Gomez Revolt Is Successful, Says Spanish Report

General Costa rebelled last week with the support of his Braga garrison. The government announced troops had been dispatched against Costa and that there was no dissatisfaction elsewhere. These optimistic governmental pronouncements apparently were exaggerated.

Farm Block of Senate Favors Cummins' Foe

WASHINGTON, June 5.—(United Press)—Six members of the senate farm bloc—four of them listed under the republican banner—sent an open letter to Iowa voters tonight, asking that Smith W. Brookhart, ousted insurgent, be chosen as the corn belt center's republican senatorial nominee in the primary contest there Monday. The letter said the anti-administration candidate should be chosen "to convince the country that the farmers can no longer be deceived by mere creatures from Washington, and that their just rights and interests cannot safely be trifled with."

The document created a profound sensation in political circles here. Seldom in history have republican senators thus openly attacked an administration candidate.

While the letter did not mention any names, its aim was unmistakably directed at President Coolidge for his opposition to the Haugen farm relief bill and at Chairman Butler of the republican national committee for succeeding in ousting Brookhart.

The demonstration against the White House was made more pronounced by the fact that Senator Cummins, incumbent and supporter of President Coolidge, supports the Haugen bill.

What future effect it will have upon four of its signers now in the republican party organization remains to be seen.

The fires were all brought under control today and resulted in an emergency order against smoking and against the building of camp fires without special permits by the thousands of tourists now on the road.

Fairbanks Sees Giant Plane as It Lands There

FAIRBANKS, Alaska, June 5.—(United Press)—The giant plane Detroit roared down on the Fairbanks landing field at 6:10 o'clock tonight and officially ended this year's Arctic exploits of the Wilkins-Detroit expedition.

Cramped from the trying flight from Point Barrow, Lieut. Wisley, one of the Detroit's four passengers, voiced the sentiment of the expedition when he said: "I've had enough of Point Barrow."

The monoplane Detroit took off from Fairbanks on its last flight to Barrow May 8. Its scheduled attempt to fly over the north pole had then been abandoned, but Captain George W. Wilkins, expedition commander, hoped that explorations might be made over the uncharted wastes to the north of Barrow.
