ESTIMATES ON PROJECTS ARE SENT CONGRESS

PORTLAND, Ore., Dec. 9—United News—Reappropriation of federal funds for the Kittitas, Vale and Owyhee reclamation projects was recommended in the budget estimates sent to congress at Washington today.

These amount to $500,000 for Vale, $315,000 for Owyhee and $275,000 for Kittitas.

The Baker project was not included in the estimates but is listed with a note directing attention to a former appropriation which has not been used.

For Klamath Falls, $140,000 is estimated; for Umatilla next year is $307,000.

The Crater Lake national park administration and improvement is listed with an appropriation of $37,160.

For maintenance of the Indian school at Salem the appropriation of $241,000 is proposed.

Grand Rapids Hen Holds Egg Record

CHICAGO, Dec. 9.—Meet Hazel, a white leghorn hen, who let it be said, is some chicken.

Just now Hazel is on exhibition along with some 3,500 other hens, roosters, ducks and geese at the annual exhibition of the Great Mid-West Poultry and Pet Stock association.

She comes from Grand Rapids, Mich., and holds the record in that state for laying 293 eggs in 365 days. Which is why Hazel is worth $1,000 per pound, in the opinion of her owner, George Haaris, and Hazel weighs five pounds.

Some chicken!

AMBASSADOR DELAYED

PARIS, Dec. 9.—Senator Henri Berenger has decided to postpone his departure for Washington, where he will become French ambassador until late December or early January.

SUGGESTIONS FAVORED

WASHINGTON, Dec. 9.—President Coolidge's recommendations for handling coal difficulties were followed by others in the form of bills and suggestions from members of congress.

Senator Borah, of Idaho, who has been a leader in agitation for coal legislation approved the recommendation of the president for granting authority to the chief executive and the departments of labor and commerce to deal with an emergency with power to appoint temporary boards to investigate and arbitrate differences between operators and miners.

REDUCTION IN CAPITAL

LONDON, Dec. 9.—Reduction in world armaments is held partly responsible for the sensational announcement of Vickers, limited, that the directors had recommended a reduction in capital from $132,500,000 to $99,000,000.

Vickers is one of the Great Britain industrial organizations.

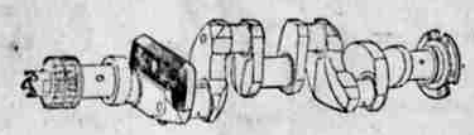
What is the Harmonic Balancer?



Why is this new Oakland feature creating such wide-spread interest? Why is it regarded as the year's outstanding advancement?

The Harmonic Balancer is an entirely new engineering development, pioneered by Oakland, and rendering the Oakland Six engine unmatched in freedom from vibration at all speeds.

This remarkable feature does not merely *dampen* vibration—it *prevents* vibration. It makes use of a simple natural law to neutralize any twisting of the crank-shaft under repeated piston impulses and thus stops torsional vibration at its very source.

But the Harmonic Balancer is not all. The new Oakland Six embodies more than 100 other improvements including Four-Wheel Brake refinements, Air Cleaner, Oil Filter, and Full Pressure Oiling System—yet prices are $70 to $350 lower.

Small Pianos as Christmas Gifts

We still have a number of the small bungalow size pianos for delivery Christmas Eve.

Remember a small piano is like a wrist watch—a cheap one is not worth powder to blow up and in order to satisfy yourself that you are buying a small piano with a big tone we advise you to shop around.

You should pay more for a small piano than for a larger one as it takes more care in the factory in crowning the sounding board and producing an instrument that will "stand up."

We have two makes in these dainty bungalow pianos which we can unhesitatingly guarantee.

The prices are quite reasonable as they come from New York City by steamer through the Panama Canal at considerable saving in freights.

Reliable folks may take 30 months in paying for one of these life time Christmas Gifts.

Do it today—Look them over.
