HARRIMAN'S DREAM

Behind the magic of a dream come true stands the figure of Harriman, and the genius of a master-mind in railroading.

In the midst of much accomplishment we need to locate the man who visioned it all. And somewhere in the coming celebration we can romance the memory of one who really did things.

Somewhere, somehow, Klamath owes a monument to Harriman. He builded better than he knew.

FRIDAY THE 13TH

A lucky day for the News, since it was on that kind of a combination the paper got its start.

Every day with us is a new occasion and a new endeavor to be at our best. The number of subscribers in distant points shows the growing interest in Klamath, and the need of a reliable news-letter. For awhile at least this city holds the center of the stage, and what we print aims to reflect things as they really are.

GIVING DOGS A CHANCE

The warning that licenses are due, is notice to every red-blooded man and every manly boy to play the game fair and give dogs a chance.

Nowhere else in life will one find greater loyalty and affection than with the average dog, if given half a show. Occasionally one runs across the mean and vicious, just as in people, and if the pound is useful at all, it is for just such misfits.

If any boy hasn't money enough to pay for a license the News will show him a way to earn it. The companionship of a good dog is worth every penny it costs. The neglect of a dog, from any cause, is a reflection on the people who sponsor it.

FIRST THINGS FIRST

We can quickly double the population of Klamath if we can show people how to make a living. We cannot all keep shop or work with lumber. Nor can we grow wealthy looking at the scenery. What is urgently needed is new lines of activity, and until something is done in that direction the Empire we speak of will not get very wide-awake.

Three hundred thousand acres are waiting to be made small farms and big ranches, dairy farms and truck gardens, poultry farms and self-supporting homes. When we figure that one man is California operates with 40,000

hens, it seems half possible that some families here could manage 10,000. And when we know that two well-equipped fox farms are already in existence here, the inference is that rabbits and other small stock would do equally as well.

Looked at from any angle, Klamath county must be developed if its towns are to prosper. Wide stretches of fine soil and good pasture make us wish we knew the farming game. Those who do should lose no time in getting busy. If our guess is worth anything at all the next few years will see a big increase in land values all around us, and the valleys will be stocked with cattle and sheep beyond anything at present even dreamed of.

WE SEE BY THE PAPERS

That gunmen in New York and Chicago are shooting people right and left, without as much as asking permission.

That bootlegging gangs in Los Angeles are in open conflict, and are not particular who gets hurt.

That crime is rampant in many of the big cities, with banks being robbed with clock-work precision.

And yet some people act in fear of the "wild and woolly" West. As a matter of record there are fewer disturbances here in Klamath than any industrial city of its size anywhere.

KLAMATH

Population 11,500. Altitude 4,000 feet. Monthly payroll of \$1,000,000. 140,000 acres of irrigated lands. Several standard rigs boring for oil.

Klamath has tributary to it 23 mills and factories.

Climate clear and cool in summer and mild in winter.

The center of the greatest stock raising section of Oregon.

1,000,000 undeveloped horse power on the Klamath River.

It has one of the twenty-four United States reclamation projects.

More undeveloped resources than any other county on the coast.

This city is second of Oregon in amount of freight shipment out by rail.

There is tributary for manufacture 40,000,000,000 feet of soft pine.

The largest box shuck manufacturing center in the United States.

The largest percentage of growth in telephone and telegraph service of any city on the coast.

HUNGARIAN MUNITION PLANT IS DESTROYED

(Continued From Page One) Ergebilva, two miles from the scene, suffered greatly. Roofs were displaced as easily as though they had been paper blown by a strong wind. Many persons were hurled to the ground. Confusion was general and the populace, frantic at first because it did not know what had happened, began to evacuate the neighboring towns.

At 9 o'clock the first ambulance transport arrived in the suburb of Soroksar. The known casualties thus far are 14 dead and 20 wounded.

SALVATION ARMY DRIVE TO START

(Continued from Page One)

H. Thomas, Bert C. Thomas, Monte Hamaker, George McIntyre.

Labor day committee—William Duffey, chairman; balance of committee to be filled in later.

Elks committee—Lynn Nesmith, rest of committee to be named later.

American Legion—O. D. Mathews, committee to be filled in by Mathews.

Chamber of commerce committee—Earl Whitlock, chairman; W. D. Baldwin, G. B. Drew, Kenneth Klahn, George B. Grizzle, C. J. Roberts, J. P. Wells.

Knights of Columbus—Father Lozier to name committee later.

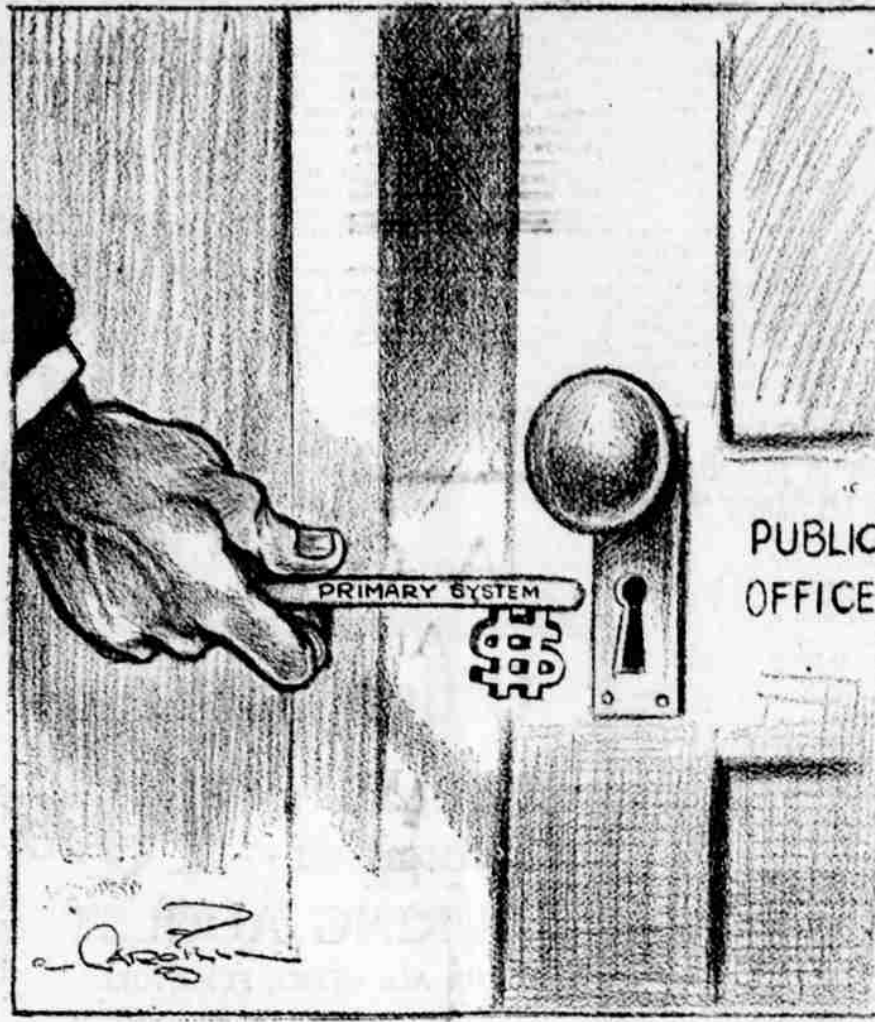

Lumber companies—W. E. Lamm, Rotary club—Jackson Kimball.

SHAW-BERTRAM WORKER SUFFERS INJURED LEG

John Casick, employed with the Shaw-Bertram mill, suffered a badly bruised leg when a log with which he was working fell on his body.

Casick was taken to the Klamath Valley hospital for medical attention.

The Master Key

CONTRACT PRESENTED DISTRICT GOVERNORS

(Continued From Page One)

Pine Grove and Enterprise districts have failed to date to submit their approval of the plan.

Chief points in the new contract are, briefly: Penalties and interest reduced. The penalty of one per centum per month against delinquent accounts as provided in former agreements, is to be reduced to one-half of one per centum per month, due from the district subsequent to December 5, 1924.

Areas Are Excluded

Areas excluded from the district. Lands found by the board of survey and adjustment to be permanently unproductive because of lack of fertility in the soil, shall upon request of the owners, be excluded from the district and no water furnished them until they are restored to the district. Waters on these lands are to be disposed of by the Reclamation Service, provided, however, that water users in the district shall have a preference to the use of the water. After the exclusion, construction charges already paid will be applied as credit on charges due remaining irrigable lands covered by the same water right contract.

Construction charges suspended from certain areas. Lands found by the board of survey and adjustment to be temporarily unproductive for lack of fertility in the soil, shall be relieved of payment of construction charges until declared in a paying class again.

Delinquent Operations. Delinquent operations and maintenance charges deferred. Any payments previously paid the Service for installments on government charges, shall be applied first in settlement of all accrued construction charges due to January 1, 1926, the balance to be applied to a reduction of accrued operation and maintenance charges due to a similar date.

Time for payment of unaccrued construction charges extended. Existing contracts are modified to the extent that the payment of construction charges for all irrigable lands within the district unaccrued prior to 1926, may be made in 25 equal annual installments and the sums payable annually shall be divided into two equal annual installments payable June 30 and December 31 of each year, beginning with the year 1926.

Assessments Cancelled

Assessments against unentered public lands to be cancelled. All assessments levied by the district against unentered public lands of the United States, including lands held under either first or second form reclamation withdrawal, shall be cancelled, and the district shall take prompt steps to have all such assessments removed from the tax rolls of Klamath county. After that time it is provided that no further assessments shall be made against such lands unless the district fully complies with the terms and conditions of a specified act of congress, and then only as to lands not held under reclamation withdrawal.

Charges and general obligation of district—The district shall be required to pay to the United States,

MARTINEAU WINNER DEMO NOMINATION

(United News)—Judge John E. Martineau apparently has won the democratic gubernatorial nomination in the Arkansas primaries over Governor Tom J. Terral, who was supported by the Anti-Saloon league.

An unofficial count of ten out of seventy-five counties in which approximately 19,000 votes were cast tonight showed Judge Martineau leading the governor by about 7000.

CHASTAIN-BOY IMPROVED

John, the 16-year-old son of Mr. and Mrs. George Chastain of Pine Ridge, was last night reported out of danger by his attending physician.

The boy has been suffering for the past three weeks from spinal meningitis and Sunday suffered a relapse. He regained his speech yesterday.

Chastain is manager of the commissary department of the Forest Lumber company at Pine Ridge.

PORTLAND MAN IS KILLED OUTRIGHT

(Continued from Page One)

E. 38th street, also of Portland, was the fourth occupant of the car. The women were brought into Klamath Falls by R. E. Paddock, 1734 Auburn street.

Mrs. Grilley and Mrs. Clinton were slightly cut and bruised and the dead man's wife is prostrated with grief.

According to Mrs. Grilley the party had stopped at the service station at the junction of the Crater lake and The Dalles-California highway to secure gas. They had returned from Crater lake and were driving north to Bend to spend a few days. Mrs. Flemming took the wheel and had driven to a point one mile south of the Sand creek station when a large spike was encountered, blowing out the left rear tire.

According to Traffic Officer Walter Foster, who left Klamath Falls for the Sand creek station at 6 o'clock last night, the woman applied her brakes when she found the tire was flat, thereby throwing the car into the loose gravel and making a complete circle in the air. The machine fell on the rear wheels.

Loren Farlow of Fort Klamath, happened on the scene immediately after it occurred and assisted the women.

Clinton was thrown through the top of the sedan and pieces of the car perforated his skull. His hat,

a battered mass of blood and gravel, was found not far from where his body fell on the highway.

The crash of the car was heard at the Sand creek station, a mile north, and William R. Parents, owner of the station, drove south to the car and took Clinton to his place, where he could give first aid treatment. Before Parent arrived, the women had worked valiantly over Clinton's body and a pair of blood soaked gloves were found in the road near the body.

According to Parent, Clinton breathed for several moments after arriving at the Sand creek station. The remains were brought to Whitlock's morgue and will be shipped to Portland tomorrow.

Mrs. Grilley's son, Donald Grilley of Portland, with N. A. Leach, an intimate friend of the Clinton family, is expected to arrive in Klamath Falls today.

Clinton had long been a resident of Portland, and was completing his 23rd year of service with the Honerman Hardware company of Portland, well known hardware firm. He was born in Kentucky in 1863 and would have been 63 years old, August 30.

DREAM TEMPLE IS THING OF ANCIENTS

CHICAGO, Aug. 11. (United News)—The Women's Christian Temperance union's famous Chicago "dream temple," all curves, softness and beautiful lines, is being razed to make room for the 22-story State bank of Chicago.

Although the modern structure is to be less beautiful it is expected to pay dividends to its owners, a thing which the W. C. T. U. temple has never done.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Lakeview, Ore July 13, 1926.
