

# STANFORD CRIMPS CLAWS OF BEARS IN HARD BATTLE

## Cardinals Win Against Old Rivals for First Time Since 1905

By HAROLD O. THOMPSON  
United Press Staff Correspondent  
STANFORD STADIUM, STANFORD UNIVERSITY, Calif., Nov. 21.—Stanford played inspired football in the first half of its "big game" against the University of California this afternoon and although the Golden Bear staged a desperate rally in the closing periods, the Cardinal emerged triumphant.

The score was 26 to 14. It was Stanford's first victory over its traditional rival in American football since 1905 and the wildest celebration ever seen on a Card athletic field, was staged in this stadium after the contest.

Stanford under graduates, thousands upon thousands of them, poured down from the stands when the final gun had assured them of their long delayed triumph. The Stanford band sent up a paean of gladness and the Card students serpentine about the field, ending up their dancing march in front of the California cheering section.

The Bear rosters, standing in their places in the gathering gloom, heard the Stanford cheers and, gamely, responded with their alma mater.

The game was a wide open affair. Stanford played superbly in the first two periods and at half time was leading 20 to 0. It looked like a stampede of the Golden Bear until the middle of the third quarter.

Griffin had gone in as a substitute fullback and was the one California player who could gain with any degree of consistency. He was ripping off large chunks of the green turf in plunges at the line, thrusts off tackle and in reverse plays through center.

The substitution of Carlson at quarterback improved the running of California plays and toward the close of the third quarter the Bear seemed almost the equal of the powerful California teams that have gone into history.

A march from the center of the field, with Griffin bearing a large part of the assault, brought California to the one yard line as the third quarter ended. During the moving of the ball the length of the field, the stadium within an uproar of cheering.

Stanford scored again in the last period, when Perrin's punt was blocked on the last down on the Bear one yard mark. Nevers crashed over the line on the first play.

California's second score came after the next kick-off. A pass, Perrin to Imlay, gained 16 yards. Griffin then tore loose for 25 yards through the line, eluding the Card secondary defense and racing across for the touchdown.

Stanford opened the game with a rush setting about this business of humbling the Bear in serious fashion. Couper kicked off for California and Nevers punted on the second play. California started to smash the line, but on the second attempt Young fumbled, Mitchell recovering for Stanford on the Bear 30 yard line. Bogue tore off five yards around left end. Nevers made a first down through the line and Murphy started around right end on a cruise that netted him a 17 yard gain and a touchdown.

The Stanford interference was bowling over brain tacklers with astonishing smartness. The Cards clicked off their plays with precision, showing not the least uncertainty in snapping into their formations.

A second touchdown was scored in this quarter when Stanford took the ball on downs on its 20 yard line and paraded down the field in a fashion that would not be resisted. During this march the Cards uncovered a short pass with Nevers on the hurling end, that worked for big gains. Bogue made the score on a double criss-cross after a run of ten yards. California showed somewhat better in the next period, but could not hold the determined charges of their opponents. Nevers was smashing the center of the Bear line to battered fragments, reeling off six, eight and ten yard gains, with regularity. He was hurt twice in the period, apparently suffering from leg injuries, but although a substitute was warmed up for him he would not leave the game.

Nevers scored the third Stanford touchdown on a crash through the line after a determined Card assault, which held from its 45 yard mark to the end of the field.

Nevers out-kicked California. The great blonde fullback, playing his last game for Stanford, showed his true brilliance in a battering assault that gained through a crumpling Bear line, with frequency.

Coach Andy Smith had developed a passing attack with Perrin who

took Dixon's regular place, doing the hurling. Perrin played sound football and stood out on many plays. With Griffin, Imlay and Carey, he was entitled to the honors among his team mates.

In addition to Nevers, Bogue, Murphy, Swan and Shipkey stood out for Stanford.

Stanford made 12 first downs to 9 for California. Seven of Stanford's first downs came in the first quarter.

The weather was all that could be desired and 73,000 persons saw the game. All the color of the annual "big game" was present, from the bright and expensive gowns of the women to the stunts of the rival cheering sections.

The line-up and summary.  
California Position Stanford  
Mell LER Walker  
Sargent LTR Rafetto  
Couper LGR Armstrong  
Miller C McGreory  
Carey RGL Swan  
Coltrin RTL Harris  
Huber REL Shipkey  
Blewett QB Mitchell  
Perrin LHR Bogue  
Imlay (C) RHL Murphy  
Young FB (C) Nevers

Score by Quarters  
California 0 0 0 14—14  
Stanford 13 7 0 6—26

Scoring:  
Touchdowns—Murphy, Bogue, Nevers (2); Griffin, (2).

Goals after touchdowns—Murphy (2), Perrin (2).

Referee George Varnell; umpire William McCord; head linesman, M. J. Thompson; field judge Dud Clark.

Time of periods—15 minutes.

# RADIO ENGINEERS WORK ON STATIC

## Interference Is Cause of Deep Study to Learn Source of Trouble

"The great obstacle to successful radio operation in both long distance communication and in broadcasting is that of interference, either natural through static or artificial through more than one radio transmission trying to occupy the air at the same time on the same or nearly the same wave length.

"All radio uses the same common highway, a highway the capacity of which is definitely limited.

"Crowding the radio highway causes interference. The radio road space depends upon the type of service. A high speed telegraph service requires more space than a slower one. The radio speaking telephone and radio broadcasting require more space.

"Radio engineers are continually working on the problem of decreasing the space now needed by particular services, and the boundary walls necessary to protect them. The attention of government as well as individuals is being directed to it, and progress is being made in finding adequate radio space for so many widely different travelers of the radio highway.

"There is not much exact knowledge of static and its first cousin, known as fading. What happens to the radio signal after it leaves the transmitter is still unknown. Its air path has not been accurately traced. Why it behaves erratically is still an unanswered question. Much study has been given to the merits of short wave lengths as opposed to long waves in long distance communications. Here are encountered the limitations on the radio highway traveled. The limitations are fading and the noise caused by static. On a telegraph circuit static perceptibly slows down speed. It occurs at all wave lengths that have yet been tested, but is less troublesome on the shorter wave lengths while operating on our present speeds.

"Fading, however, is more rapid and troublesome with the short waves. Static appears to be somewhat directional and the use of directional terminal receiving equipment shuts out the noises from all directions except that from which the signal is being sent. No subject in the world so constantly occupies the mind of radio engineers or so continuously monopolizes their endeavor. Its complete solution is still in the future. The best that has been done is by increased power to out-crash the crash, to increase the strength of the transmitted signal in proportion to the false interfering; signal made by static.

# U. S. C. TROUNCES IOWA UNIVERSITY IN 18-0 VICTORY

## Corn Belt Warriors Stopped Again and Again By Fine Defensive Work

By LINCOLN QUARBURG  
United Press Staff Correspondent  
COLISEUM, LOS ANGELES, Nov. 21.—California climate and superior offensive strategy turned back a fighting team of gridiron warriors from the corn belt, and Southern California handed Iowa university a decisive trouncing here this afternoon, 18 to 0.

The charges of Coach Howard Jones, erstwhile mentor of the vanquished team from the midwest displayed a dazzling attack that virtually overwhelmed the stubborn invaders, and the versatile offensive of the Iowans was completely smothered by a superior Trojan defense.

The Californians made a total of 24 first downs to Iowa's 7.

"Cowboy" Kutsch, Hawkeye backfield artist, was stopped in his tracks time and again, and Iowa's great aerial attack was unable to function with any notable success. Larenetta, plunging fullback, was U. S. C.'s outstanding star. He waded through the Hawkeye defense with almost consistent regularity and made repeated gains and two of the Trojan touchdowns. Cravath, 165 pound Trojan center, also distinguished himself, although he was opposed at the pivotal line post by Capt. Griffith, the 210 pound Hawkeye captain.

Fry was the only Iowa battler, who could gain consistently. The big fullback played a brilliant game, and was easily the star of his team. Sixty-six thousand spectators witnessed the inter-sectional clash, a remarkable audience in view of the fact that thousands of southern Californians were watching the Stanford-California classic at Palo Alto.

The final 10 minutes were played in the dusk, with Iowa calling time repeatedly to switch the lineup. The Trojan rosters furnished a thrill for the spectators when darkness came by forming a lighted "T" with matches. The impromptu novelty drew an ovation that distracted attention from the players. Kaer pushed over the third Trojan touchdown after the stadium had been lighted with arcs.

# Basketball Squads Outline Schedules

Klamath county's basketball schedule, outlining the activities of the next feature of the athletic season, was sanctioned yesterday when a group of representatives from five schools in the county met in the city to debate the main features of the season.

Only one school out of the five represented, will not enter the Klamath county league. That school is Bonanza.

Those to represent Klamath Falls included Principal Paul Jackson and Coach Dwight French. Principal Schultz and coach represented Henley. Principal Street represented Malin and Coach Turnbaugh and Coach Hendrickson appearing for Merrill. William Luebke of Bonanza represented that school and made formal resignation from the league.

Klamath will play two games on the home floor and a third game will appear in Klamath between Malin and Henley.

Following is the schedule in which Klamath is interested: Klamath at Henley, January 15; Merrill at Klamath, January 22; Klamath at Malin, January 29; Klamath at Henley, February 5; Klamath at Merrill, February 12; Malin versus Henley at Klamath, February 15; Malin at Klamath, February 19.

# FEE IS KAY-O'D

LOS ANGELES, Nov. 20.—Fidel La Barba, flyweight champion of the world, knocked out Ray Fee in the first round of a scheduled ten round bout here Friday night.

Fee never had a chance. La Barba crowded his opponent from the sound of the gong.

# AGGIES CINCHED FOR SECOND HOLE IN COAST CIRCLE

## Oregon Defeats Vandals By Score of 36 to 7 On Boise Field

BOISE, Idaho, Nov. 21.—Oregon Aggies clinched second place in the northwest conference and a meeting with U. S. C. for second place in the coast conference by defeating the Idaho Vandals here today 16 to 7.

It was done by a few sensational plays, Idaho earning the lion's share of gains in every period, and making 13 first downs to the Aggies five.

A punt blocked on Idaho's 25 yard line eight minutes after play started gave the Beavers their first score, the ball bounding back across the goal line, where Luby fell on it. In the second period, after Idaho had repeatedly stabbed the Aggies line, a punt was intercepted by Edwards in midfield.

Luby went around for 30 yards and Schulmerich smashed through the line, in two downs for a touchdown. Idaho gained repeatedly in the third quarter on long passed and short end runs, scoring on a pass from Regot to Cameron, who was tackled on the goal line, where he caught it. The final O. A. C. score in the last period was on Snider's 60 yard punt across the Idaho goal line, his ends nailing the Vandals who caught it for a safety.

Mathews' young Vandals showed strong defense and were a threat

to the Beavers all through. In the first half they smashed the Aggie line and in the second they demonstrated a final aerial game. But lack of generalship and certain needed strength in the backfield lost their advantage.

The team's lineup as follows: O. A. C.—Robins, L.E.; Dixon, L.T.; Robert, L.E.; Balcom, C.; Badley, R.G.I.; Hale, R.I.; Logan, R.E.I.; Edwards, G.B.; Schulmerich, L.H.; Luby, R.H.I.; Snider, F.B. Idaho—Nelson, L.E.; Bucklin, L.T.; Diehl, L.E.; Stevens, C.; Terry, R.G.I.; Garlin, R.I.; Erickson, R.E.I.; Erickson, R.E.I.; Powers, G.B.; Davidson, L.H.; Cameron, R.H.I.; Owings, F.B.

Officials—Mulligan, Spokane, referee; Bartlett, Seattle, umpire; Morris, Seattle, headlinesman.

Substitutions—O. A. C.—Liebe for Hale, Denman for Luby, Olmstead for Badley, Plumb for Robert, Carr for Robins, Hale for Dixon, Luby for Denman, Badley for Plumb, Dickerson for Liebe, Grider for Luby.

Idaho—Regot for Powers, Walmsley for Bucklin, Jacoby for Cameron, Cameron for Jacoby, Duff for Davidson, Baird for Owings, Yerk for Stevens, Jones for Walmsley, Davidson for Duff, Jacoby for Cameron.

# DRAKE DEFEATED

DES MOINES, Nov. 21.—Iowa State college defeated Drake university Bull Dogs, 7 to 6 here today before a crowd of 15,000. Three safeties, presented the Bull Dogs by the Cyclones, accounted for Drake's score. The game was replete with thrills, both teams opening up with passes which often were completed successfully. The first three periods were scoreless, the opening quarter being fought in Ames' territory.

# NEW FIGHT BE SEEN NEXT FIGHT

## Matchmaker Man for Sam For Harlow

There will be a next boxing card with a benefit for the chest, wherein the receipts go to the Christmas cheer. Sam and Johnnie first to come forward for those not so fortunate. Ready for the next date to be set here, son, of Kureka a 110 weight) who bids for notable attraction in if he keeps up his game. With him and from is Mickey Othman, around 142 pounds, fighters come well and are out to build themselves.

Fans will be interested that Gibbons will meet the Klamath Falls given an excellent self during his last. Sams is a steady one a lot of wallop, showing up looking more are due in future. Not only a split wind with the (Continued on N

# \$895~at these prices the world's greatest "Six" values \$1095

[ Price alone means nothing ~ the real thing is ~ what does the price pay for ]

"... beauty never before seen in a popular priced car" ... "Pullman comfort compared with a day coach when I think of other sixes" ... "indeed a real automobile" ... "remarkable engineering" ... "better than other cars which cost me twice as much" ... so say owners of the Overland Six.

**Distinctive beauty**  
About either of the two Overland Six Sedans there is an unmistakable air of distinction and beauty—these are no ordinary cars built in quantity to sell at a price. They are the summing up of the best that motor car building can give ... they look it in every line ... in the charming and distinctive colors ... in the rich trimmings ... in the low graceful lines ... in the upholstery. Critical buyers have only words of praise.

**Delightful roominess**  
There are 16½ cubic feet more room in these sedan models than you find in the ordinary six. That's room enough for 1½ people. But in the Overland Six it is the extra room which means comfort and enjoyment on long trips. No one is crowded ... there is room to move around ... no one is cramped ... the driver has all the leg room he will ever need.

**Surprising convenience**  
Women know what Baker velour is. That is what is used in the de luxe model ... dust proof ... moth proof. And there are handy pockets, generous

in dimensions, to carry bundles. The upholstery in the standard sedan is a practical, hard wearing fabric that will stand the roughest usage ... just the kind of cloth where there are kiddies or when you want to store your camping outfits inside and luke for the long trail.

**Superior engineering**  
An internationally famous engineer calls it "an engineering masterpiece" ... lightning getaway ... tremendous power ... stamina you cannot break down ... and an economy you can find in no other six-cylinder motor. Drilled crankshaft ... engine, clutch and transmission in one unit ... straight line drive ... low center of gravity.

**Come—see this master car**  
Learn by inspection ... by demonstration ... just what remarkable values are offered in the two Overland Six sedans. Come prepared to compare with other cars. But see it ... whatever else you do.

**Easy terms to suit**  
The down payment is small—the monthly payments can be arranged to suit your pocketbook. And we will accept your present car as part payment.
