## Lighting Effects

By Annette Bradshaw

It isn't the furniture alone that makes a home, although, of course, one may say it is the biggest part. But in these days of interior decorating and artistic effects, the lighting has as much to do with the making of a home as the house or apartment itself. So many apartments and houses are now being fitted with sidelights, or bare sockets, and the old-fashioned chandelier or drop light has been relegated to the realms of the forgotten. Lamps can be had in such marvelous designs and colorings that they're a constant joy to the eye.

A few lighting arrangements suitable for house or apartment are shown above.

The davenport, which may either be placed in front of the fireplace or across the windows, has a table standing be-

hind it with a lamp at either end. The lamps were in black glaze with shades of orange silk veiled in black georgette. These gave just the proper lighting when one was cozily ensconced in the corner of the davenport and made a cheery spot in the room even without any other lights.

The bedside lamp is, of course, almost an essential. For the sleepless nights when one wants to read until sleep finally comes, or in case of emergency, a lamp by the bed is indispensable.

And don't neglect the bridge lamp beside the favorite chair or the head of the house!

Of course, all these are so placed, as to give a room an

air of cheery comfort that nothing else can impart. Use whatever colors may best suit your scheme of decoration but be sure that the lining of your shades is of a soft yellow or orange that will soften the light and rest the eyes.

be an event of Monday evening, March 8, in the dining room of the White Pelican hotel. Reservations have been made and the number who have announced their intention to be present at the dinner are more than usual.

Mrs. Elsie Baxter, prominent newspaper woman, now residing in Klamath Falls, has graciously accepted the invitation of the organization to speak at the Monday evening program, which will follow the dinner. Mrs. Baxter's subject will be "Captured," a playlet written and enacted by herself.

Mrs. Lena Dennis will discuss parliamentary law. This feature of the program will be carried out in further programs, according to Mrs. Irma Dixon, president, in planning programs recently with the executive committee.

Other interesting announcements are the violin numbers to be played by Miss Katherine Walton, who always charms her audiences.

The discussion of the state convention of the Business and Professional Women of Oregon will be held, and names of those to serve on committees to be announced. The convention, an annual affair, will be held in Astoria in June, 18 to 21, inclusive. Letters have been received by Mrs. Gertrude Glover, program committee chairman, asking for a delegation from the Klamath Falls chapter, songs and special stunts. The idea has aroused considerable enthusiasm among the local women.

### COOS BAY BUSINESS WOMEN OPEN CLUB ROOMS

Many telegrams and letters of good wishes, together with many splendid gifts from the various civic clubs, business houses and friends, were received by the Coos Bay business and professional women's club on the opening of their new club rooms in the Noble building. To commemorate the affair, a large reception was held, many members from the state club, as well as those from the other civic organizations in Coos Bay attending.

The club is proud of its new home and of the record established, for it is the first in the state federation to move into clubrooms with the furniture all paid for, rent paid a year in advance, and money remaining in the treasury. The club has put on a May Day festival each year, the major portion of the funds used for the clubrooms being obtained from this source. Much of the financial as well as social success of the festival each year has been due to the leadership of Miss Ellen Rudnas, state finance chairman, a charter member of the Coos Bay club, who has served for the past several years as chairman. Aside from the entertainment and good time feature, the festival has an educational achievement—for the girl holding the highest scholarship mark in the senior class in the high school is acclaimed May Queen, given a beautiful dress to wear, and also a sum of money or scholarship to be applied to her higher education. The clubrooms are beautifully furnished, the furniture having been specially designed and built to suit their needs.

### "Charleston" Bob Is Latest Coiffure

"Charleston" is responsible for a new style of "bobbing." To achieve it, the hair is allowed to grow well below the lines of the ears and is then turned under and brought well forward on each cheek. A slight cock's comb on top and a side parting completes the new coiffure, which is illustrated above.

piano solo, Mrs. E. S. Veatch, the human pipe organ and Zingerella. The two laugh-provoking numbers were Zingerella and the human pipe organ. Andrew Collier presided as the organist at the last number and Mrs. George McIntyre sang. In Zingerella a well coached cast portrayed a pantomime exactly as it was written. When the hero led the damsel from the room, he did naught but tie a rope around her neck and lead her from the scene.
