# A CHRISTMAS GIFT FOR THE WHOLE FAMILY

Radiola 25, (pictured above) a six-tube uni-control Super-Heterodyne that uses the new power tube. It has space in the cabinet for dry batteries, but can be used with loudspeaker Model 100 without batteries. With 6 Radiotrons • \$165

**Selectivity**—

The perfect reception of the Radiola 25 is absolutely sure. With the increasing number and power of stations the great difficulty of "tuning-in" experienced by inferior makes, is eliminated by this second-harmonic, 6-tube Super-Heterodyne.

**Volume**—

Volume of tone is another important characteristic to be considered. However clear, strength of tone is also necessary to make for perfect reproduction. This the Radiola 25 assures with its new Radiotron UX-120, dry battery power amplifier.

**Tone**—

For perfect reproduction of tone no finer instrument is built than the Radiola 25. The acoustical synchronism of all the elements from the broadcasting station to the receiver is harmonious—perfect. Its amazing clarity of tone is only one of its outstanding features.

**Distance**—

Every demand of the broadcast listener is met in this latest model. The new RCA uni-control mechanism is employed, allowing sensitive tuning by means of a single control on both local and long distance stations. Perfect "tuning-in" from a distance with this instrument is a matter of marvel.

**Operation**—

The new uni-control system is simple—efficient, no technical knowledge being required. This latest development in single control tuning operates without sacrifice of quality or selectivity.
