

DURBIN HOME IS ONE OF FINEST IN WHOLE CITY

One of the most beautiful homes in Klamath Falls, lovely in its Spanish architecture, has recently been completed on Pacific Terrace. It is owned by Mr. and Mrs. Roy F. Durbin and they, with their architect, Howard R. Perrin, planned the home.

The building is situated on a corner lot and commands an excellent view of Klamath Falls, and lakes and mountains of the valley country far away. It has one advantage over many other modern homes in the city in that a constant cool breeze blows over Pacific Terrace during the warm summer months.

A door of Spanish type with printed glass has an accompanying screen, and is pointed at the top so that no line can be robbed of its beauty. The windows are long, and open like doors in the living room onto a small cement balcony with a quaint wrought iron railing.

From the large living room where, at one end a fireplace and bookcases lend an exceptionally hospitable atmosphere, French doors open into the dining room. In this room a cool air heater with wooden grates constantly sends cold air into the rooms during warm weather. To the right of the dining room a sun porch opens where flower boxes filled with gay flowers peering through long plate glass windows lead an inviting atmosphere. This room is of double value as a wall-bed may convert it into a sleeping room.

French doors also open into the master bedroom which is tinted in tones of orchid-rose. A narrow hall where cupboards and deep shelves fill important space, leads to the bath and the second bedroom. The bath, in white and blue tile, has two narrow windows on either side of the medicine chest over the basin. A shower has also been installed.

The second bedroom is used for the nursery for Mr. and Mrs. Durbin's young children, Roy Francis and Jane, and peachbloss tint was used for the walls.

Perhaps the most interesting room in the entire home is the kitchen which is complete in every detail known to architects and housewives after years of experience. It is large and roomy enough for a breakfast table and chairs and other necessary pieces of furniture. The walls are lined with white cupboards for dishes, crockery and kitchen utensils. An ironing board is built in one side of the wall and brooms and mops may be conveniently kept there.

The lawn of the Durbin home has been seeded, while along the driveway to the garage under the sun-room quaint little flowers will soon be blooming. Taking the home, for it is more of a home than a house, as a whole, it promises to be one of Klamath Falls' most attractive places for years to come.

Deck Is Cleared For Adjournment Of U. S. Congress

WASHINGTON, July 2.—(United News)—Congress is about to finish its business Saturday afternoon at 3 o'clock as scheduled.

The usual confusion attending adjournment is evident about the capitol, members having one eye on pet legislation that still waits for action and the other upon railroad timetables, but it appears that the loose ends will be gathered up before the clock sounds three Saturday so that members can go home.

During the final hours Saturday, when both houses will meet early efforts will be made to push through all types of bills, some of them pending a long time but no other legislation of importance will get on the books.

PIRATES CLIMB SMALL NOTCH TOWARDS TOP

The Pittsburgh Pirates beat Grover Cleveland Alexander and drew up to within a fraction of a game of the second place Cardinals Friday, the score being 3 to 2.

There was no gaining on the Reds, however, as Cincinnati defeated the Cubs 6 to 1, and sent the McCarthy clan reeling down into sixth place.

The Athletics, beating Brooklyn 5 to 2, climbed a notch, while the Braves kicked the Phillies down into the cellar, 4 to 2.

The Athletics gained a full game on the Yanks, who lost to Washington 6 to 5, while the Mackmen were winning a 13-inning battle from Boston, 4 to 3.

Detroit defeated Cleveland, 9 to 3, and the White Sox lost to St. Louis 3 to 2.

DRYNESS WAS HIGH SAYS WAYNE WHEELER

(Continued From Page One) republican, \$1200 in 1919. In addition there were 2000 more humble workers in the vineyard. Some worked for nothing. Others were rewarded in cash, though on a far more modest scale than the stars. Figures as to what dryness spent on prohibition were: To obtain federal prohibition \$35,000,000.

By national organization since 1920 \$3,425,000. By state subsidiaries since 1920 \$6,487,291. Grand total \$44,917,276. Wheeler declared that if the anti-saloon league gave up its work at Washington, the Volstead act would be wiped out. He admitted writing some amendments to the Volstead act when it was under consideration by congress, but denied the league drafted the entire bill as vets have charged. It was disclosed that Congressman Upshaw, one of the best known dry speakers, occasionally haggled over the size of the "honorarium" to be paid him and once told a dry leader to "shell down the corn."

ROCKY KANSAS AND MANDELL CLASH TODAY

CHICAGO, July 2.—(United News)—Both fighters have made the weight, 135 pounds, and both have been in excellent physical condition for Saturday's title bout at the White Sox baseball lot between Rocky Kansas, the lightweight champion, and Sammy Mandell, challenger.

Barring bad weather, promoter Jim Mullen anticipates a crowd of 30,000 and a gate of \$120,000, as this is the first decision go within the city of Chicago in more than 20 years, and it is likely to be a good one.

Although the odds favor the champion, he is at a disadvantage in age, reach and height. Rocky has beaten bigger and younger men before, and his greater experience may save his lightweight crown.

Sammy is 23 years old and is a boxer. Rocky is 31 and is a fighter. The combination promises action once these two get into the ring together.

It may not mean much to the fans, but it means a lot to Mandell and his fiancée, Miss Elizabeth Hemming, who will be at the ringside. They are to be married next week, Sammy says, win or lose, but he knows that Elizabeth would prefer to marry a champion.

Proceeds of the fight over and above expenses and guarantees will go to the Loyal Order of Moose, which is in convention here. Kansas receives \$50,000, with privilege of 37 1/2 per cent of 90 per cent of the receipts. Mandell receives what is left of 55 per cent of 90 per cent after Kansas is paid his guarantee.

Florida Banks in Bad Shape; Boom Has Spent Force

MIAMI, Fla., July 2.—(United News)—A wave of unrest spreading rapidly among depositors of small banks of this vicinity, following the failure of two suburban institutions to open their doors for business today, had resulted tonight in the closing of two others, while another had successfully withstood a heavy run.

Unable to longer bear heavy burdens of paper on which they could not realize, the Bank of Coconut Grove, and the Bank of Buena Vista, allied institutions, had failed to open their doors. The news swept the suburbs of Miami and soon a long line of depositors had formed in front of the Little River bank in the same section. Caught unprepared to meet such a critical situation this little bank soon was forced to close its doors. Fearing for the security of their funds, depositors of the Dania bank began a rush upon it.

Paying out until its limited supply of cash was exhausted this bank also closed. Within a few hours a muttering crowd began gathering in front of the bank of Hollywood, several miles north of the city.

By this time, however, larger banking interests had come to the aid of the small institutions, and the Hollywood bank survived the heavy run.

Tailless Plane Is Invented by English Captain

LONDON, July 2.—(United News)—A tailless airplane, whose inventor went for inspiration to the prehistoric giant lizard, the pterodactyl, and the new vertically rising helicopter invented by the Spaniard, de la Cierva, will be the principal features of interest at the annual display of the royal air forces at Hendon, in the suburbs of London Saturday.

Editors Select Omaha as Next Meeting Place

LOS ANGELES, July 2.—(United News)—Selection of Omaha, Neb., as the 1927 meeting place of the National Editorial association, and election and installation of officers marked the close of the 41st. annual convention of editors here today.

The new officers are: Herman Rose, Northfield, Minn., president; Charles M. Meredith, Quakertown, Pa., vice president; H. C. Hotaling, St. Paul, Minn., secretary and W. W. Alker, Franklin, Ill., treasurer.

J. C. Brincombe, past president, gave a symposium on prohibition at concluding session. From a total of 415 replies, covering 31 states, 98 voted for strict enforcement of the prohibition law, 29 for modification, 11 for a combination of enforcement and modification and three for repeal.

Earthquakes Felt Widely Separated Parts of World

VIENNA, July 2.—(United News)—Two earthquakes occurred yesterday in eastern Czechoslovakia. Nominal damage occurred and many peasants fled panic-stricken.

LAPLATA, Brazil, July 2.—(United News)—A earthquake was recorded at 4:36 yesterday afternoon, some 4000 kilometers away. It lasted 80 seconds and may have occurred in northern Peru.

Bunkhouse Burns; Four Perish and Scores Injured

COURTLAND, Calif., July 2.—(United News)—Trapped in a blazing bunkhouse on Sutter Island, four men were burned to death and a score of persons injured early Friday.

The dead include two Filipinos, a Japanese and a Mexican. Thirty-three women and children were sleeping in the house on the ranch of Roy Peck, when the fire started. An immediate panic ensued in the two floor structure, exits being clogged by the struggling workers.

Some of the injured were hurt in leaping from windows 15 feet above the ground. Volunteer firemen from neighboring ranches finally quelled the blaze.
