

### Chicago Gunmen Had Real Harvest During Election

CHICAGO, July 24.—(United Press)—Tales of alien gunmen patrolling the polls and \$2,000,000 alleged to have been spent in the senate primary and reported gross misuse of state offices in elections will be threefold subject of investigation here Monday when the Reed senate begins its inquiry into Illinois politics.

Nineteen witnesses will tell their stories, it developed tonight as county agencies were put to work upon a recount of ballots cast in Chicago's bad lands district.

The witnesses include principals in the campaigns of Frank L. Smith and William R. McKinley for the republican senatorial nomination, influential Cook county politicians, "angels" of the senatorial tickets; wet and dry advocates; public utility officials and welfare workers.

Haste in recount of the senatorial ballot was ordered this afternoon by County Judge Jarecki, who stopped work in the county offices recount—which already has resulted in indictment of 99 men and 10 women—so that the senatorial race could be retabulated as soon as possible.

### Chief Executive Washington Seems To Have Cold Feet

OLYMPIA, Wash., July 24.—(United Press)—Governor Roland H. Hartley today refused to meet Matthew Hill, secretary of the University of Washington alumni association for a public debate on the governor's educational policies. In a letter to the governor written a few days ago, Hill cited the governor's Yakima address in which the executive offered to give \$1000 to charity if any statement which he had made could be disproved by Hill.

Hill offered to accept the challenge to debate at Yakima any time within a month at the pleasure of Governor Hartley.

In reply Hartley said: "I realize that in order for you to secure a real audience of representative men and women it is necessary for you to have something more than your usual abuse of the governor. Therefore, I would suggest to you, in reply to your communication that you just toddle right over to Yakima and drum up your own audience and hold your usual consolation meeting, composed largely of your little group of disgruntled politicians and special privilege seekers who, like yourself, have been separated from the public cash box."

### Popular Musicians Collaborate On Flower Tournament Music

Working together in preparation for Pasadena's next great Tournament of Roses are Carrie Jacobs Bond and Charles Wakefield Cadman, two of America's foremost composers of light musical classics. The theme of the Tournament this year is to be "Songs in Flowers," around which the musicians are building a pageant and a complete musical score.

### Local Boy Scouts Receive Visit of Klamath Residents

That Klamath County Boy Scouts who are encamped for a two-week period at Eagle Ridge Tavern on Upper Klamath Lake, are not only having a wonderful vacation, but are receiving training which will instill ideas of patriotism and ideals of citizenship and prove of a beneficial influence in future years, was the unanimous opinion of members of the executive board and Rotary club following inspection of the camp Friday evening.

The camp being divided into four groups, is conducted somewhat in the nature of a military institution and is maintained by the boys in so orderly and tidy a fashion that many of their elders might profit by an inspection. Each day has its regular routine, and although the Scouts are given sufficient time for amusement, much attention is given to preparation for scout tests and the regular camp duties.

### LETTER BOX

Editor News:  
Not at all apropos of the traffic problem but to my mind much more important, is the question "What has become of the bus franchise?" I realize that the city fathers all have cars and transportation worries them not at all. But those of us who have no cars, who have to walk a mile and a half to Main street, taking along children too small to be left alone, and then walk home, arms piled high with bundles, babies crying with weariness and eyes full of dust raised by passing cars—we want a bus line!

### Oregon Commission Of Public Service Is Seeking Action

SALEM, July 24.—(United Press)—A petition was prepared today by the Oregon public service commission asking that various railroad corporations be cited to appear before the interstate commerce commission and show cause why they have not complied with an order regarding railroad construction in central Oregon.

The interstate commerce commission order, issued May 3, ordered extension of the northern lines from Bend to Klamath Falls, either via the Natron cut-off or an independent road. It was said by public service commission members here that officials of the Southern Pacific and Northern lines had apparently made no effort to reach the understanding in regard to common user privileges on the Natron cut-off. Delay, it was said, had retarded construction and resulted in injury to Oregon.

The petition asks the interstate commerce commission to cite the railroads to appear to show cause why no action has been taken which would make possible and authorized construction.

### Pacific Northwest Enjoys Prosperity In Many Industries

PORTLAND, July 24.—(Special)—The quite general activity of all industries in the Pacific northwest has brought employment to the year's high point, according to the 4L employment letter published here. Farming, including berry picking, haying, harvesting and threshing, together with railroad, highway, factory, building and government construction work, are now giving employment to more men than at any time since Jan. 1. Fire fighting and fire prevention work are also requiring large numbers of men at the present time.

The mid-year let-up of fir logging varies greatly in the different districts, the 4L letter reported. Mill-owned camps are more active than independent loggers. Sawmills, both east and west of the Cascades, operating on normal schedules.

Forest fires in the Inland Empire territory are reported to be the most serious in many years, the 4L letter said. More than 1000 fire fighters were sent out of Spokane last week.

The wheat harvest in the Inland Empire is earlier than usual this year and reports indicate that it is difficult to fill all orders for harvest help promptly, due to demand for men to fight fire.

Labor supply and demand in the Pacific northwest are at present not far from balance.

### LIKES BRING SOLON

WALLA WALLA, Wash., July 24.—(United Press)—Dr. John W. Summers, congressman from the fourth congressional district, today announced that he was sending to the secretary of state his declaration of candidacy for nomination for a fifth term.

## Sooner or later you will use a De Laval

### Butter was never intended for hog feed

But it is being done today on every cow-owner's place where an inferior or half-worn-out cream separator is being used, or where the farmer is skimming by the wasteful "gravity" method.

And it's a wholly unnecessary waste, too. Because a De Laval Cream Separator will soon save enough cream to pay for itself, and put a stop to all the waste of cream and time and labor for many years to come.

Have you had your separator tested lately? Call us up and we will bring out a new De Laval and run your skim-milk through it. We know that in many instances the new De Laval will get cream out of the skim-milk. We will be very glad to make such test free of charge.
