

### Sheriff Hawkins Has Some Ill-Luck On Portland Trip

When Burt L. Hawkins and Ed. X. Kendall started from the county jail in the grim, gray hours of early dawn yesterday with six prisoners for the Portland jail, they little reckoned on anything but a clear day's driving and reaching Portland in time for good, hot corned beef and cabbage.

Word was received at the sheriff's office yesterday at noon, however, that Sheriff Hawkins and his aide, and their six wards, had proved too much of a weight for the car and that they had broken down near Chiloquin. The sheriff paid the Chiloquin station master eight fares to Portland and the party continued north over the Natron cut-off.

"Well, it was a better trip for the prisoners, sitting on the observation," one of Hawkins' deputies said yesterday with a chuckle.

### CRACKER MAN MAY DO BUSINESS HERE

Earl F. Metcalf, secretary and treasurer of the California Cracker conditions in Klamath Falls and Klamath Falls to look into the interests of Oregon concern in relation to establishing a branch office, or invading this territory with the California Cracker company's products.

Metcalf was enthusiastic about conditions in Klamath Falls and termed it the busiest little city on the Pacific coast. The visitor is a resident of Oakland, California. This is the first time that his company has chosen to come north into Oregon territory, and Klamath Falls has been one of the first cities to be investigated.

## PUBLICLY OWNED Or Politically Operated?

All utilities are publicly owned. Their stockholders are representative of every business and of every walk in life, and in a true sense represent the general public.

The Housewives' Council "Water and Power" Amendment refers to "publicly owned and operated utilities" but means STATE OWNED AND POLITICALLY OPERATED. The practical result of the Amendment would be to destroy all opportunity for development of power or irrigation projects by private initiative or capital under state regulation.

Oregon, wholly without experience of its own as a guide, and without a successful example in any other state, by this amendment would close the door to all future development, except at the hands of a political board. At the same time it would place the additional burden of a \$53,000,000 bond issue upon the taxpayers. Politics would be an expensive substitute for thrift and enterprise.
