### Jim Reed Bursts Forth With Extra Charges on Drys

KANSAS CITY, Mo., July 20.—(United News)—For almost two weeks Senator James A. Reed had been resting quietly at his home here without saying anything about the Anti-saloon league, Tuesday, however, he broke out again. He warned the league to be prepared to make a complete statement of financial expenditures in the present political campaign. The warning was given out by the chairman of the special senate campaign expenditures committee in reply to a statement Monday by A. C. McBride.

Senator Reed declared that contrary to the published statement of McBride, the Anti-saloon league devoted a large part of its work in the control of party primaries. He asserted that the dry organization entered the primaries in an effort to control them, and feeling no obligation later to vote for the candidates nominated.

"The various statements made by McBride," said Reed, "are so contradictory and in some instances so absurd that a reply seems quite unnecessary."

"However, I will say this: the gentleman starts out with the assertion that publication of the names of its contributors would be 'unethical' and would result in harmful effects to the family, social and business relations of the givers. A little later he says the league heartily approves making public all contributions for political purposes."

Funeral services for the late Chester Linkenbach will be held this afternoon at 2:30 o'clock at the Earl Whitlock funeral home, Pine avenue at Sixth street. Interment will follow in Linkville cemetery. Friends are respectfully invited to attend.

### Deportation Trial At Toledo, Oregon Takes New Angle

PORTLAND, July 20.—(United News)—First trouble in the wholesale Japanese deportation affair at Toledo, Oregon, a year ago, was started when a halfbreed Indian boy seized a revolver from a guard who was protecting the Pacific Spruce corporation's property. Arthur E. Marvin, Toledo contractor, testified in federal court here today.

Marvin, called by the defense in the suit of a Japanese against Toledo citizens as a result of the deportation, told how a crowd gathered to protest the employment of Japanese laborers. "A delegation approached C. D. Johnson, head of the Spruce corporation," he said. "As the crowd drew up Johnson marked off a line and said it marked the division of property, and told the crowd to stay off."

The crowd surged forward, according to Marvin and L. S. Markham, a corporation officer, who had been deputized, drew a gun. Then a 15-year-old halfbreed Indian, "Sonny" Carson, leaped forward and seized the revolver. Some one hit Markham and the fight started, Marvin said.

Johnnie A. Behn, 18, laborer, and Elma Lucille Cartwright, 15, student, were given a license to wed yesterday from the office of the county clerk, C. B. DeLap. Both were accompanied by their parents who gave consent to the marriage.

Toulouse was unable to provide \$750 bond and will be held indefinitely in the county jail to await examination in Emmitt's court.

"This club and its activities are doing much to awaken interest in chicken raising among the young people of Klamath county," Sexton stated, "with the result that next year I expect to see poultry clubs established all through this district."

The Merrill club has eight members, each of whom owns from 20 to 100 chickens, all doing well, Sexton said. While a great many boys and girls are raising chickens individually throughout the county the Merrill group, organized last May, constitutes the only regular club.

### Raymond Smith Is Good Natured as He Pays His Fine

Raymond Smith, truck driver for the James Tripp company here, lost no time in settling obligations with the law yesterday afternoon, incurred by unwary parking. Driving his vehicle to a safer parking place, the offender proceeded at once to the city hall and paid his fine of \$3 to Judge Gaghagen, so that by 5:00 o'clock the incident was closed.

"I guess enforcement of traffic rules must be tightening up," was Smith's statement as he left the city hall. "I've been punching trucks around this city since 1912 and it's the first time I've been picked up by a traffic cop. There were times when I boasted about having successfully gotten by with some little jay-driver stunt, but from now on I'm through talking," he declared goodnaturedly.
