

## RESOURCES OF COUNTY SHOWN

### Daugherty Loses in Effort of Mistrial

#### Attorneys Representing Defendants at Loggerheads; Judge Denies Motion Offered

NEW YORK, Sept. 14.—(United News)—Unsuccessful efforts to have a juror disqualified and a mistrial declared were made Tuesday by counsel for Harry M. Daugherty, former attorney general, who is charged with conspiracy with Colonel Thomas W. Miller, former alien property custodian.

The motion came as the most dramatic moment in a day which revealed again the difference between Max D. Steiner, Daugherty's attorney, and Colonel William D. Rand, counsel for Miller.

**Attorneys Disagree**  
It was apparent that the defense attorneys were not making common cause in defending the former government officials who are charged with defrauding the government of their unabsorbed services in allowing the \$7,000 claim of the German owned Societe Sulase.

Steiner contended that United States Attorney Emory Buckner, by his gestures and speech had sought to make a summing up of his direct examination of Richard Merton, the German industrialist, who negotiated the return of the Am-

### Jail Sentences Handed Out to Booze Violators

Living up to his threat of giving every violator of the Volstead Act, famous amendment to the United States Constitution, a jail sentence along with a stiff fine, Justice R. A. Emmitt yesterday meted out \$400 and costs and 100 days in the county jail to both James Smith and Roy Kennedy.

Smith was arrested by prohibition officers late Saturday night when he made a delivery to them on South Riverside. He had 16 gallons in his possession. He pleaded guilty.

Roy Kennedy, charged with possession, entered a plea of not guilty and received the same sentence for his trouble as did Smith.

Mrs. E. M. Bovin, who was arrested by officers September 2 with several gallons of liquor in her possession, was found guilty by a jury of six Klamath Falls men late yesterday afternoon. She will be sentenced in Justice Emmitt's court this afternoon at 3 o'clock.

Those on the jury, who were out but 20 minutes, included Oscar Shive, G. A. McCarthy, Mike Taylor, H. E. Getz, Chauncey Raymond and Johnny Ansel.

Today promises to be a busy one of Justice Emmitt's docket, when several cases that have been pending for the past two weeks, will be closed. Another liquor case, which was to have come before Justice Emmitt yesterday, was postponed on account of illness of the defendant.

### Trans-Atlantic Flight Postponed By Bad Weather

ROOSEVELT FIELD, L. I., Sept. 14.—(United News)—Unfavorable weather reports late tonight caused indefinite postponement of the trans-Atlantic non-stop flight in which Captain Panop, French ace, and associates planned to begin at dawn tomorrow.

### NOBEL WAS HERO BUT TWO WIVES PROVED TOO MUCH

NEW YORK, Sept. 14.—(United News)—Joseph Nobel, who received a medal for rescuing a comrade at sea and frustrating an attempt of bandits to rob a laundry in the Bronx, has surrendered himself to the police and pleaded guilty to bigamy, to escape his two wives. Nobel said life in the penitentiary was preferable to double matrimony.

### Chiloquin to Get Handsome Hotel; Contract Awarded

Will Contain 50 Rooms With Space on Ground Floor for Several Stores; Cost Will Be Ninety-Five Thousand

On the threshold of unprecedented building development, Chiloquin is to have one of the finest hotel and store structures in the county, according to George Bell of that city, who announced here yesterday that he will start excavating this week for a \$95,000 brick hostelry.

The new hotel will comprise 50 rooms, according to present plans, with ample space on the ground floor for several stores, all of which have been leased, Bell stated. In the building will be a shoe store, drug store, bank, hardware and grocery, all operated by men who will enter Chiloquin to open businesses for the first time.

The hotel will be strictly modern in every respect, and will be fully

### Civic Exposition Week October 14 To 21 Inclusive

The Klamath county chamber of commerce has set aside October 14 to October 21, inclusive, as Civic Expansion Week. This was the decision of the board of directors who met yesterday at noon to discuss the financial condition and membership of the body.

"There is \$11,000 on the books now, and with the budget which the board of directors has adopted for the coming year, the chamber is in need of an additional \$4000 to make the \$15,000 necessary accessible," stated Andy Collier, president, to members of the board yesterday.

Bert Thomas, director in charge of the membership committees of the chamber, and E. M. Bubb, director in charge of the finance and budget committee, will head the work for Civic Expansion Week, assisted by a number of committee men and workers from the chamber at large.

New members and new service funds will be sought by the chamber in order to cope with the expansion of the city and the work to be done by the chamber of commerce.

### Klamath to Send Letters Over New Air Line Route

Inauguration of the coast air line, from the Mexican border to the Canadian line, will not pass without the notice of the Klamath county chamber of commerce. Early this morning a packet of congratulatory letters from the president of the chamber, Andy Collier, will leave by courtesy of the Klamath Air Service to be distributed along the coast.

The Klamath plane will be met at Medford by one of the coastal ships and the mail sorted out there for distribution, both north and south.

The presidents of the chambers of commerce at San Francisco, Medford, Seattle, Los Angeles, and Portland are to receive greetings from Klamath because those cities will be favored with the new air route.  
Mayors of San Francisco, Portland, Seattle, and Los Angeles are to receive similar letters of greeting showing that Klamath is on the job even if it is off the main air line.

### Wireless Message Sputters Distress

### British Freighter Floundering at Sea When SOS Is Picked Up and Vessel Located

NEW YORK, Sept. 14.—(United News)—Three crisp wireless messages spluttering from the open sea to a radio office here have brought home another colossal drama, as old as time, and as thrilling as fiction.

The British freighter Loyal Citizen, a vessel of 4294 tons gross, had flashed an SOS Tuesday afternoon, stating its position as latitude 31 degrees 18 minutes north; longitude 67 degrees west—several hundred miles of Cape Hatteras.

The distress signal was picked up by the British steamer Sierste, which rushed immediately to the assistance of the freighter.

Advices to the Independent Wireless company here from the Sierste said the vessel had been unable to find any trace of Loyal Citizen.

While this information was being telephoned to the United News, George Oachman, radio operator of the Independent Wireless suddenly stopped. There was a flash on his board indicating a message was coming.

"Just a minute," he exclaimed.

**Ship Is Sighted**  
Oachman dropped the telephone and adjusted the radio ear phones to his head.

"Sighted the Loyal Citizen," was

### Power Line May Be Extended to Town Lakeview

Following a recent trip to Lakeview by J. C. Boyle, division manager for the California-Oregon Power company here, when that official made preliminary investigation of the project, a party will be sent out from the local office in the near future to survey a possible power line extension to that city from Klamath Falls.

This announcement was made by Boyle yesterday, but the Copco manager was unable to make any definite statements concerning the feasibility of the proposed line extension. The company already has a line out to Bonanza.

An unconfirmed report from Lakeview states that the owner of the present system there, N. P. Jensen, had an offer of about \$80,000 for his plant, from Portland interests, and intimated that an offer had been made by Copco. Boyle stated that he knew nothing of this.

### Golfer Nunn Will Tell Secrets of Interesting Game

Eddie Nunn, with or without his plus-fours, will hold the floor at the first forum meeting of the year today, when the Klamath county chamber of commerce opens its fall luncheon for members after three months' vacation.

Nunn is the golf "pro" at the Reames Golf and Country Club and his discussion of golf and the habits of golf bugs will be of general interest to the visitors.

Miss Pearl Biehn will play during the luncheon hour and A. M. Collier, president of the chamber, will give a brief address of welcome.  
T. P. Henderson will preside at the meeting which was outlined by Roy F. Durbin and his committee.

### BUSINESS HOUSES ASKED TO CLOSE FRIDAY AFTERNOON

Business houses of Klamath Falls, or at least a large majority of them, will close Friday noon that employe and employe may be given an opportunity to at the county fair in the afternoon.

"The merchants' committee will endeavor to call personally upon every person engaged in business to make request for the closing, and if anyone is overlooked it is hoped that the party will voluntarily cease business for the afternoon."

### Venison Barbecue At Crooked Creek Sunday Afternoon

Annual event of Klamath Sportsmen Association promises to be largely attended with about 500

Many nimrods, members of the Klamath Sportsmen association, who met with bad luck while in search of bucks, since the opening of the deep season, already have watering mouths and visions of partaking of a sumptuous venison feast.

They have reason to appear in such an attitude by reason of the official announcement having been made yesterday that the annual barbecue of the Klamath Sportsmen association will take place at the Fish Hatchery on Crooked Creek on next Sunday afternoon.

One great buck, which fell under the careful aim of Roscoe Largent, has been placed on ice, and announcement is made by Walter Donart, Doc Boyd and Marion Barnes, committee on arrangements, that they will round up the necessary bucks to make this barbecue one of the best events ever staged in the history of sportdom of Klamath county.

This feast will be for members of

### Evangelist Says She Paid Money For Sleuth Work

LOS ANGELES, Sept. 14.—(United News)—Breaking a silence maintained since the sensational confession of Mrs. Lorraine Wiseman, that she was paid to perpetrate the "Miss X." hoax, Almee Semple McPherson has admitted that she paid the woman "expense" money.

Although the evangelist's attorney denied in a statement that Mrs. Wiseman had ever received any money from Mrs. McPherson, the Bible teacher refuted this late today.

She said that Mrs. Wiseman had received small amounts from her, just as she had paid money to other investigators working on the case.

"It seemed only right that when persons came to us and offered their assistance we should advance a little expense money," the evangelist said. "There was nothing unusual in the fact that Mrs. Wiseman received money from me as the circumstances were the same in cases where detectives were paid."

Mrs. McPherson declared that she had been "utterly fooled" by the woman and offered this as an explanation of the "expense money" item found in a note book carried by Mrs. Wiseman.

CHICAGO, Sept. 14.—(United News)—Kenneth G. Ormiston is ready to talk with Los Angeles officials whenever they want him, in connection with the latest developments in the Almee Semple McPherson kidnaping case, his attorney, Edward H. S. Martin, announced today.

"Mr. Ormiston is near Chicago and I can produce him at any time," Martin said. "I told the Los Angeles district attorney this late July 30 and the promise is still good, but I believe authorities are satisfied with Mr. Ormiston's statements that he knows nothing about the case and that the woman he was living with at Carmel-by-the-Sea was not Mrs. McPherson."

### Shipment Rates on Stock Are Given Out

### Sprague River and Bly Sections Along O. C. E. to Benefit on Joint Rates With S. P.

An announcement anticipated for some time by stockmen in the Sprague River and Bly districts, as well as other sections along the O. C. & E., was made yesterday by J. J. Miller, district freight and passenger agent for the Southern Pacific, when he stated that joint stock rates between the two railroads will go into effect Saturday, September 18.

The new rates from Sprague River to San Francisco, materially reduced in the new quotation, are to be published on special order of the Interstate Commerce Commission to take care of prospective fall shipments. The two railroads requested the action early this year, with permission to put it into effect on short notice.

The new rate on a carload of cattle from Sprague River to San Francisco, will be \$140, a saving of some \$11 over the old freight rate on cattle. After Saturday, it will cost the rancher \$119 to ship a carload of sheep, single-decked, this distance. The rate on double-decked sheep per carload will be \$154, it was stated.

Rushing the new quotation through to benefit stockmen this year, the companies, through the courtesy of the commission, were

### Great Pendleton Round-Up Starts Cowboys Cheering

PENDLETON, Ore., Sept. 14.—(United News)—"Let 'er buck!"

With the greatest gathering of cowpunchers and cowgirls from all parts of the country on hand, "rarin' to go," the sixteenth annual Pendleton round-up will officially open Wednesday in a four-day meet that promises to be the gayest and best frontier spectacle in its history.

New scenery, star ropers, riders, Indians, stage coaches, oxen and old-time dancers are included in the western nights spectacle, which will take place in the down-town enclosure each evening of the four days.

The Westward Ho! parade will take place Saturday, and in the line of march will be the contestants, Indians, stage coaches, oxen and old-time pioneers draped in the trappings of the old days.

### Famous Wet Wins Nomination For U. S. Senator

BALTIMORE, Sept. 14.—(United News)—Representative John Philip Hill, wet leader in the house, increased his lead over Senator O. E. Weller, for the republican senatorial nomination, late returns from city precincts here indicated.

A total of 3314 votes was polled by Hill against Weller's 2557, according to returns from 177 precincts here. Incomplete returns from the 455 remaining precincts in the city indicate that Hill is increasing his lead.

Governor Ritchie, democratic candidate for a third term as governor, polled 9722 votes against W. M. Maloy's 1136 from returns of 177 precincts here.  
Representative Tydings, democratic candidate for the senate, has no opposition.

### PEGGY LIKED JOKES BUT THIS JOKE WAS JUST A TRIFLE RAW

SAN FRANCISCO, Sept. 14.—(United News)—Peggy Miller said she laughed long and heartily when Alfred Ellis crushed chocolate drops into her jar of cold cream, with a potato masher. But the next time Ellis flash the humorous urge coming upon him he rushed at Peggy with a razor and slit her dress to shreds. This time she had him arrested on a charge of malicious mischief.

### Extermination of Coyotes by Poison Has Been Started

Ranchers are warned by Extermination of Government to Watch Pets that They Do Not Become Contaminated

"If you value your dog, keep him under close surveillance for a few weeks," is the warning issued to Klamath county stockmen and farmers by H. H. Gubsen, government trapper of Bonanza, who was in this city yesterday. "Ranchers can help materially with coyote control, if they will protect their dogs from the poison baits, by trying them up for a while," the trapper stated.

The warning, or request, as the trapper put it, applies particularly just now to ranchers in the Henley district, where Gubsen started his fall campaign Tuesday morning against the coyote menace, when he placed the first poison bait in that region. "The coyotes have effected a great deal of damage

### Republican State Chairman Talks On Great Issues

Declaring that democratic nominee has a strong following throughout the state and that every loyal republican will have to work hard if I. L. Patterson, republican candidate for governor, is to be elected, Phillip Metchan, chairman of the republican state central committee, addressed a group of local business men at a luncheon in the White Pelican yesterday. W. W. McNeally introduced the speaker. Nearly 50 local republicans were present to greet Metchan, and the chairman's remarks were accorded an enthusiastic reception. Metchan lauded Fred Steiwer, republican candidate for U. S. senate, and stated that the senatorial race lies between Bert Haney, democrat, and Steiwer.

Because Haney would be a member of the minority party if sent to Washington, and because President Coolidge is said to be at odds with Haney over the shipping board issue, Metchan advised against supporting the democratic candidate. "Give your whole hearted support to Fred Steiwer, a thoroughly capable man," he advised.

### After Long Absence Pioneer Publisher Visits Old Scenes

There are few familiar faces and fewer recognizable places to greet one who has not been in Klamath since 1900, in the opinion of Milan C. Loosley, who is today a stranger in his old home town.

Twenty-six years ago Loosley was associated with William Bowdoin as publisher of the Klamath Republican, a weekly newspaper that kept this city and county in touch with the news of the day. A gas station now occupies the corner on Main street where the little one-roomed office of the newspaper used to stand, and few people now living here remember the paper itself. Mr. Loosley left Klamath to join the army as a member, and of the signal corp carried the colors of his country in three campaigns. He is now retired from active service, and is, instead, employed with the civil service department of the United States.

### Klamath's Growth is Reflected in Exhibit

### County Fair Opens on Thursday Morning and Populace Is Solidly Behind Movement

A fitting panorama of Klamath county's prosperity, livestock development, agricultural wealth and floral beauty, will lie in readiness tonight at the local fairgrounds for thousands of visitors expected here to attend the annual Klamath County Fair and Products show which opens for three days tomorrow.

The gates will open on the finest exhibits ever assembled in Klamath county, and on an array of agricultural and livestock products valued at many thousands of dollars. A number of private exhibitors and several county communities will participate in this colorful and interesting demonstration of Klamath county's constant progress.

Entries of all descriptions have been pouring in to the fair board, and today, which is the last day when entries will be accepted, is expected to climax the deluge of farm and home exhibits. That the fair this year is to be the greatest in the history of the county, is evidenced by the varied nature of the exhibits and the fact that to date  
(Continued on Page Six)

### Oregon Pumice Is Sound, as Shown By Proof Tests

Another use has been found for pumice, which may mean a big boost to the infant industry started not far from Klamath Falls by W. A. T. Agard last year. An eastern firm, after many experiments, has found that manufactured pumice makes an incomparable partition for offices, due to sound-resisting qualities.

"I expect this to not only advance the price for lump pumice, but to increase the demand as well," declared Agard, who passed through this city yesterday en route for his home in San Francisco. Due to the inclemency of the weather, Agard has closed down his pumice plant along the route of the Cascades line, for this season. Lump pumice must be utterly dry when mined, if best quality is to be obtained. Agard stated, and as this deposit of Oregon pumice has established an excellent reputation in the east, he says he does not propose to jeopardize it.

Agard expects to start production on a large scale next year.
