fore," another one will volunteer. So the days go by, with the girls learning a lot of geography and a lot of human nature, for the letters are written by everybody from everywhere.

## Willys-Knight Is Economical on Road

A standard stock model Willys-Knight touring car in a recent 96-hour non-stop endurance contest in southern California set a record of 1557 miles of mountain travel, averaging better than 15 miles to the gallon of fuel, 200 miles to the quart of oil, and used but four quarts of water in the radiator during the trip.

The run traversed the Big Bear country in the mountains east of San Bernardino, the famous rim of the world route, at elevations ranging from 1000 feet to 8000 feet above the sea level, over 75 per cent of the road being crushed rock and dirt grades and there being approximately 2400 sharp turns in each trip of the 97 mile loop, over which the run was made.

Night and day the run continued, the route going from Redlands to Waterman canyon, to Crestline, Lake Arrowhead, Big Bear lake, Summit, Clark's grade, Santa Ana river control and Harvey's control. No attempt was made to establish high gear records, endurance and stamina and economy were the records sought for.

This is the second of a series of similar tests, the first being the run to Yosemite made from San Francisco a few weeks ago, in which motor cooling and lubrication were the two features checked. In the Yosemite run, the Willys-Knight used was a four cylinder sedan, and the maximum temperature of the water in the radiator was 204 degrees, while the oil never ran over 184 degrees. In the Yosemite run which covered 428 miles in approximately fifteen hours, better than 97 per cent of the distance was covered in high gear.

These two tests show that the Willys-Knight combines its well-known stamina with a remarkable power development.

## JUDGE STONE UPHELD BY STATE HIGH COURT

The supreme court has just affirmed the decision of Judge C. P. Stone, in which a divorce was granted Wyma Jungwirth from F. H. Jungwirth, and the custody of their six-year-old boy given to the plaintiff.

An appeal was taken on the grounds that the husband's motion for a continuance of the case, was denied by the court. The supreme court in passing on this phase of the case, states that the motion was properly denied. The plaintiff was awarded her costs.

Fred A. Baker represented the appellant, and O'Neil and Irwin the respondent.

## BRAMWELL SUES TO RECOVER \$4,000 ON NOTE TO STATE BANK

Frank C. Bramwell, state superintendent of banks, of Salem, yesterday brought suit in circuit court here with a view to collecting \$4,000 and interest, alleged due on a promissory note made payable to the First State & Savings bank, defunct, of Klamath Falls, by D. P. Shoko.

Bramwell, serving as liquidating officer, alleges that the note was delivered October 14, 1921. The bank closed its doors on January 28, 1922.

No part of the money, said to be due, has been paid. Bramwell contends.

## Post Office Open Part Time Sunday

Patrons of the Klamath Falls post office will be interested in the announcement made yesterday afternoon by Postmaster John McCall of the fact that the post office closes Saturday night at 9:45 and will be closed on Sunday except from 11:30 a. m. until 3:30 p. m. and then will be opened from 5 p. m. until 10:30 p. m.

## Light Delinquents Being Checked Up

Threading his way about the streets of Klamath Falls last night, State Traffic Officer Foster checked up on many motorists whose lights, he said, do not comply with the new law.

No less than 25 drivers were warned that their spotlights, or headlights, must be adjusted in the near future, Foster explained. The names of the offenders were taken and, unless they remedy the condition of their equipment, they will be arrested.

"I believe that most of the traffic officers have been very fair with motorists," Foster explained. "I am sure that I, for one, have no desire to take into custody a man whose intentions are good. I imagine that all persons have not had an opportunity to have their adjustments made, but we must begin to enforce the provisions of

the law in the near future." More than 50 per cent of drivers now have proper lighting systems, Foster believes.

## Bishop's Committee Discuss New Church

An announcement of interest to members of St. Paul's Episcopal church was made yesterday by Rev. J. Henry Thomas who requests that all members of the church meet following the morning service for a discussion of the new church with the Bishop's committee. The meeting is urgently requested by both Rev. Thomas and the committee.
