CLEAN THE BURNERS

Don't forget to give the burners
of your gas range a thorough clean-
ing, now and then, as they are sure
to get clogged up from grease, dust,
etc. Remove them from the stove
and boil them in a galvanized tub
or pail in a strong solution of lye
or sal soda and water.

It is important that fruit and
vegetables to be canned should be
thoroughly cleaned before proceed-
ing and the use of freshly gathered
product free from decay should also
be stressed. These two factors are
essential in successful canning.
