

CITY ENGINEER HENRY RESIGNS

DARLEY IS NAMED TO SUCCEED POST HELD BY PARTNER

City Council Given Official Notice

APPOINTEE CONFIRMED

Statement of Incumbent Is Brief, and Without Explanation

After the seventeenth day of the present month, Eugene B. Henry will no longer serve in the capacity of city engineer of Klamath Falls. At a regular meeting of the city council, last night, Mr. Henry tendered his resignation, effective November 17, and it was unanimously accepted. By quitting his post Mr. Henry, who is an unlicensed engineer and, as a result, not lawfully qualified to serve in the position to which he was appointed by Mayor Fred Goddard, rescued the city council from an embarrassing situation. Only recently it had received pointed inquiries as to its stand, in hiring an unlicensed engineer, from the state board of engineering examiners.

Following the acceptance of Mr. Henry's resignation, Mayor Goddard named as Henry's successor Charles T. Darley, local engineer. The appointment was formally confirmed by members of the council.

Henry's statement, as regards his resignation, was very brief and offered no explanation of his move. Recently, however, his serving as engineer for the city has caused considerable dissension, and it had been intimated that, as a result of his serving without being qualified by law, the city might be plunged into numerous law suits brought by persons who might decline to pay their assessments on work performed under the supervision of Henry.

Although councilmen frequently have expressed themselves as entertaining no ill will toward Mr. Henry, it was commonly known that they felt his resignation would be the sensible answer to the problem which confronted them.

At last night's meeting, the council allowed \$90 salary for officers who served on the election boards during the recent city election. Forty-two dollars and 25 cents also was allowed for advertising prior to the election.

Application for a license, which was made by the Metropolitan cigar store, 1110 Main street, was referred to the police committee, as was a similar request from the Palace card room, to be located on Front street.

TERRIS ABANDONS TRIP

NEW YORK, Nov. 9.—Sid Terris, the flashy eastside lightweight, who was to have "boxed" Tommy O'Brien at Los Angeles, November 25, has been forced to abandon his proposed trip to the Pacific coast because of an injury to his right hand, sustained in a recent bout with Basil Galliano.

TANK FALLS TO CITY PAVEMENT

Airplane Drops Fuel Supply When 20,000 Feet In Air Pedestrian Nearly Hit

SAN DIEGO, Nov. 9.—An airplane gasoline tank hurtling downward for 20,000 feet after it had become unfastened from a racing airplane which was performing over the city, crashed on the sidewalk near the principal section of town tonight and narrowly missed striking a pedestrian.

The pilot of the plane did not know what had happened until he landed at the naval airbase with a dead motor. Immediately after the tank dropped the engine stopped, and the aviator, who was quite a distance from the field, guided the craft to a successful landing.

SMOKE NUISANCE BEFORE COUNCIL

Ordinance Regulating Evil Given Third Reading By Aldermanic Body

This is a story from last night's council meeting in which some housewives, who perform their own laundry work, may be interested.

And, should the housewives interest themselves in the subject to such an extent as have women in other cities, the Klamath Falls aldermanic body had better watch out.

It is not a long story, and it all hinges about a comparatively brief bill for an ordinance providing that certain types of smoke stacks be equipped with modern spark-arresters. But—Klamath Falls women have experienced the same annoyance as have women in other cities—the proposed ordinance may mean much.

Whether or not cinders from local plants leave a smudge on what was once clean linen, was not brought out at last night's meeting. Whether or not cinders make their way into business houses and

YOUTHFUL 'LEGGERS' NABBED WITH STILL

"I honestly hated to do it," declared Prohibition Officer Cole, early this morning. "I believe two of those youths are decent boys. I think they should have a chance."

He referred to the arrest late last night, of Dale Hughes, Dial Hughes, twins and E. C. Woodward. They were, Cole charges, in possession of a still and mash in a house located three miles west of Olene.

All of the three youths—the Hughes boys are 18, and the Woodward boy is 17—claim Yakima, Wash., as their home.

"They told me that they had not been operating the still, and I believe it," Cole said. "They said they had planned to run off some liquor last night, however."

In all probability, Cole said, the trio will be charged with unlawfully possessing a still. In the house where the three boys were, he explained, were 100 gallons of mash, and the still with a capacity of about 25 gallons.

"I don't believe there's anything wrong with the Hughes boys," Cole repeated. "I think they just got off on the wrong foot this once."

The three probably will be arraigned today before Acting Justice of Peace E. Kendall. They were arrested by Cole, Boyd and Laurence.

SMITH BOOM GETS EARLY START IN CAMP OF ENEMIES

Political Chieftians Receive Jolt

DARING STIRS "GANG"

Mayor-Elect Walker Takes Stump As Forerunner "Smiling Al."

WASHINGTON, Nov. 9.—Promoters of Gov. Al Smith's presidential boom are undertaking their work early and with such daring as to attract considerable attention in all political quarters.

They have lunged straight into the heart of enemy country—the south—acting upon the old military maxim that the enemy must be overcome at his strongest point. Mayor-elect James J. Walker of New York, is now in the south as an advance agent of the famous governor. He is there as a political John the Baptist, going ahead to herald the greatness of his chief in the center of the protestant anti-tammany democracy. His first speech is at Atlanta, the birthplace of the modern klan. Later Al, himself probably will make several southern speeches to show the southern voters that he wears no horns.

Smith's bid for popularity follows another one almost as striking in its audacity, his recent appearance at a middlewestern democratic rally at Chicago, when party leaders and delegations from several states in the grain belt saw him in action.

Such activity almost three years ahead of the next presidential campaign is unusual. It indicates one of the most determined fights ever made for the democratic nomination. Smith is only potential candidate who is active now, though there are some signs that the old McAdoo organization is about to

QUEEN SILVER ACTS FOR MOTHER IN CASE

LOS ANGELES, Nov. 9.—Mrs. V. Roser, charged with assault and battery, was represented by her 14-year-old daughter, Queen Silver, authoress and evolutionist, when she appeared in police court here.

Queen Silver entered a plea of not guilty in her mother's behalf.

Mrs. Roser was arrested following an argument with James Merry, fundamentalist orator of the "Bible institute." Merry openly insulted Mrs. Roser, she claimed, and she retaliated by whipping him with a small chain.

Queen Silver claimed that the action was justified.

The case was set for November 23.

The ticket is:

Progress and Prosperity Candidates
Charles Drew, 3 year term
G. H. Carleton, 1 year term
Eberlein-Bradbury Candidates
J. L. Jacob, 3 year term
R. L. Short, 1 year term
The polling places and the judges are as follows:
Precinct No. 1—Altamont; Garich's community house, P. E. Hannon, Mary Williams, James Dixon.
Precinct No. 2—Spring Lake; McClellan's store, Percy Dixon, Jess Johnson, Frank Mayfield.
Precinct No. 3—Midland; Midland hotel, H. H. Folsom, Henry Cratt, H. L. Jones.
Precinct No. 4—Olene; Corpening's store building, E. H. Moore, Frank Corpening, Hattie Marshall.
Precinct No. 5—Merrill; Ned O'Connor residence, M. P. Barry, Laura A. Hill, Wm. Jinnette.
Precinct No. 6—Malin; John Reber residence, Frank Zumpfe, E. D. Smith, M. M. Stastny.

TWO-GUN POSSE SEEKING KILLER

Determined Riders in Hunt For Slayer of Matt Burt Slain At Water Hole

SAN BERNARDINO, Calif., Nov. 9.—(United News)—A grim, determined posse of "dead shot" officers from San Bernardino were riding into the lonely spaces of the desert Monday on a hunt for the slayers of Matt Burt, cow hand, and an unidentified man at government hole.

Burt, a picturesque "two-gun" man, and a member of a cattlemen's band which drew water for their stock from the hole, was slain in a gun battle, when the band clashed with another group of cattlemen after a dispute over the water.

Nothing is known of the other man.

DISTRICT LOOKS FOR HEAVY VOTE

Estimated Water Users Will Turn Out In Full Force At Polls Today

Despite the rain, contenders on both sides in the election today for two directors of the Klamath irrigation district anticipated a heavy vote. Last year a poll of 278 votes were recorded and it is estimated that fully 400 water users will vote today out of the 450 eligible in the district.

Charles Drew is running against J. L. Jacob for the three-year term, and G. L. Carleton is running against R. L. Short for the one-year term.

At present the board is composed of R. E. Bradbury, president; Drew and Jacob, Bradbury was elected last year for three years.

The polls will be open from 8 a. m. to 5 p. m.

Water users say that never in the history of the district has such tremendous interest been manifested in an election. All four candidates have had their say, and their respective supporters and newspapers have had more than their say. It is now up to the will of the majority.

The candidates express themselves as satisfied with what has been done on their behalf, and now ask nothing more than a fair deal at the polls today.

PRISONERS STAGE FREE-FOR ALL GO

SAN QUENTIN, Calif., Nov. 9.—A free-for-all fight broke out among the prisoners at San Quentin penitentiary during the evening line-up Monday and two convicts were wounded when a prison guard fired to halt the disturbance.

The quarrel was between American and Mexican prisoners and a guard on the prison wall, after shouting a warning, fired into the group. The names of the wounded men were given as Guetterez and Ramez.

ITALIANS PROTEST

ROME, Nov. 9.—(United News)—Premier Mussolini has directed the Italian minister at Belgrade to protest against anti-Italian demonstrations in Jugoslavia. It is presumed here that the Jugo-Slavia action was prompted by the attack of a party of Italian youth on the Jugo-Slavia newspaper Edinost at Trieste.

COUNCIL FAVORS IMPROVEMENT; IS HELPLESS TO ACT

Main Street West Macadam Asked

PAVING IS ONLY WAY

Taxpayer Takes Exception To Hiring of Outside Sanitary Engineer

"You can pave—but you can't macadamize," was what the city council, in effect, told certain residents of Main street last night. The council looked with favor on the proposed street improvement, but could not see its way clear to grant the petitioners their request.

Dr. A. A. Soule, local physician, served as spokesman for the group which sought to macadamize Main street from the Big Bush Lumber company west to the government canal—a distance of approximately four blocks.

The council suggested that a new petition, requesting permission to pave, be circulated among the property holders interested.

Bitter exception to the council's proposed ordinance—which is being worn out by constant handling—was taken by John Cleghorn, local engineer, in a communication read at the meeting last night. The ordinance referred to has to do with the hiring of C. C. Kennedy, an outside engineer, to conduct a preliminary sewer survey at a cost of \$1850.

Cleghorn held that the work should be done by a competent city engineer, and suggested that the city could save a considerable sum by having the survey made by one of its own officials.

There was but little comment regarding the communication and, following its reading, it was silently tucked away.

Klamath Falls Girl Wedded in Pasadena

Coming as a great surprise to their many friends in Klamath Falls is the announcement of the marriage of Miss Dortha Elliott to Louis Reed. The wedding was an event of Monday afternoon, November 2 in the First Presbyterian church of Pasadena.

Mrs. Reed is the daughter of District Attorney and Mrs. E. L. Elliott and a sister of Miss Nelle Elliott. Mr. Reed is the son of Ben J. Reed of Klamath Falls.

For several years Mrs. Reed has been prominently identified in musical circles. She held a prominent role in "The Mikado" in the Ellison-White Chautauqua circuit of last year. During a recent visit in Klamath Falls she pleased with musical numbers on several occasions. According to members of the family, Mrs. Reed will continue her music and has had several brilliant contracts offered her for spring work.

Reed is identified with the Tru Blu Biscuit company in Pasadena, where they plan to make their permanent home. He is well known in Klamath Falls.

WOMEN OF CITY TO BE ASKED TO APPEAR AT COUNCIL MEETING AND TELL DADS WHERE TO GET OFF AT IN ARRANGING NEW CITY LIBRARY

H. L. Mencken, in his "In Defense of Women," holds that the average woman is more intelligent than is the average man.

Without committing itself, the city council, nevertheless, is arranging to invite Klamath Falls women to one of its meetings that the women may tell them just what type of library they want.

"I think we ought to please them—even if we have to have the plans and specifications changed," grinned Mayor Fred Goddard.

The council concurred. It requested the mayor to name a date on which the women may lay their plans before the aldermen.

The matter of consulting with local women came up when an ordinance, instructing the police judge to call for bids on the new city library, to be erected across from the city hall, was read for a third time and passed.

About a year ago, residents of Klamath Falls voted a \$50,000 bond issue for the erection of a city library.

CALL FOR HELP SENT BY SHIP

Ship Reported In Need Of Assistance 500 Miles Off Vancouver Island

VICTORIA, B. C., Nov. 9.—Racing at full speed, the steamer Salvage King left here at 2:45 p. m. Monday on a 500 mile race to render aid to the steamer Poloric, wallowing helplessly in a rough sea, with a heavy list to port, caused by a shifted cargo.

The Poloric of 6182 tons gross, and owned by the Andrew Weir line, enroute to Oriental ports from Vancouver with a cargo of grain. A wireless message Monday reported she is in distress 500 miles west of here in 50:41 north latitude, 133 west longitude.

Her cargo of grain had shifted, giving her a dangerous list, and a storm was raging, causing a high and rough sea.

RED CROSS READY TO LAUNCH DRIVE

District Leaders Named Who Will Conduct Canvass of City and District

By MAYBELLE LEAVITT

After weeks of persistent labor Mrs. Howard Perrin, Roll Call chairman for the 1925-26 Red Cross membership campaign, is in a position to make public the names of district chairmen, who are ready to open the drive on Armistice day. These district leaders will have teams of workers under them, many of whom are prominent club and society women of the city.

The drive last year resulted in memberships amounting to \$1600 and this year Mrs. Perrin feels confident the increased population of Klamath county will justify her in setting \$1800 as a goal.

"If everybody could know intimately the work that the Red Cross is carrying on," said Mrs. Perrin, "there would be no trouble in enrolling twice that number. Into communities devastated by tornadoes, floods, fires, and other disasters, the Red Cross carries medical and charitable assistance. Into our government hospitals it goes to brighten the long days of the wounded soldiers. Day in and day out its public health nurses are caring for the sick, protecting the helpless and poverty stricken and teaching the principles of good health to all."

There are four types of membership open to the prospective donor on Armistice day and the period following up to Thanksgiving day. These involve fees ranging from \$1 to \$25. From each membership only 50c goes to national

Wifie Busts Mirror Over Hubby's Head Then Gets Alimony

LOS ANGELES, Nov. 9.—It is commonly believed to be bad luck to break a mirror—it was extremely bad luck for Charles West. His wife broke the mirror over his head.

To that injury was added the misfortune of having a divorce case decided against him and alimony to pay.

When Mrs. Emily West testified Monday that she broke the mirror over her husband's head because he poisoned her milk, Judge Gates called her a divorcee and a lucky woman in the same breath.

USE WOODEN ROLLERS

LOS ANGELES, Nov. 6.—Everybody knows that Paris has a goodly quantity of beauties, but how many know why?

Two thousand dollars worth of wooden rollers, used as flesh reducers, manufactured here, were shipped to Paris by boat and labeled "rush consignment."
