

POSPISIL MOTOR CAR COMPANY MOVES TO ELEGANT NEW HOME

Will Hold Open House Saturday Afternoon: Garage One of Handsomest in City and is Ideally Located

Saturday afternoon and evening the Pospisil Motor Car company will hold open house in the new \$35,000 home at 515 Klamath avenue, built especially for this popular concern.

This newest of Klamath's garages is ideally located for convenience to both owners and prospective buyers of motor cars. It is a fire-proof structure 65x120 feet, and extends from Klamath avenue through to a paved alley, thus affording rear and front entrances, both summer and winter.

The work was all handled under the direction of local contractors, who, according to the owner, Joe Pospisil, have turned out a job which he considers one of the finest of the kind in the country. I. H. Travis, Jack Knowles, Lorenz Brothers, F. R. Olds and Walter Pomroy were contractors who handled the general work, including actual building, plumbing, plastering and decoration. Much of the material was furnished by the Lakeside Lumber company and by the Concrete Pipe company. That Mr.

Pospisil chose local workmen and local firms to supply material for his building is greatly to his credit. All the electrical wiring and fixtures were the work of Uhlig's electric shop.

Hupp and Packard Home

The new Hupmobile and Packard home boasts a showroom which cannot be equaled in the city. It will accommodate seven large models, either touring or enclosed. The opening tomorrow will not find this room filled to capacity, however, as a long-expected shipment of both Packard and Hupmobile cars has not yet arrived. However, Mr. Pospisil announces that he will have enclosed models of the Hupmobile six and eight sedans and coupes, as well as the new Packard big six sedan on display.

There is storage space in the rear of the building of sufficient capacity to care for at least 50 cars. This room has been provided with the most efficient exits and is strictly fireproof. It is also equipped with a washrack for the convenience of patrons. Greasing and repairing will be done and repairing is to be featured principally for the benefit of Packard and Hupmobile owners, and not as a general business of the firm. Equipment for the shop has not been installed yet, due to delay in shipment of some of the

tools and machinery, but this department will be operating within the near future.

Hupmobile Success Great

"Up to this date 1926 has seen the greatest success for Hupmobile that the company has ever enjoyed," said Mr. Pospisil last night. "March and April broke all records, and then came May with still a better showing, and it is believed that when the figures for June are compiled that Hupp sales will still be holding their top mark, for enclosed models, at any rate."

The Packard is another of the higher class cars finding favor with Klamath Falls residents. There was a time only a few brief years ago, when the town didn't boast a single Packard, but today they are a familiar sight on our streets.

Mr. Pospisil, as well as the builders of the new garage, are anxious that local residents take advantage of the opening Saturday afternoon and evening to inspect the home of the Hupp and Packard, which is an addition to the business center of Klamath Falls of which one may well be proud.

CARD OF THANKS

I wish to extend to my many friends my heartfelt thanks for their kind words of sympathy and the many beautiful floral offerings in the hours of my late bereavement, the loss of a beloved husband.

Cutting Lumber Costs

Everything from Foundation to Roof

Our well equipped re-saw and planing mill enables us to change raw lumber to the finished product, ready to put in your house, at the lowest cost. The combination of a manufacturing, wholesale and retail plant, reduces our overhead costs, and hence enables us to quote the very lowest prices on quality lumber.
