WHAT SALEM WOMEN'S CLUB ACCOMPLISHES

The Salem Business and Professional Women's club was hostess at a get-together meeting Wednesday evening, some 120 members being present, including groups from the Portland, Corvallis and Eugene clubs, aside from a number of the officers of the state federation, Miss Julia K. Webster, president of the Salem club, extended greetings of welcome, and introduced the state president, Miss Louise M. Hacker, who in turn presented Miss Adelia Prichard, past national president, who addressed the club on "What Our Federation Stands for in the Life of a Business Woman."

Outlining briefly and touching upon the early pioneer history as

well as the later achievements of the national organization, Miss Prichard said:

"This federation stands for many things—to each member it brings a different message, to each a more complete understanding of the problems of others, of the meaning of friendship, of the strength of organization. . . . To some it speaks of opportunity heretofore undreamed, to others it brings a courage of vision, and to all it brings wonderful friendships and sympathetic understanding and creates a desire for finer and higher ideals. . . . Our organization was an outgrowth of a great movement, one that came into being through a great need. During the war, the need for experienced workers was found, and no group prepared to meet the need. President Wilson in his great vision and understanding of the problem of the hour turned to the one organization that he felt would be able to cope with the situation, the National Young Women's Christian association, but for once that fine body was not prepared to meet the emergency. At the close of the war Miss Mabel Head, a national Y. W. C. A. worker, called together a representative group in New York city and discussed ways and means of creating such an organization. A committee was appointed to make a survey and bring a preliminary report to the association. On that committee served Miss Lena Madison Phillips, later elected the first executive secretary, and Miss Ida Clyde Clarke, the first editor of the Independent Woman, and it is perhaps to these

(two, more than any others, the success of the plan submitted. Our organization has been founded on unselfish, voluntary service, all the work having been by pioneer women who have given willingly of their time, thought and services, the only paid officers being the national executive secretary and the editor of the Independent Woman, the national magazine. The first convention was held in St. Louis in July, 1919. Gail Laughlin of San Francisco, a western woman, being the first president. We pay tribute to the workers who build on faith and self sacrifice, building for all time, and not just for today, that the soul of this federation might live through all eternity."

Miss Mame Zeigleman, chairman of the state bulletin committee, on behalf of the state federation, presented Mrs. Mary E. Brewer of Salem with the national federation pin which had been awarded her as the winner of the contest for a name for the state paper. This was a happy surprise to all present. Mrs. Brewer included. Miss Zeigleman outlined in a brief speech the significance of the emblem, and urging that each member of the federation possess one.

Musical selections were furnished by Mrs. Mary McCrone Hughes, assisted at the piano by Miss Findley.
