

SCOUTING WITH CHILOQUIN BOYS GROWS POPULAR

Chiloquin believes in giving the Boy Scouts a good time and in making life worth the living. During the summer months Scoutmaster Balfour will be kept busy in providing entertainment for the Scouts, and one of the first things on the program will be an expedition to Skylake. The fishing opens there on next Tuesday and it is expected that the trip will follow almost immediately.

Recently the Scouts had an outing and they have been loud in their praise of the splendid time they experienced.

Lumber Tariffs Case Dismissed; Termed Absurd

WASHINGTON, D. C., June 12.—United News—Finding that construction of tariffs sought by the complainants would lead in many instances to "absurd results" the interstate commerce commission Friday dismissed the complaint of the Pacific Coast Shippers' association and others involving alleged overcharges on lumber and forest products from Oregon, Washington and Idaho, Montana and British Columbia to destinations in Indiana, Michigan and Ohio.

Overcharges were alleged to have accrued since 1921 on the basis of construction of tariffs relating to unnamed intermediate points and complicated questions of application of the tariffs are dealt with. The West Coast Lumbermen's association and the traffic service corporation of Seattle intervened in support of the complaint.

Arizona Cattle Baron Arrested On Wet Charge

PHOENIX, Ariz., June 12.—United News—Augustus Martin, one of the most influential millionaire cattle barons of Arizona, was placed under arrest here Friday, charged with heading a gigantic moonshine ring.

Chief Field Agent Ray Adams, who made the arrest, declared that two of his agents had been working on Martin's huge ranch as cowhands since January, and that they had gathered evidence proving that the cattle baron distilled a minimum of 500 gallons of liquor daily.

Martin's arrest caused a sensation here.

WATER USERS ARE GRANTED PAYMENTS

(Continued from page 1)

July 6, 1918, when the present contract went into effect. The original contract was ten years, but in 1914 the time was extended to 20 years. The twenty-year plan has now been made 40 years and inasmuch as waterusers have already been paying under it for eight years they have an additional 32 years over which payments will be made.

Relief Merely Temporary

Bradbury stressed the fact that the relief provisions he had secured from the bureau of reclamation, with the assistance of Chamberlain and Nye, Washington attorneys, were merely temporary. They did not supersede negotiations for an operation and maintenance agreement. It was, he said, in the nature of financial relief, and if the district gave it approval, would be in force at the next tax assessment.

He further urged its approval in order to get the job of re-lining the main canal under way this fall.

Jacob Considers Matter

Director Jacob said he would like to have time in order to give the tentative agreement a few days' study before voicing his approval. He stated emphatically, however, when Director Short moved for approval of the Bradbury negotiations, that he was not to be considered as obstructing any measure for relief of the district.

The Short motion carried with the vote of Short and Bradbury, Jacob voting no for the reason stated.

The Bradbury measures are to be used as a kind of new relief contract, subject to such modifications and amendments as may be agreed upon between the district and the United States. Short's motion was to this effect.

Boy Murderer Is Broken in Spirit And Health Fails

JOLIET, Ill., June 12.—United News—Broken in body and spirit by 21 months of prison life, Richard Laeb, the "thrill slayer" of Bobby Franks, became 21 years old Friday, and received a basket of delicacies from the hand of his mother as his only birthday gift.

The boy murderer wept like a baby when he was brought into the reception room where Mrs. Albert Laeb awaited her first meeting with him in many months.

Laeb's hair is turning gray and his face has lost the ruddy glow it had two years ago, when he and Nathan Leopold, the millionaire colleagues, were sentenced to life terms for the Franks murder.

HABEAS CORPUS CAUSE EXCITEMENT

(Continued from Page One)

Laeb should get out of jail first. He has to stay in jail 60 days and pay \$100.

So Mills yesterday filed a writ on behalf of Tecumseh, both Indians are charged with being intoxicated on the highway.

Cowan shed further light on the situation. "I was only sleepy when they said that I was drunk. Just like I was when you come down here and woke me up to sign that writ," he explained.

Cowan is a trusty around the court house. He is now wondering if he will get out in time for the Fourth of July. He says he would like to celebrate at Chiloquin on the date the white men declared independence for themselves.

Clark Library Is Given University of So. California

LOS ANGELES, June 12.—United News—Gift of the private library and home of W. A. Clark, valued at \$5,000,000, was announced Friday at the commencement of the University of California, Southern branch.

The gift is said to be the largest ever bestowed on any educational institution in the west.

Degrees were conferred on 473 graduates by President W. W. Campbell of the University of California and Dr. E. C. Moore, director of the branch.

DON'T POLISH BRAKES

The variation in the efficiency of the brakes when on a long trip is due to several things, but the condition of the brake lining is perhaps most important. Sometimes the lining will become polished, in which case the brakes will not be very efficient. In other instances the lining may be "roughed up," in which case the brakes will suddenly begin to be more effective. Generally speaking, the dragging of the brakes or long application of them down long grades will cause the lining to become polished, whereas a few sudden applications of the brakes will rough up the linings. Road dust and water will alter these conditions.

McCormick-Deering—a Real High-Lift Mower

for **BETTER HAY MAKING**
"McCormick" and "Deering" have been the names of good hay tools for generations. Throughout the country you will find sons of farmers using mowers and rakes that were used and passed on to them by their fathers. Sturdy tools yet, in spite of their twenty, thirty, and often 40 years of hard work. You may have one of these patriachs in your implement shed. If you have, you know as well as we do the full worth of McCormick-Deering quality. However, good as the old tools were in their prime, they are relics of bygone days. The time has come to replace them with new, efficient McCormick-Deering equipment. The quality standards of today are as high as ever—the construction shows the effects of years of steady improvement. The line is unbeatable.
If you make hay you need these money-making tools; we are at your service with a full stock of this new equipment. Call on us.
