A USED CAR IS ONLY AS DEPENDABLE
AS THE DEALER WHO SELLS ITEveryone says—
"Buick is Reliable"

Buick reliability is one reason why the majority of new Buicks every year are purchased by old Buick owners.

Buick is the car with the Sealed Chassis, which encases every operating part inside an iron or steel housing, to keep out dirt.

Buick is the car with the high-speed starting motor, for reliability in starting—with mechanical 4-wheel-brakes, for certainty in stopping—and with a six-cylinder, valve-in-head engine, for engine performance that is the envy of the motor car industry.

Buy a Buick! It is a more dependable and more enjoyable motor car.
