## The Dalton *Million-dollar Capacity* Eight

*Multiplies as fast as it adds —*

IT HAPPENS all the time in your office . . . Someone has figuring to do, but to do it, they must either leave their desk and "go to" an adding machine, or trust to the treacherous pad-and-pencil method. The first way wastes precious minutes; the second costs both minutes and mistakes.

costs only  
**\$100**

Same quality as the world's highest-priced machines

Everything substantial about this Dalton—quality all the way through. It is, part for part, identical with the world's highest-priced bookkeeping machines—machines selling for 10 and 15 times as much. Made of the same steel, by the same workmen, under the same rigid inspection rules. This \$100 Dalton will last a business lifetime.

10 days' free trial!

Don't take our word on the Dalton Eight. Use the machine at our expense—let it sell itself to you. Mail the coupon—we'll send a machine for 10 days' free trial. Easy purchase terms, too, on the Dalton Eight—only \$10.00 down.

And it multiplies, too!

This new Dalton is not just a plain adding machine, like most of the low-priced machines you read about. It multiplies, too!—and not in any slow, round-about way either. It multiplies with the same lightning speed and the same A-B-C ease that it adds. The machine even subtracts, and does it in jig-time, too! Such a figure service has never before been available at anywhere near \$100!

Instantly operable—no instruction needed

You don't have to take a course of instruction before you can use the Dalton. Just step up to it and operate it—it's that simple. For it has no confusing mass of keys. Only 10 keys, so scientifically arranged that one hand covers them. And no columns to worry about—figures automatically arrange themselves in their proper order on the tape.
