Try Some of These Cuts and Prove for Yourself That Their Use Will Enrich Your Menu at Lower Cost. BEEF—SHOULDER for Pot Roast, Steak, Stew. ROUND for Steak, Pot Roast, Meat Pies. PLATE for Braising, Pot Roast and Corned Beef. BRISKET for Boiling, Pot Roast, Stew, Corned Beef. NECK for Soup, Stew, Boiling, Mince Meat. TWO RECIPES. (Clip and place in scrapbook for future reference). BEEF GOULASH—Cut the beef into cubes and sprinkle with vinegar and a little summer savory. Add 1 teaspoonful of salt and 1/2 teaspoonful of paprika; cook six onions for two pounds of meat, slowly, in 1/2 cup of butter or drippings. Add the meat to the cooked onions, cover the kettle tightly and cook slowly about two hours. The liquid may be increased just before serving by the addition of a little beef stock, or either sweet or sour cream. FARMER STEW—Pound flour into both sides of a round steak, using as much as the meat will take up. This may be done with a meat pounder or with the edge of a heavy plate. Fry in drippings, butter or other fat, in an ordinary iron kettle or a frying pan. Add water to cover it. Cover the pan very tightly so that the steam cannot escape and allow the meat to simmer for two hours or until tender. One advantage of this dish is that ordinarily it is ready to serve when the meat is done, as the gravy is already thickened. However, if a large amount of fat is used in the frying, the gravy may not be thick enough and must be blended with flour. PALACE MEAT MARKET Phone 68. 524 Main.
