MUSICAL RECITAL TO BE GIVEN SOON

An interesting announcement was made yesterday by Mrs. A. J. Voye

in regard to a musical recital to be given on February 26 at the home of Mrs. Fred Schallock on Pacific Terrace, when she will present several new pupils of voice.

Mrs. Voye is one of the most ardent workers in the musical circles of Klamath Falls. Her untiring efforts have brought many mediocre character of tones into well trained, well modulated voices as shown by her recent recitals of the past.

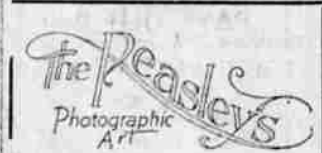

Among those who will be presented on February 26 at the Schallock home are Miss Irene Anderson, Jerome Henry, Miss Marie Davenport, Miss Evelyn Amiecke, Jack Whitney and Howard Graham. It is planned to also include a boys' chorus of five voices on that evening.

In the near future Mrs. A. J. Voye, Mrs. Harvey Borgman and Harry Borel plan to announce a joint musical recital with their pupils of voice, piano and violin. The affair is expected to be of great interest to those interested in music in the city.

During the second week of February Mrs. Voye will demonstrate a most successful method in concentration at her home, showing what her pupils, if they give time and earnest work to their study, can achieve.

The Charm of This Radio Is Enduring

THE real charm of radio is music—real music, so mellow and realistically reproduced that it holds one year after year—rather than just a month's novelty of hearing distant call letters.

This radio set is one that gives enduring enjoyment. It has the pleasing tone that made Sonora famous. It is made by the Sonora Phonograph Company which means that it is one of the highest type musical instruments made.

It is a five-tube circuit, highly selective, with remarkable tone quality and volume.

SUPERIORITY too Great to be Overtaken

Today Chrysler is talked about and desired with even greater eagerness than two years ago, when it brought the first new note to motoring efficiency in years.

Chrysler was first to sweep old traditions aside. The new kind of performance, comfort and beauty which Chrysler created, captivated the public and exerted a tremendous influence on all motor car developments since that time.

But even the past two years have not brought any other car abreast of Chrysler.

Chrysler, meanwhile, has developed its own new measures of manufacturing fineness, new features of extraordinary equipment, new superiorities of performance and new standards of

riding and driving ease—in the Chrysler "70" and the Chrysler "58" as well as in the new and supreme Chrysler Imperial "80".

The world has given recognition to outstanding Chrysler superiorities with a volume of popularity that sweeps beyond any previous height.

The purchase by the public of more than 280 million dollars' worth of cars of Chrysler manufacture during the first two years of Chrysler history takes premier rank among the industry's most brilliant achievements.

The Chrysler Corporation promises that the emphatic superiority which is the foundation of this overwhelming success, will be kept as far in advance as it is today.
