN THAT OFFERS KLAMATH FALLS AND ADJACENT TERRITORY DEFINITE AND POSITIVE BENEFITS.**

Help them and you help yourselves.

The Oregon Trunk program which we would welcome if the Southern Pacific didn't offer us something not only better, but, in effect, exclusive, is being boosted in Bend as something that will give the Bend section a chance to compete with Southern Oregon in the California markets.

That means compete with us.

We haven't any business to divide with Bend or with any other part of Oregon.

The gods have laid a great gift at our feet. Let's see that nobody gets it away from us.

If the Southern Pacific plan carries, the great middlewest **WHERE OREGON IS SEEKING MARKETS AND SETTLERS, WILL BE 200 MILES NEARER KLAMATH FALLS THAN IT WOULD BE UNDER THE OREGON TRUNK PROGRAM.**

The Oregon Trunk plan would make us divide our markets.

The Crane-Odell plan would leave us out on the end of a limb.

**Still Faster and Faster**

*Airplanes at 500 Per Piloted By Radio*

Britain is building airplanes to go 240 miles an hour, which she is sending to compete in the international Schneider cup races in Baltimore in October. Our army is building planes that are planned to go equally fast. Some hold that the speed of planes will soon be reached by the limits of human power to drive them. But that was said before planes went a hundred and fifty miles an hour. The impossible is becoming the possible so frequently that the only safe prophecy is to doubt no promise of future wonders. Doubting Thomases had better muzzle themselves, while the optimistic let imagination fly with a plane at five hundred miles an hour piloted by radio.

**Dinner Stories**

At the end of the service a social member of the congregation approached the minister and said: "I enjoyed your sermon this morning. I welcomed it like an old friend. I have a book at home containing every word of it."

"You have not," said the astonished preacher. "That sermon is original."

"I have."

"Well, send that book to me. I'd like to see it."

"I'll send it," the humorist replied.

Next morning he sent an unlettered dictionary to the minister.

It is well in making a cross-examination to be reasonable sure of the answer before making a question. Otherwise there may result the predicament of the man whose little daughter was asked by a visitor which member of the family she liked best.

"Mother," said the child.

"Who next?"

"Little sister."

"Who next?"

"Auntie."

The father, who was sitting in a corner of the room, spoke up, saying: "Well, my dear, what do I come in?"

"At 1 o'clock in the morning," was the prompt reply.

Of one story about the late William Jennings Bryan, the most characteristic comes from a close friend of the family. In 1898, when Mr. Bryan was preparing for his free silver campaign, he examined a certain politician for a place as committeeman.

"Do you believe in 16 is 17?" asked the great orator.

"Yes, but of course I'm not a damn fool about it."

"Then you're not the man for me," said Mr. Bryan, closing the interview.

**Suggestions**

Charming is color and simple in their lines are pleasing lamp-

When turning medicine from a bottle turn out of the opposite side from the label so as to keep the label clear and the directions clear and easy to read. A bottle with a stained label is always a reproach to a careful housewife.

See the bottles of a sweetener together before wanting so they will not stretch.
