Birthday Party  
8 to 10

WILD MURDER  
YEAR OLD  
KILLED

Confesses To  
Killing Child

HELD INSANE

Child Found In Old  
Following Heated  
Argument

Nov. 11.—(United  
News)—Mrs. Mary  
Keller confessed Wednes-  
day she had slain her seven-  
year old child, Mary, because  
she "had no chance in  
life."

Wingate said he  
was in custody of the  
child's neighbors. Fol-  
lowing a quarrel, a week  
before he left her home  
in Toledo,  
Ohio, saying the  
child was in a good  
state of mind.

Nov. 11.—One  
of the Gould  
children has dragged through  
the courts for eight  
years to an end, with a  
settlement of \$50,000,000.  
The estate of the late  
J. Gould, now de-  
ceased, was managed by  
his son-in-law, J. Gould,  
and his wife, Mrs. Gould.  
The estate was valued at  
\$50,000,000.

Nov. 11.—(United  
News)—A heavy  
sou'wester is moving toward  
the coast on the heels of the southeast  
storm which brought the first heavy  
rainfall during the last 24 hours.  
The new disturbance was reported  
central at latitude 42 degrees  
north longitude, 140 degrees west,  
and moving eastward with strong  
southerly gales.

Nov. 11.—(United  
News)—A rattlesnake swim  
fifty miles out in the open sea?  
Capt. R. E. Voeth, master of the  
fishing tender Idaho, says it can  
and he brought a set of rattles and  
buttons into port with him Wed-  
nesday to prove his contention.

## SYRIAN MENACE MAY TOUCH U. S.

### Philippine Authorities Are Held to Be Frankly in State of Worry

LONDON, Nov. 11.—(United News)—European statesmen believe that the repercussions of Syria's rebellion against government by the white race will reach as far as the Philippines. There is grave concern among the colonial powers for white prestige in Asia, Africa and the near east. Events in Syria combined with recent Moroccan, Chinese and Turkish defiance of western civilization, it is feared, will lead to further uprisings in the east which, perhaps, may eventually be fatal to white domination. The United States apparently is not vitally interested in the Syrian disorders, but it was said that this uprising against the French combined with other blows since the war at white prestige would be felt as far as the Philippines. "You may be sure," a thoroughly competent authority told the United News, "that the American (Continued on Page Two)

## RED CROSS GIVEN HEARTY SUPPORT

### Initial Day of Drive in City Indicates Klamath Will Go Over the Top

Klamath Falls shows promise of fulfilling her quota of Red Cross for 1925 if the spirit continues until Thanksgiving that was shown Armistice day, the initial day of the drive. During the afternoon a booth was maintained in front of the Pine Tree theater and solicitors were busy at the football game in order to sign up the holiday guests at both places of amusement. The first business house or organization in the city to report 100 per cent in the drive for membership was The Klamath News, who last night at eight o'clock sent in a membership for every person employed in the office, back room and advertising department. According to Mrs. Howard R. Perrin, who is chairman of the 1925 drive, the work is progressing well and those who solicited in the house to house campaign in the residential districts also reported exceptionally good luck.

## KLAMATH FALLS REGAINS RECORD

Klamath Falls regained third place in building permits issued during October throughout the state of Oregon, according to reports received by Judge L. L. Gaghagen yesterday. The reports show Portland leading with \$2,295,800; Eugene second with permits aggregating \$159,760; Klamath Falls third with \$71,090, and Salem following immediately with \$70,650. For August and September building permits issued throughout Oregon gave Klamath Falls fourth place. During the past month there has been no decrease on the part of other cities, however, Klamath has made rapid strides in preparation for her winter and spring building.

## BOMB FROM PLANE FALLS IN BUSINESS STORE IS LUCKY DUD

LOS ANGELES, Nov. 11.—A bomb containing explosive powder, dropped from an airplane during Armistice day maneuvers over the city, fell into a mercantile establishment where 12 persons were at work. The bomb, luckily, failed to explode. It came within two inches of striking David Jones. An investigation is underway to place responsibility on one of a score of aviators taking part in the maneuvers.

### WARSHIPS AT LEROS

ROME, Nov. 11.—The Italian dreadnaught Doria and four destroyers have arrived at the base of Leross, Dodecanese islands, where they will remain ready to proceed to Syria if developments warrant.

## Welcome—The Klamath News Invites the Public to Attend Its Birthday and Open House Party at The News Office Tonight

Today being the birthday of The Klamath News, marking its first year as a daily paper, the entire staff invites the public to come over and thoroughly inspect the plant. The News tonight is celebrating its birthday cake and the one candle by an open house party, to which everyone both old and young, are invited. The party will be held between 8 o'clock and 10 o'clock this evening. The News will do its best to make everyone welcome between those two hours. Members of the reportorial, business, advertising and mechanical staff will be on hand to show 'em around. Visitors can touch a key here which will form a section in the long-est leased wire service in the world, from whence comes news of far-off European cities, the near and far east, north, west and south, from all corners of the earth, clicking telegraph keys in The News office bring happenings of other folk to you. You can see how this is done. Then there are the almost human linotype machines. Giant and genius thrown into one intricate and delicate piece of mechanism, which cast the type, working steadily, ceaselessly in creating the thousands of lines of type which appear daily in the columns of The News. A trip through the press room and a view of the craft stereotyping, may prove of interest to those who like to see pictures in the paper. See Jiggs, Tillie the Toller, the Katzenjammer Kids and all of the eight pages of comics which appear every Sunday morning. You can see these turned out, and also The News' birthday supplement as it comes from the press, one of which will be presented to you on the spot. The pressman will start his press running off this section between 8 o'clock and 10 o'clock so that you can see how it's all done and get a copy for a souvenir. Mr. and Mrs. J. J. Keller have been engaged to serve refreshments to guests of The News. Remember, everyone is welcome, from pop to the baby. Yes, bring along the pup, too; there'll be cake enough for him. Just drop right in after 8 o'clock as if you owned the place, and The News staff will be glad to welcome you. Welcome to the word. Come, bring a friend—and see how a great newspaper is made.

## THREE AIRMEN ARE KILLED AS PLANE FALLS 1500 FEET

PASO ROBLES, Calif., Nov. 11.—(United News)—An airplane, brought here to add thrills to an Armistice day celebration, crashed from an altitude of 1500 feet Wednesday afternoon. Its three occupants were killed instantly. The dead are: Floyd E. Kelso of Santa Cruz, a stunt flyer; Percy Squire and Harry Wright of Paso Robles.

## Banks Help Bulls To Turn on Bears

NEW YORK, Nov. 11.—(United News)—The bulls had their innings in Wall street, Wednesday. Substantial recoveries were recorded in most of active issues which had crashed with the avalanche of selling 24 hours before. Stocks, led by motors, rebounded in a spirited rally, and the flood of liquidation which wiped out thousands of margins Tuesday, and for a time threatened to inundate the market, was checked. The banks helped the bulls to turn back the bear onslaught. It was nervousness lest the federal reserve bank of New York follow Boston's example and raise the discount rate which caused Tuesday's break. Word was passed around that no change in the local rate would be promulgated at Tuesday's meeting. One of the largest wire houses sent out calls during the night following the collapse of the market for more than half a million dollars in additional margin. Other houses had not waited for the close, but demanded more margin during the day of the reaction. Although not approaching Tuesday's record turn over, the total of sales Wednesday was 2,638,000 shares. Market experts now look for a gradual increase in prices.

## SOUTHWEST STORM IS REPORTED ON COAST

PORTLAND, Nov. 11.—(United News)—Warnings that a heavy sou'wester is moving toward the coast on the heels of the southeast storm which brought the first heavy rainfall during the last 24 hours, were posted today at all Pacific coast points north of Cape Blanco. The new disturbance was reported central at latitude 42 degrees north longitude, 140 degrees west, and moving eastward with strong southerly gales.

## WOW! SEA-GOING RATTLERS ARE REPORTED FIFTY MILES OUT IN OCEAN BY SKIPPER

SAN PEDRO, Nov. 11.—(United News)—Can a rattlesnake swim fifty miles out in the open sea? Capt. R. E. Voeth, master of the fishing tender Idaho, says it can and he brought a set of rattles and buttons into port with him Wednesday to prove his contention.

## AMERICA'S FINAL GIVEN DEBT BODY

### U. S. Commission Accede to Lenient Methods But Hold to Interest

WASHINGTON, Nov. 11.—(United News)—The Italian debt commission has been handed what members of the American commission have termed "America's final" proposal for the settlement of Italy's \$2,600,000,000 war obligation to the United States. It is understood that the American commission, while willing to grant liberal terms in the matter of a moratorium and reduced interest rates, has held to the principle of accrued interest and the limiting of the period of payment to 62 years. Late Wednesday it was announced that a full meeting of the American commission would be held at 10 o'clock tomorrow morning. It is believed the American offer would give the Italian government a complete moratorium on interest payments for the first five years, and a graduated interest rate thereafter, beginning at an exceedingly low rate. Payments, it is understood, would begin at once, but would be comparatively small for a number of years, probably one-quarter of the one per cent of the total. They would increase gradually until they reached something over \$60,000,000 a year. With the new offer in the hands of the Italian representatives, a feeling of optimism among those in touch with the situation is growing, based principally on the knowledge that Italy realizes that she must settle her war obligations here before she can hope to secure the great credits which she needs in order to return to a gold standard, and develop her country economically.

## VOLSTEAD WAGES WAR ON WHITE MULE KICK

ST. PAUL, Nov. 11.—(United News)—Andrew J. Volstead, father of the prohibition law asked the federal court here Wednesday to cancel 1,000 permits to sell rubbing alcohol held by druggists and distributors. Volstead acted in his new capacity as legal adviser to the northwest unit of the federal prohibition enforcement machine. He said bootleggers are redistributing the stuff and selling it for white mule whiskey.

## THE WEATHER

Oregon: Rain tonight and Thursday, moderate temperatures, winds mostly southerly.

## DINNER GIVEN TO HUGHES IS GIVEN POLITICAL TWIST

### Presidential Aspect Held Possibility

### TONGUES WAGGING

### Republican Party Having No Openings at Present Can Just Take Name

WASHINGTON, Nov. 11.—United News—The testimonial dinner just given to Charles E. Hughes in New York has been made the basis for political speculation which sets up this distinguished republican as a possible rival of President Coolidge for the next nomination. The speculation may be dismissed as the product of the dull season here. It has been cropping out intermittently since Hughes quit the cabinet in March. If the republican party stood in need of a first class presidential candidate it might turn to the recent secretary of state. But unfortunately for Hughes there are no openings at present and the best the party can do for him is to take his name and address and get in touch with him if anything should turn up. Republican senators and congressmen beginning to trickle for the session of congress regard the hold of President Coolidge on the country as remarkable. Senator Moses of New Hampshire has been in half of the states during the last few months and finds party leaders unRed in their support of Coolidge. He and other republican politicians detect no important drift away from Coolidge, either among professional politicians or among the voters generally who supported him at the election a year ago. There is criticism of some administration (Continued on Page Two)

## HOOVER NOW CZAR OF AIR INDUSTRY

WASHINGTON, Nov. 11.—For the first time in the history of American business, a huge industry has voluntarily given to one government official complete control over its destiny. The fourth national radio conference Wednesday crowned Secretary of Commerce Herbert Hoover its czar, and delegated to him unprecedented powers of regulation over a business which has an annual turnover amounting to many millions of dollars. Like Julius Caesar, Hoover thrice refused the kingly crown, but the radio industry, disregarding the classical precedent, finally crammed it over his head, deaf to all protests. Gloria Wiels a Mean Right Declares Deputy

## GLORIA WIELDS A MEAN RIGHT DECLARES DEPUTY

NEW YORK, Nov. 11.—The Marquise de la Falaise de la Coudrais, better known to movie fans as Gloria Swanson wields a mean right hand according to Sam Cohen, who is a process server by profession. Cohen stood at a safe distance Wednesday while one of his fellow process servers neatly served the papers on the dashing Marquise—who was dashing as fast as her French heels would let her toward her monogrammed limousine. The summons and complaint which were thrust into Gloria's daintily gloved flat were in connection with a suit for \$25,000 begun by Cohen, charging assault. Cohen alleges that when he tried to serve Gloria, with a subpoena to appear as a witness in the Dr. Hoffmann-Jnet Beecher divorce suit last September, the screen star dashed the papers aside, slapped him severely on the nose and laughed.

## TWO ARRESTED DURING RAID ON HOUSE PARTY

Ed Lowe, charged with possession of six pints of liquor, was arrested by prohibition office Cole, during raid on 413 North 10th street last night. Neighbors complained of noise and notified authorities, according to Cole, with the result that he, Officers Lorenz and Boyd staged the raid. Other members of the party were released. Lowe being held pending fixing of bail money. Gus Redeker who happened to stroll up to the house while the raid was in progress was arrested also, and held for possession of a pint of liquor.

## TRAFFIC VIOLATORS ARRESTED IN CITY

County Traffic Officer Knowles overlooked the fact that yesterday was Armistice day, and, in consequence, he warred on motorists in this vicinity. As a result of his activities, three men are to be haled before the justice of the peace today. L. F. Simons, of Santa Rosa, is accused of operating a car with a foreign license; William Weber, of Oakland, Calif., is charged with the same offense, and Fred Love of Klamath Falls, is accused of operating a motor vehicle whose lights are not properly adjusted.

## WIDOW TO TALK AT AIR PROBE

### Wife of Ssenandoah Offi- cer to Tell of Attempted Coersion Scheme

WASHINGTON, Nov. 11.—(United News)—Mrs. Zachary Lansdowne, widow of the commander of the ill-fated Shenandoah, will testify at the Mitchell court martial Thursday that the navy department made an effort to coerce her into giving false testimony before the naval board inquiring into the dirigible disaster. Representative Frank S. Reid, chief of the counsel for Col. William Mitchell, intrepid flier, whose denunciations of the army and navy's administration of air service led to his court martial, made this announcement Wednesday night. It followed closely a call for reconvening the naval inquiry court on Monday next to examine Mrs. Lansdowne, who has publicly stated that an officer of the navy endeavored to get her to give false testimony.

## K. F. H. S. DEFEATS ALTURAS 47 TO 0

### Local Grid Warriors Maul Visitors In Battle Through Mud

Klamath Falls upset 1925 football dope good and proper yesterday when she ended her last contest of the season with a 47 to 0 victory over Alturas. With the first whistle of the game the contest went to Klamath whose heavier and surer men saw the way of the goal post and through the enemy line six times. Conversations made five out of six tries. When the final quarter began the entire second string was in play with the exception of Frank Hall, who stayed through the game to assist the babes along. Every man on the team played a winning game, there were no injuries and time out called less than during any game of the season. Klamath's 1925 football season is over. She was placed second in the league games with eight letter men to return next year. She beat the only visiting team that invaded her territory outside of league schedule and finished in grand style. First Quarter Alturas kicks off, Hall receives on 15 yard line, runs back to 30 yard line. First and two to go, Hall goes off left tackle for 8 yards. Second and two, Barnes off right tackle, 3 yards. First and 10, Hall off left tackle, 7 yards. Second and three, Barnes through center, 5 yards. First and ten, Azzy off right tackle, 4 yards. Two and six, Hall around left end, 12 yards. First and 10, Barnes off right (Continued on Page Seven)

## LOWER KLAMATH LAKE TO BE MADE INTO DUCK HAVEN

### 30,000 Acre Area Is Recommended

### LONG LEVEE NEEDED

### Reference in Report Made To Reported Dying of Many Waterfowl

WASHINGTON, Nov. 11.—A committee of experts appointed by Secretary of the Interior Work to survey farm possibilities of the Lower Klamath lake region in southern Oregon and northern California today recommended that the region be converted into a lake of from 20,000 to 30,000 acres to be used as a breeding place for migratory waterfowl. The lake bed is of little use for agricultural purposes, the committee reported. Most of the water has been shut off from the lake bed by a railroad dike, but it may be flooded by opening the gates of the dike. This action cannot be taken at present, however, because of the necessity of about 10 miles of levee to protect farm lands. The agricultural department also is interested in the move and a number of organizations in the nation are anxious to create the bird refuge. The report called attention to assertions that many wild ducks are dying because of crowding into small lakes and ponds which are impregnated with alkaline poisoning.

PORTLAND, Nov. 11.—If congress appropriates funds for construction of a 10 mile dike to confine waters in the lower end of Lower Klamath lake as recommended by Secretary Work, all factions in the present conflict will be satisfied. The Lower Klamath situation was brought to a head two months ago when state game commission declared in favor of reflooding the lake. Residents of Klamath county brought pressure to bear on (Continued on Page Two)

## France Just as Wet Now as During War

PARIS, Nov. 11.—The seventh anniversary of armistice day finds northern France even wetter than it was when the fighting stopped in 1918 and with the old familiar haze hanging over the Argonne, up the Meuse to St. Mihiel. Otherwise the old fighting ground is vastly changed since the mud crusted boots of doughboys stopped through the muck or along the bumpy roads. War time disfigurement has been almost entirely obliterated. The reconstruction of the country has renewed the fields, the towns and the roads. The most significant change, however, was in the spirit with which the day was observed in Paris. Just after night-fall Gen. Gouraud, military governor of Paris, rekindled the flame of the tomb of the unknown soldier.
