

250,000 License Plates for 1928

SALEM, May 26, (UP)—A quarter of a million automobile license plates will be required to meet Oregon's demands in 1928, according to estimates made for the purpose of calling for bids for making the plates.

Colors for 1928 plates are a white background with black letters. As in the case this year, the name "Oregon" will be spelled out in full.

California's 1928 plates will be the reverse of Oregon's, with a black background and white letters. Washington's will have an orange background and black letters.

The record of automobile license plates in Oregon illustrates the advance of the motor industry. In 1914 the state issued 33,916. In 1927 the number had increased to 225,000.

There are now more than one-fourth as many automobiles in Oregon as there are Oregonians.

RUSSIA INDIGNANT AT RAID

WINSTON CHURCHILL

M. KHINTCHUK

LORD BIRKENHEAD

SIR WILLIAM JOHNSON-HICKS

News of a British raid on the headquarters of Arcos Limited, in London, a buying and selling agency for the All-Russian co-operative society, has spread a wave of indignation throughout Russia, finding expression in demonstrations against Great Britain at Moscow. The agency is staffed by the Russian trade delegation, whose headquarters were supposed to have the status of an embassy. Above to the right is a photo of M. Khintchuk, who heads the agency at London, but who was absent at the Geneva economic conference at the time of the raid. Khintchuk succeeded Leonid Krassin at the post when Krassin died last November. Winston Churchill, Lord Birkenhead, and Sir William Johnson-Hicks are the members of the British cabinet favoring forceful action against the Soviet, of which the raid was an example.

Canoe Fete Cannot Be Staged in 1927

EUGENE, May 26, (UP)—Flood waters of last winter, in addition to doing considerable property damage, forced the elimination of one of the University of Oregon's oldest annual events, the canoe fete.

The Willamette river freshet of last February swept away 100 feet of the wall dividing an old millrace from the river, allowing the water to pour from the race into the river.

Lack of water in the millrace compelled abandonment of plans for the canoe fete which since 1907, has been a prominent feature of the Junior week-end events. Canoeing in the river at this point is prohibited by university officials because of the swift current.

Counts Calories For Customers

SAN FRANCISCO, May 26, (UP)—Fat women trying to reduce and slender women seeking to increase their appetites no longer will have to strain their mathematical abilities counting calories, if a plan to be adopted by a women's club here becomes universal.

The club, which will open a new dining room soon, will adopt menu cards listing the number of calories of each dish in a margin alongside the price list.

For instance, if any overly plump woman sits down at the dining table to partake of a tender, juicy steak, she will know that every two ounces of that steak contains 100 calories. She could then adjust her diet accordingly.

Menus will be listed swinging not a calorie over the 1500 allowed the average woman of leisure and also the full calories for the woman indulging in physical occupations.

The calorics units will be prepared by the country's most authoritative dieticians.

Foreign Minister Refuses Inquiry

LONDON, May 26, (AP)—Sir Austen Chamberlain, British foreign minister, said today that the government was not prepared to accept a motion by J. R. Clynes, laborite, that an inquiry should be held into the government's charges of soviet propaganda in Great Britain which have resulted in a decision to sever diplomatic relations.

Sir Austen declared that the laborite motion was a vote of censure and that the government invited a clear expression of confidence and approval. It did not obtain it, the government would know what steps it would be its duty to take.

He declared that there was not a word of truth in the suggestion that at Rome and Geneva he had endeavored to form an anti-soviet union. The British government, he said, had no idea of embarking on any such anti-soviet campaign.
