W. C. Durant Pulls Coup on Stock Exchange from Hospital Cot

NEW YORK, Jan. 20.—From his bed in the Post-graduate hospital here, where he is convalescing from injuries received in a Florida train wreck, ten days ago, William C. Durant, Wall street's most picturesque figure, is reported to have engineered one of his famous coups Wednesday. He is said to have put to rout speculators on the floor of the stock exchange who had sought to force prices down in stocks in which he was interested.

Durant ordered heavy buying of U. S. Cast Iron Pipe, Baldwin Locomotive and General Motors stocks, according to the report. Shortly after Durant's orders were handled on the stock exchange floor Cast Iron Pipe, which had declined three points due to the bearish element predominating earlier in the day, rushed up six points, attaining a net gain of three points for the day. General Motors and Baldwin Locomotive behaved in a similar manner.

CODY DIAMOND BECOMES GLASS

Detectives Seek Clews on Gem Robbery Mystery In Colorado

LOVELAND, Colo., Jan. 20.—The detecting talent of this county is "hot" on the trail of a big diamond, once the property of "Buffalo Bill" Cody, which, while reposing in the vault of a local bank, now defunct, turned to glass.

The stone, doubly valuable because it was presented to the picturesque Indian fighter and scout by a European monarch many years ago when he was traveling abroad. He prized it greatly and it adorned his favorite fetish.

When "Buffalo Bill" died several years ago the jewel became the property of Cody Boal, his nephew. Boal became involved in financial difficulties and turned the gem over to the Northern State bank of Greeley, Colo., as collateral on a loan.

To contribute to what is assuming the elements of a good diamond mystery story the doors of the bank closed two years ago and the diamond was held as property of the county because Boal refused to pay his taxes.

But the plot thickens! When a Weld county court last Friday decided the gem should be sold, and it was ordered removed from the vault, a jeweler advanced the information that it was "church window glass."

The assets of the bank go on sale Wednesday and there may be further disclosures that will enable the local Nicholas Carters to unravel the mystery of "Buffalo Bill's" diamond.

Be sure of your furnace!

Your comfort—even your health—depends on the kind of heat you obtain from your furnace. That kind of heat depends on the construction of your furnace and the skill with which it is installed in your home. Health requires an abundant circulation of warm moist heat! Not just heated air. Comfort requires adequate heat at minimum expense and effort.

MODISH DRESS ADVANCE GIVEN

Small Turban Hats Are the Ultra Proper With a Riot of Color

WEST PALM BEACH, Fla., Jan. 20.—What Fifth avenue and Main street will wear a few months hence is in evidence here now, according to the fashion experts. Hat styles still cling to the small turban fitting snugly to the head. Black velvet and brilliant silks with a single pin of brilliants are popular.

The circular skirt continues popular after its recent return from several years of obscurity. For sports wear an ensemble creation of bright orange kasha in a straight coat, pleated skirt and an over blouse of silk plaided in black and yellow gives an idea of the preponderance of brilliant colors. Smart tailored effects are very popular in sports clothes.

But it is the shoes that take first honors. Combination shoes are all the vogue, with many interpretations in black and white. White kid shoes with appliques of black patent leather, irregular in shape and different on each shoe, are being worn.

CARDINAL FAILING.

BRUSSELS, Jan. 20. — (United News)—Cardinal Mercier is very weak, although there were no alarming changes in his condition Wednesday. The cardinal is slowly declining.
