

Wintry Weather Reported in Many Eastern Sections

North Dakota Fares Worst As Fall of Snow Casts Mantle of Beautiful to Appear; Other States Affected

CHICAGO, Sept. 25.—(United Press)—Following two weeks of heavy rainfall, wintry weather has moved into the middle west with reports of freezing temperatures and snows.

Chicago has had a drop in temperature of between twenty and thirty degrees and temperatures probably will continue cool over Sunday, the weather bureau predicted. There has been no snow here, but the chill winds have been aided by a drizzle which finally gave way to clear weather today.

The Dakotas, Nebraska, Iowa, Minnesota, Wisconsin and northern Michigan, however, reported true wintry conditions. Temperatures there are below the freezing point and were not greatly relieved by a clear and sunny day today.

Temperatures probably will go low again tonight, it was forecast. In North Dakota snow started falling Friday and continued well into the night. Several places reported a snow thickness of six to seven inches blanketing the wheat crop.

The Canadian wheat country, where much of this year's grain crop has not been harvested, is also blanketed. Manitoba, Saskatchewan and Alberta all have reported recurring snowstorms in the past week. The Canadian snowstorms are quite untimely and may bring a considerable loss to the farmers, owing to their inability to get to the grain, agriculture officials said today.

The Iowa corn crop has suffered through the freezing weather in the past 36 hours, it was said today. The corn crops are just reaching maturity and the untimely freeze will bring a loss of from \$50,000,000 to \$75,000,000, it was said today.

In addition to the cold weather recent rains have brought streams up to a high stage again.

In the vicinity of Ottawa and Aurora, Illinois, the streams are reported running near bank high, following continued rain, the past week. No loss from high water has occurred, however.

Vets of 91st in Humor to Build Great Memorial

SEATTLE, Sept. 25.—(United Press)—A "zero hour" banquet when plans for construction of a memorial stadium at Camp Lewis climaxed the first day's reunion of the veterans of the famous Ninety-first Division.

Lamar Toole, of Portland, chairman of the association's memorial committee, announced that the stadium would be constructed. Originally it was planned to build a memorial arch across the Pacific highway in front of the cantonment, in honor of the heroes of the old wild west division.

Suggestion that a stadium would be more appropriate was made by Brigadier General Robert Alexander, commander of the third division. The change was recommended after the war department announced that it would make Camp Lewis a permanent garrison and construct new brick buildings there to house troops.

Funds for the memorial will be raised among the former "Powder River boys."

Each section will be named for some regimental division. The former buddies gathered here from various western states to swap training camp and trench stories and pay tribute to the dead of the division, will journey to Camp Lewis by automobile caravan tomorrow for the ground-breaking ceremonies.

CARELESS HUNTING IS UNCOVERED IN COUNTY

Evidence of careless hunting was uncovered in deer country adjacent to Klamath Falls last night when Officer Mitchell of the local police force, scouting the hills for big game during his vacation, found a dead doe, the victim of a "shoot on sight" sportsman.

The same day, Mitchell's hunting partner, Officer Brown, discovered a fine buck lying dead in the brush. The buck had been wounded by some novice in the hunting game, who failed to follow up his shot, is the belief of the officers, who stated that both deer had been dead for several days.

Incidentally these were the only dead deer which the two policemen encountered on their hunt, inasmuch as they failed to bag any venison themselves. Mitchell reports that does are extremely numerous throughout the game country, but that bucks, both mule and blacktail, are not so plentiful as usual.

A new shipment of coats and dresses just arrived at Bee Begin's Store, 129 So. 7th.

McCormick-Deering Potato Digger

Built in Rod Link and Bar Grate Types

Let This Digger Root 'em Out for You

Users of the McCormick-Deering Potato Digger tell us that it is easier to pick up behind this digger than any other digger they have ever used. This is due to the fact that the McCormick-Deering shakes all the soil free from the potatoes and deposits them on top of the ground in compact rows, making it easy to get them. This feature is a great time and labor saver, and makes friends everywhere.

Another point in favor of the McCormick-Deering is its ability to lift potatoes out of the soil without bruising them. Everything else being equal, potatoes dug with a McCormick-Deering digger should bring a higher price on the market than those dug any other way.

The McCormick-Deering is designed to operate with light draft. This makes it possible to operate the digger at sufficient depth to make sure of getting all of the potatoes without overstraining the team or the machine.

McCormick-Deering Potato Diggers are available in types and sizes for the needs of this locality. Make it a point to see your favorite type and size here.

Some of Klamath's leading musicians have passed judgment on the new Sonora, and we now ask you to let your ear decide.

Monthly payments may be divided over a period of twelve months, with 10 per cent as an initial payment.

LIVESTOCK RAISING—A BUSINESS

If one plays at livestock raising, he pays. If he makes a business of it, he prospers. And it is a business that requires hard work and deep study. Starting the herd, building it up and cashing in on it cannot succeed under guess work.

Yet, livestock raising will go a long way in this community toward solving the farmer's economic problems. Furthermore, THE FIRST NATIONAL BANK is only too glad to lend a helping hand along business-like lines.

It is fortunate that the farmers in this vicinity have the opportunity to visit and profit from the Pacific International Livestock Exposition in Portland. This year, October 30—November 6, it is said the exhibits will out rival any previous livestock show in all America.
