

Cheyne Dies Here At Age of 53 Years

Word of the sudden passing of William McCauley Cheyne shocked his many friends throughout the county early yesterday.

Slight hope was held for his recovery after he was suddenly stricken with appendicitis at his home on the Spring Lake road Sunday. An operation was performed as soon as he could be rushed to a local hospital, but death overtook him Wednesday morning.

For the past 45 years, Cheyne has been a resident of Klamath county, recognized as one of the community's most outstanding farmers. He was born in Edinburgh, Scotland, and at the age of ten came with his parents to the states. At his death he was 53 years of age.

He leaves a wife, Mary, daughter of Mr. and Mrs. Carl Schubert, Sr., of the Spring Lake district, to whom he was married ten years ago. William and Leland, two small sons, aged nine and seven respectively, also survive.

Two of his brothers, Robert and Alexander, are prominent ranchers of this country and another brother, James, resides in Yakima, Washington.

His sisters are Mary, (Mrs. G. S. Thompson) and Belle, (Mrs. L. B. Dawson).

The remains are at the Earl Whitlock Funeral Home.

Johnson, and Miss Evelyn Aplegate left by train last week for Eugene to attend the state music teachers' assembly, which is in session Thursday and Friday. The delegates plan to return Saturday of this week.

In Auto Accident—Francis J. Bowne, Bonanza, in reporting an accident which occurred Tuesday evening on Main street, between 5th and 6th, claims that a woman driving a large car backing into him when coming out of a parking space broken fenders were the only damage.

Takes Business Trip—Joseph Jensen spent Tuesday in Chiloquin attending to county market road business.

Roads Good—C. E. Gordon and Ed Rowe, both of Portland, who have been spending the past week in the city, went to Lakeview Monday. The trip was made in five hours and they report the roads in excellent condition. Gordon and Rowe are representatives of the Feet Bros. Soap company.

Married Wednesday Morning—Billie R. Turner became the bride of Henry B. Covington Wednesday morning. The marriage ceremony was performed by Justice of the Peace William Barnes. Both are residents of Weed, California.

FIRE WARDEN HURT BY FALLING TREE

Walter Howard, aged 53, fire warden for the Klamath Forest Protective association was struck down by a tree yesterday on a forest road near Spencer Creek ranger station when he miscalculated the direction in which a tree would fall, and now lies seriously injured in the Klamath General hospital.

Howard was working on the road, with several fire wardens who were cutting trees away along the right-of-way.

Howard was crushed by a small tree, and four ribs were broken, one of which punctured his lung. He is suffering a severe scalp injury, an injury of the collar bone, and cuts and bruises.

New President is Ready for Program

(Continued from Page One)

We should ever be alert to do all we can to encourage industries and manufacturers to locate here. We offer advantages for many varied industries particularly remanufacturing of wood products. These bring pay rolls, and the more pay rolls we can secure for the county, the more prosperity will we enjoy.

"One more point I would like to touch upon. Let's finish up speedily the work started during clean up week. This is the time of year to get rid of accumulated rubbish. Let's take a pride in the general appearance of our community, because that will help to make a good impression upon the thousands that are going to flock to Klamath, since we are now so strongly in the spot light of new development.

Need Suggestions.

"If any one has suggestions as to what should be done, I should be glad to receive them. While I am serving on a number of public boards and committees, I assure you I appreciate the honor of being president of this chamber organization at a time when so many important things will be coming up for attention. I shall willingly do my part, and I bespeak the hearty cooperation of everyone. Without cooperation our efforts will be in vain. With it we shall soon have a bigger and better community."

"The activities of the chamber of commerce are so extensive that I have hardly had time to be able to outline to you the things most urgently needed. I have gone into some of these matters with your secretary, Mr. Sabin, but my duties as a member of the grand jury this week have prevented me from finding my bearings as completely as I should have preferred.

Better Lighting

"However, it seems to me that since the election held recently the chamber should assist in every possible way to see that our streets are better lighted. This activity will be handled largely through our street lighting committee of which Mr. Crego is the chairman. Our transportation facilities are rapidly improving, and that means increased number of tourists, and I do not know of anything that will make a good impression upon visitors better than well lighted streets, with ornamental fixtures. This committee will assist the property owners of any section of the city in the preparation of their petitions, and the formation of lighting districts. As I understand it, these lighting districts are now in a position to bond themselves for these lighting im-

provements, and secure ten years within which to pay for the lights, and these proportionate assessments for benefits should not be large. I earnestly ask the cooperation of everyone toward the furthering of this program for better lighted streets. This is an improvement urgently needed.

Advocates Land Settlement

"I also believe the time has come when we should devote our best energies to land settlement. Comparatively speaking our lands are cheap, better markets are being opened up with the coming of our railroad; better highways and county roads are being built; our soil is fertile, well adapted to many staple crops, and we can sincerely offer inducements for new farmers to come to Klamath County. Our County Agent, Mr. Henderson, is carrying on a splendid work in this county, and we should assist in every way to build up the back country to Klamath Falls. We have a Land Settlement Committee and also an Agricultural Committee. These two committees are cooperating on this question.
