

Fourth of July Drive for Funds Starts Tomorrow

The soliciting committee for the proposed big Fourth of July celebration for Klamath Falls will start their whirlwind drive for funds at 9 o'clock tomorrow morning.

In addition to funds for the celebration the same soliciting committees will canvas for money to finance the Klamath Falls Municipal band. Approximately \$700 is needed at this time to pay for the new uniforms which were issued to the musicians just prior to their concerts on Memorial Day.

The soliciting committees expect little difficulty in raising the necessary \$3000 required by the American Legion to stage the celebration and \$1000 so desperately needed by the band.

"While drives are coming thick and fast just now, nevertheless it is appropriate that Klamath should put on a good celebration this year," according to one prominent Klamath merchant. "From a patriotic standpoint this the 150th anniversary of the signing of the Declaration of Independence, and from a local and practical standpoint Klamath will have a whole lot to celebrate about owing to the big developments that are getting under way here. The work on the \$400,000 terminal by the S. P. company will be well along by July 4. It is possible that a train may be brought in from Eugene over the new Klamath-Eugene line on that day, and that event alone would call for the greatest celebration in the history of this country. Thousands of people on the outside are anxiously awaiting some pretext for making a visit to Klamath Falls and a celebration will certainly bring them in droves. I am in favor of a big celebration. Let the business men put up the money, and then let the American Legion men go ahead and do their stuff. We know it will be done right."

RANGERS ASSIGNED CRATER LAKE PARK

Crater lake will be formally opened for the summer season on July 1, although travel is heavy at the present time to the famed spot in Crater Lake national forest.

Leslie Turnbaugh and Don C. Fisher, residents of Klamath Falls, have been assigned as rangers to that reserve. Others assigned to duty there by C. C. Thomson, superintendent are as follows: Roger Wells, chief; Robert Hart, Fred Hubbard, Glen Fabrick, Jr. and Ray Henderson of Medford.

H. E. Green, transferred by the bureau of public roads from the Redwoods highway, where he was in charge of construction, is the resident engineer. He will be assisted by a corps of four assistants. He will also be aided by a surveying crew, which will make a survey of all roads in the park as a basis for future construction.

Dr. L. Miller professor at the University of California, will be the park naturalist and will have three aides. Martin Palmer is the chief mechanic.

A Load of Forest Giants

Two views of the new 10-ton Moreland six-wheel truck just put into service in a Klamath Falls district lumber camp. The dual rear wheels enable the truck to negotiate over virgin territory.

NEW TWO-DOOR MODEL ADDED TO WILLYS-KNIGHT "SEVENTY" LINE

One of the outstanding features of the spring buying demand is the pronounced trend toward the new Willys-Knight six "seventy" two-door sedan, according to the company's officials.

This new model has just been introduced and completes a full line of closed cars in the "seventy" series. It is the companion car to the Willys-Knight "seventy" sedan which has enjoyed such popularity since its introduction at the New York automobile show last January.

The "seventy" two-door sedan and the new "seventy" coupe recently brought out are built on the same chassis as the Willys-Knight six "seventy" sedan and are powered with the Knight sleeve valve motor. This makes the new model one of the fastest, most responsive models on the market.

The two-door sedan has a comfortable seating arrangement for five. It is an ideal car for the woman driver, because of its handling, ease. The interior measurements are the same as the "seventy" sedan, the rear seat being wide, deep and comfortable. The arrangement of the front seats has a marked improvement over similar

models, the driver's and passenger's seats being of equal size. They are, however, divided into individual, roomy, restful chair type seats, affording the least degree of interference to the driver by a companion passenger.

The rear windows of the two-door sedan are large and unobstructed. This feature affords clearer vision for the rear compartment passengers.

The doors of the new model are unusually wide, allowing free passage from and to the rear seat with minimum disturbance to the front seat passengers. The windows in the doors are also wide, providing clear vision in all directions. These are crank controlled and may be handily adjusted at any desired level.

The two-door sedan is equipped with the popular one-piece windshield which is a valuable safety factor because of clarity of road views. A rear view mirror, automatic windshield wiper and dome light are other attractive features.

The same horn button and ditch light control system has been incorporated in the two-door sedan as in the "seventy" sedan, these controls being on the steering post immedi-

ately under the wheel and at the finger tips of the driver.

Color scheme of the new model is quiet, smart and pleasing, composed of the two-tone combination as on the coupe and sedan. Black trimmings and fenders refine and dignify the two-door sedan, while natural wood wheels grace and enliven the running gear. The car is upholstered in gray velour.

MATTERS CLERGY WILL NEVER TELL

"Things the Clergy Will Never Tell," was the subject of a lecture given Friday night at the Altamont auditorium by W. J. Thorn, traveling representative of the International Bible Students association.

The lecturer took for the basis of his remarks Hosea 13:14: "I will ransom them from the power of the grave. I will redeem them from death; O death I will be thy plague; O grave I will be thy destruction; repentance shall be hid from mine eyes."

Mr. Thorn was greeted by an enthused and attentive audience.

MAKE PICTURES

The colored covers on some magazines make excellent decorations for the little child's room. Mounted on stiff paper or cardboard, they may give more pleasure than expensive pictures, as they can be handled without harm.
