### Ride 'em Cowboy!

And Weep Over the Political Nag

An old retired cowboy was telling the reasons he had never run for office in Klamath county.

"Not me—the old political horse is one I never want to ride," he said. "And what's more, I don't see anyone else around here that's staying put in likely fashion."

It is almost the fact. With the exception of a few judgeships and county offices, where merit has maintained men in office, the other political mounts are hard to ride. Riders are constantly taking the bumps, some of them before they get a foot in the stirrup.

Why this state of affairs? Are good riders scarce?

Klamath, city and county, is going to need real men in the saddle during the months and years to come. Too many ragged ends are found costly. Horses and riders trip on them constantly. There is sad evidence of a poor show.

The public, astride the corral fence, turns its weary eyes away. It cannot arouse itself over the spectacle of a rider slipping and pulling a frazzled, slab-sided, fuzzy tailed political nag down in the dust on top of him.

### More Work, Less Politics

Unselfish Effort, Europe's Real Hope

European statesmen have expressed the belief that they see in France an opportunity for another dictator. They aver also that Europe is entering into a period of dictatorships that will endure for a generation, perhaps more. With France lining up on the dictatorship government there would be formed in all probability a league of European dictators, with Mussolini and the others, in a consolidation which may even produce other dictators.

It is not likely that the people of Europe care so much what form of government they labor under. Filled purses, filled cupboards and funds ready for the landlord will tend to insure a peaceable frame of mind for the people, no matter whether it be a dictator or what who does the ruling of government.

Peace, hold those who forsee the dictatorship form of government, will not serve to turn men's minds from politics. More work and less politics and it is almost a foregone conclusion that conditions in Europe will improve.

Judge Stadter of Portland imposed a fine of \$500 and six months' imprisonment for cruelty to animals, in the case of a man dragging a collie dog to death behind his automobile. Such a sentence will bring him to an understanding that even a dumb brute has a right to be killed without unnecessary cruelty.

### Dinner Stories

The famous criminal lawyer had won a shockingly bad case by eloquence and trickery, and a rival lawyer said to him, bitterly:

"Is there any case so low, so foul, so vilely crooked and shameful that you'd refuse it?"

"Well, I don't know," the other answered with a smile. "What have you been doing now?"

The late John S. Sargent, the artist, used to tell a story about an old man who once called at his Tate street studio, saying he had just been discharged from the hospital, and asked for a little food or money.

Mr. Sargent gave the old fellow a half crown, and then decided the old fellow would make a good model, and sent a maid out to call him back.

"Hi, come back," the maid said, as she overtook him. "The master wants to paint you."

The old fellow hesitated. "Will he pay me well?" he asked.

"Oh, yes," said the maid. "He'll probably pay you a pound."

The old fellow took off his shabby old hat and scratched his head. Still he hesitated.

"It's an easy way to earn a pound," said the maid.

"Yes, I know that," said the old man with a troubled smile. "I was only wondering how I'd get the paint off afterwards."

A young five servant girl was asked if she slept well and enjoyed her bed.

"I sleep well enough," she replied, "but I canna say muckle about enjoyin' ma bed."

"Dear me, why?"

"Just because I'm nae suner bedded than I'm sleepin', and nae suner waken than I'm up. I've nae time tae enjoy ma' awa'."

### Publishers Column

Have you thought about Klamath in 1950?

A cub reporter on a newspaper had tired of doing "history," as the "25 Years Ago Today" feature is known in the editorial offices. It was his task to dig the paragraphs out of the musty files.

"The folks I'm writing about will all be dead in another 25 years. What's the use?" he said.

It was a fact. The majority of people that make news are 25 or more years old. Give those on whom life insurance is not collected another 25 years to break into the "history" column. Then add on the cub reporter's quarter of a century. And where are they? All cannot reach the age of Methuselah.

The Klamath News will not occupy the basement of the Odd Fellows' building in 1950. It will serve a population of 75,000 from the tallest office building in town. Its present staff will be scattered to the high heavens and four winds—that is, those who are not wearing long whiskers.

The mountains will be bereft of their present stand of stately pine. The sawmills and picturesque lumberjack will be gone. Agriculture and resort business will support the community. The Indians will be digging sugar beets. Water users will have their charges paid up, and have learned how to get along with the reclamation service—maybe.

The city of Klamath will extend beyond Altamont on the east, and far up into the hills and down the lake. Yes, including Hot Springs. The court house down in that direction will have long since been converted into a Y. M. C. A. There will be more railroads by 1950—also maybe.

All most of us will mean in another 25 years will be a paragraph in the "history" column. We may read it—maybe.

Giblet Gravy—Clean the giblets and cook them until tender in water enough to cover. Save the water in which they were boiled; put over the fire in a saucepan a heaping tablespoon each of butter and flour and stir them until they are brown. Gradually stir in the chopped giblets and broth. If there is not enough broth to make a gravy of the proper consistency add a little boiling water; season the gravy palatably with salt and pepper; let it boil for a moment and serve.

Sour Cream Dressing—One-half cup sour cream, one-half tablespoon vinegar, pinch of salt, one-third cup sugar. Do not add dressing to cabbage until ready for meal as it loses its crispness.
