

Table Etiquette Is Improving as Travel Increases

The railway dining car has played no small part in the evolution of the nation's table manners, is the firm conviction of J. J. Miller, district freight and passenger agent for the Southern Pacific here.

Miller's statement on American etiquette was made during a discussion on the last-minute equipment which is to be installed in the new 62-hour trains to the East this fall, following the opening of the new main line through Klamath Falls.

The company has ordered 11 new-type \$50,000 dining cars to be placed in operation on the fast through trains, Miller said, stating that among the attractive novelties on the diners will be silver butter dishes with tiny ice compartments beneath the butter.

Killing Deer Autoists Will Be Forced to Trial

PORTLAND, Aug. 12.—Motorists who run down wild deer on the Oregon highways will hereafter be prosecuted for reckless driving, declared E. F. Averill, state game warden, today, after getting a verbal report from Glenn Hendrickson, district warden at Prineville, that a male deer had been killed there recently.

"We are getting an average of more than one report a week of deer carcasses on the highways," said Averill. "Often the reports are made by the motorists themselves, who say that the deer jumped in front of their cars."

The greatest number of reports have come from the section of highway between Ashland and Klamath Falls, near Green Springs mountain, said Averill. Grant county, Jackson, Josephine, Douglas, Crook, Wheeler and Lane county wardens have also reported deer killed on the highway.

Hendrickson reports an unusually large crop of young mule deer in the Ochoco national forest. This 223,000-acre area is one of the best hunting countries left in the United States. Recent operations in poisoning coyotes and other varmints has cut down the mortality rate of fawns to a remarkable extent, he says.

Rockefeller Acts As Student When Smuggling Starts

NEW YORK, Aug. 12.—(United News)—J. Sterling Rockefeller, grand nephew of J. D. Rockefeller, qualifies as a better student than a smuggler.

Not long ago he was awarded a scholarship at Yale for his scholastic proficiency, but erudition helped him not a whit when he attempted to bring into this country undeclared, 14 razors, a pipe and a pair of binoculars.

The articles were concealed in a coat, but the coat was carried on the Rockefeller back despite the hot, sticky weather. It was easy for L. P. Cassidy, a custom's guard, to spot the would-be smuggler.

Young Rockefeller Thursday paid a penalty of \$475 which included forfeiture of the value of the articles and a personal fine.

Elephant Hunt Is Still Attracting Great Attention

SPOKANE, Aug. 12.—(United News)—British Columbia's novel elephant hunt was still in progress Thursday.

The three great beasts which escaped from a circus at Cranbrook continued to roam the wild timbered country, reveling in the freedom which came with their stampede toward the hills, according to latest reports.

Other elephants are being used as decoys in an effort to recapture the animals, but circus employes directing the search feared that the "three pachyderms" may have become widely scattered by this time.

Crews of trains traveling through the country where the trio escaped are scanning the country for the giant renegades.

Since one of the elephants charged an Indian no advices have been received here of any one sighting the gigantic beasts.

The Indian was thrown from his horse which bolted as the elephant came out of a clump of trees. The man took refuge amid some trees as the charging elephant started in pursuit of the mount, which escaped.

PRAIRIE BUFFALO WILL BE KILLED

OTTAWA, Aug. 12.—Despite the fact that 2,000 buffalo are being shipped to the wood bison range in the vicinity of Fort Smith this summer, the growth of the national herd in Buffalo park, Wainwright, Alta., has been so rapid that the government has been forced to seek other means of reducing the number of animals to proportions that are within the grazing capacity of the park. It has been decided to dispose of an additional 2,000 animals on the hoof, by tender, the understanding being that any animals so purchased will be slaughtered and the meat and hides disposed of by sale on the public markets.

Last summer 1634 buffalo were successfully transported to the northern range in the northwest territories, but this depletion of the herd was off-set by the annual increase.

WASHINGTON, Aug. 12.—(United News)—Practically all government departments closed at noon today because of the excessive heat which made the offices unbearable. American Embassy Lodges Protest On Grande Arrest

MEXICO CITY, Aug. 12.—(United News)—The American embassy has lodged a vigorous protest with the Mexican state department over the refusal of municipal authorities to permit the American vice consul to see J. H. Grande, an American fruit exporter of Los Angeles, held in jail here on charges of fraud. It is understood that the protest also pointed out that Grande was held incommunicado from August 3 to August 9 and that this was contrary to Mexican law.

Grande was charged with fraud in connection with his sale of nine cars of bananas to the Mexican Fruit company.
