

Broadcasting Will Be Feature Radio Fans For Week

SAN FRANCISCO, Aug. 20.—(United News)—Western states will "tune in" starting tomorrow on what is expected to be the most pretentious broadcasting program of the year when the third annual Pacific Radio exposition opens for one week.

Almost continuous broadcasting will be carried on during the week by the exposition's station KRCA on 377 meters to be operated by the radio corporation of America.

Radio celebrities from six bay district stations will "take the air" from KRCA. The convention will be held in the civic auditorium which already has been converted into a huge display house for the hundreds of exhibitions, symbolical of radio progress in the past few years.

they will do it again this very day. The city will be in gala attire when our visitors are brought to the business section. Old Glory will be flaunting from the poles in front of the business houses; merchants will have festively decorated windows and fronts; our street lighting system will be such that when darkness appears they will lend enchantment to the occasion.

The program for this morning calls for a drive over the business and residential sections of the city. This will be followed by a rest, but this afternoon the autoists will again gather up the visitors and drive them to any points of interest throughout the district that they may select.

This evening at 9:30 o'clock there will be a reception at the White Pelican hotel in honor of our guests, and every resident of Klamath Falls is urged to be present. There is no set program other than an address to be delivered by H. W. Irvine, blind editor of the Portland Journal, who is considered one of the most impressive speakers, and best qualified to expound the resources and destinies of Oregon, to be found in the great northwest.
