No sprinter ever succeeded without ALL three. There have been great starters; runners who moved with perfect rhythm and no waste energy; and men who finished with irresistible force. But the CHAMPION has had ALL THREE.

Charley Paddock

Start
Charley Paddock, the world's "fastest human" getting away simultaneously with the crack of the pistol. Paddock is the present holder of 37 out of a possible 40 world's sprint records and the only sprinter to run 100 yards in 9.5 seconds.

Stride
Charley Paddock breaking into his powerful stride.

Finish
Charley Paddock breaking the tape with his famous "jump finish."

Charley Paddock says a champion must have all three start-stride-finish

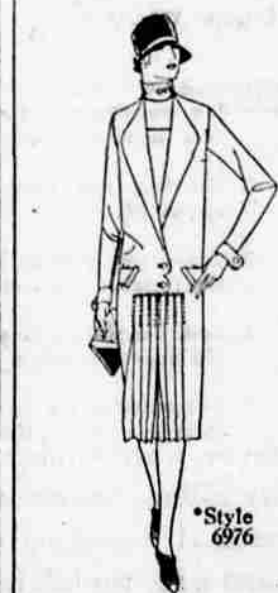

These same essentials in perfect co-ordination—quick start, the full stride of power, and force sustained to the very end [finish]—are necessary to good gasoline. Associated through its distinctive range of boiling points insures this kind of a performance: no sputter when you step on the starter, no miss when you give her the gas, and always a smooth supply of adequate power from start to finish. That's why Associated is Champion. Associated is always associated with "more miles to the gallon."
