BROADWAY MAY CLEAN STAGES THIS SUMMER

(United News)

Broadway, overrun with unclean drama, has called upon the city government to save its theatres from the epidemic of plays that have brought a revival of the demand for censorship.

Admitting their own inability to cleanse the stage, play producers, dramatists and actors appealed to the bill drafting commission of the municipal assembly to draft a bill authorizing an agency to supervise plays produced in New York.

The unofficial play jury which passed such productions as "The Captive," now playing to capacity crowds on Broadway, is ineffective to check the flood of unclean plays the committee from the Rialto said.

TOOTH SENSE

The most important points for any one to consider when having any kind of dental work done, are:

1—Restoration to look as natural as possible. Pleasing to the eye.

2—To be finished as rapidly as possible, consistent with good work.

3—To be performed with as little discomfort to the patient as practical (during and after operation.)

4—Price of the work and the length of time it may be expected to give good service.

1—We have a number of patients in Klamath Falls who are glad to go out of their way to show their dentures or bridgework to any one who is interested.

2—We never put off a patient with unfinished work to care for a new one (except in emergencies.)

3—With nitrous oxide-oxygen gas, we place the patient in an Analgesic state. Patient remains conscious but entirely insensible to pain. Absolutely no after effects.

4—Our prices are not high; they are fair and reasonable. Every operation must be satisfactory to the patient, and every piece of work, when finished, is absolutely guaranteed.

Unknown Cavalier Liberty Headliner

If you miss the circus this summer, you needn't mind—just go to see "The Unknown Cavalier," at the Liberty today.

For in this picture, produced by Chas. R. Rogers, you will see a former Ringling Brothers circus star, Ken Maynard, now a star of the screen, but you will see one of the most exciting "Roman rides" that you ever witnessed.

In one sequence of the picture, Maynard, as the hero, Tom Drury, offers to go some Roman riding for four ruffians whom he wishes to "shake." He starts stant riding one horse, adding another to his team at each turn of the course, until he is standing on the outside steeds of four horses abreast.

Braves Death to Save His Child

Courageously brushing aside evidence which would save him from the death penalty, branding as false the confession of his daughter, because that confession would harm her good name, and with broad erect, he enters the death chamber to suffer punishment for a crime of which he was innocent.

This is one of the most dramatic situations of "Silence," a Rupert Julian production—a situation which caps the keynote of father love with which the production rings—the beautiful sacrifice of a father for his little girl.

They are profitable, particularly if you choose the breed that is most adapted to this climate and elevation, and get those that have proven their worth by the only certain test—the trap-nest for years.

We will be glad to assist or render advice and service to anyone who wishes to start, or to those considering it.

LOG CABIN POULTRY FARM is only 21 miles from Klamath Falls, on the Ashland Hi-way. Drive out and see trap-nest records of 60 to 80% during the coldest winter months, every hen trap-nested and entire flocks making these records, whether pullets or two-year-olds.
