In this case it is the story of a man who for years has played so skillfully with the heart strings of beautiful women, that he has won all the luxuries of Paris, New York and Chicago, is now turning his hand to the task of wrecking the lives of the beautiful young women who are his victims.

two detectives. "That's my wife," Hoffman said to the grim faced men at his side. The detectives did the rest.

At the police station Weidemeier was found to have \$25,000 in large bills in a money belt. This rather unusual fact led to the investigation that has branded him as an international heart breaker and an expert in high love financing.

Mrs. Hoffman said he had blinded her by promises that he would make her a movie queen and that she was starting with him on a trip to Europe.

The replies that have come in to police who broadcast Weidemeier's picture give him the names of Frigmund Engle, Sigmund Renee, Sigmund Welde, John Moore and Arthur F. Brooks.

As Brooks he is accused of promising to marry Esther Wezier of Chicago and then disappearing with \$13,000 her parents gave him to take them all to Hollywood.

As Renee he is accused of escaping with \$50,000 worth of jewels from three Parisian women, who had agreed to become his wives.

New York have wired asking if they may have Weidemeier for the theft of \$90,000 from Mrs. Ross Burken, whose confidence he is said to have won.

There are numerous other requests for information regarding this suave tongued lover but St. Louis authorities refuse to give him up until the Mann act charge in connection with the Hoffman affair is disposed of.

Pelican Bay School Holds Month Record

Pelican Bay, the smallest school in the city, holds the honor of being the banner school of the past month, with its primary department having no tardiness and the advanced students winning the pennant for the building.

Mrs. Myrtle Helm is principal of Pelican Bay school. These figures, with many equally as interesting, were compiled in the office of the city school superintendent, showing the average of each school in the matter of total registration and average attendance.

Central school's third grade room as well as the fifth grade room, passed through the month with no tardiness among the pupils. The honor of being the pennant room with two stars went to the fourth grade room.

Two rooms in Fairview school, the third and the sixth grades, failed to record a tardy pupil and each room was rewarded with a star. The pennant room for the Fairview school is the eighth grade room.

Fourth and seventh grade pupils were present with the first call of the early morning bell and were awarded stars, as was the sixth grade room given the pennant for the month.
