PERSONS KILLED BY AUTOS IN S. BORDERS

of American Cities Human Slaughter by Records

1925, by United News) Nov. 25. — (United News) of American cities human slaughter by automobile accidents killing more than 100,000 persons in 1925, and maintaining the record.

Half of the victims are killed in the streets or cross-roads en route to and from homes.

Statistics are announced by United News by Carroll C. Robinson, chief statistician of the National Bureau of Census, whose estimate for 1925 is based on the basis of fatalities for the first nine months of the year.

Robb makes allowance for the fact that during November and December many automobiles are on the streets because of the holidays.

With these decreases the number of persons killed in automobile accidents, says Robb's estimate, is 55 per cent of the total for 1924.

The date indicate that Los Angeles, Detroit and Cleveland are in the lead, with 19, 18 and 17 deaths per 100,000 population.

The figure of 1925 seems to be about the same as in 1924, and would avoid being among the cities for death between 1924 and 1925.

On the safety campaign being more of a time-worn war, the slogan is "Don't drink and drive."

Who will be killed in 1925? The number of automobiles in the United States, Rural routes, grade crossings, and smash-ups with automobiles.

The greatest loss of Robb's statistics across the street, 2,800 persons were killed last year was an increase of 10 per cent over the total for the year.

The upward trend has been an alarming pace for the last few years.

At least 50 per cent of the deaths are avoidable, according to the council, which is in the campaign of precaution.

The council sees the problem as three parts: Educational, mechanical.

A campaign is being launched to teach safety in the schools, and to pass laws, such as those for seat belts, and aid cities in making safe streets.

MARQUIS OBJECT OF MARY BAKER

Duke of Leeds House Silent On Reported Engagement of 24 year-old boy

LONDON, Nov. 25. — (United News) — Mary Landon Baker's fickle fancy has centered on the 24-year-old Marquis Carmarthen, heir to the dukedom of Leeds, according to reports which could not be confirmed at the ducal home Wednesday night. The pair are said to be engaged.

At the duke's residence all information or comment was withheld, except the statement that the marquis was absent.

The report of re-engagement surprised Britons, who are acquainted with the marquis's family. There is considerable doubt as to the possibility of the duke approving the match. The marquis, it is explained, is an only son, and was born after three girls in succession had come into the family. Hence, the marquis is highly prized.

PRESIDENT BUSY WITH MATTERS OF STATE FOR TALKS

Usual Thanksgiving Message Is Curtailed By Press Of Official Needs

WASHINGTON, Nov. 25. — (United News) — President Coolidge and other officials were too busy with messages to congress, coal strikes, court martial and other annoyances to prepare the usual Thanksgiving statements.

To help out in the rush, the following forms are recommended for busy officials this year:

President Coolidge:

"I'm thankful that the country is prosperous; that every one is working except the anthracite miners; that business is good; that some Europeans are paying some of their debts; that Senator Walsh isn't investigating Teapot Dome; that the democrats can't find an issue; that taxes are going to be lower; and finally, that so far this year the senate has rejected only one of my cabinet selections."

Col. Mitchell:

"I don't know just what to say until this court martial is over."

Senator Borah:

"I refuse to be thankful. If the president doesn't quit sending for me in the white house car I'm going to have difficulties in explaining it to the folks in Idaho."

Speaker-Designate Longworth:

"After twenty years as the husband of a brilliant wife, and one as the father of Paulina, it's going to be a big relief to be a speaker in my own right."

Non-partisan tax bill:

"I've got a cinch this year and"

CHAPMAN GETS 3 MONTHS' STAY

Connecticut Governor Gives Condemned Man Until Mar. 3 to Live

HARTFORD, Ct., Nov. 25. — Gerald Chapman has won three more months of life.

Governor Trumbull late Wednesday granted him a reprieve which extends until March 3, his sentence of execution.

The governor's announcement, followed by a few hours the action of President Coolidge in commuting his sentence to the federal penitentiary at Atlanta. Chapman, sentenced to hang December 3, refused the commutation.

The reprieve was granted to give the attorneys of the mail bandit and murderer time to proceed with their legal attempts to save him from hanging in Connecticut.

Although the highest law enforcing powers of the nation and state are determined that his sentence to die for the murder of a New Britain policeman shall be carried out in the near future, Chapman is fighting them all tooth and nail, and seems to stand a fair chance to win.

PLAYERS TRUST HELD RULER OVER MANY CITY FILMS

Methods of Control Charged As Unfair By Other of Moving Concerns

WASHINGTON, Nov. 25. — The Famous Players-Lasky corporation has a complete monopoly of first-run theatres in dozens of cities in the south, it was charged Wednesday before the federal trade commission.

Attempting to show that the huge motion picture concern, through control of first run theatres in certain sections of the country has resorted to unfair methods of competition, W. R. Fuller, chief government counsel in the hearing before the trade tribunal, presented a list of southern cities in which he claimed Famous Players controlled the high class motion picture outlet.

Among these were many cities in Florida. He also named Dallas, Tex.

Fuller contended that the alleged control of all of the first-run picture play houses in these cities proved that the Famous Players-Lasky corporation was not merely attempting to find a legitimate outlet for its product, but was attempting to create a monopoly in certain sections of the country.

"The profits of the distributors are to be derived in the foreign field," Fuller declared. "If one company can control one section of the domestic field so that there is a loss to others that cannot be made up by foreign trade, then there is a monopoly."

Counsel for Zukor claimed before the tribunal that Famous Players-Lasky produced only 12 per cent of

FARMERS TO GAIN LITTLE ON FINE HARVEST OF CORN

Bumper Crop Held to Bring Five or Six Cents Less Than Original Cost

CHICAGO, Nov. 25. — (United News) — According to the American farm bureau federation, here are some of the things the Chicago conference will learn when it meets December 1 to discuss the Iowa corn crisis:

That Iowa is only one of eight other corn belt states facing the same situation.

That the farmers have raised a bumper crop, costing them in the neighborhood of 68 cents a bushel, and that they stand to receive no more than 50 or 60 cents a bushel for their product at the farm.

That the loss on the crop probably will reach \$400,000,000.

That banks are failing because the farmers were given big loans to seed their fields, and now have no prospect of being able to pay off their debts.

The farm bureau federation is inclined to blame speculation for the low price of corn.
