

### Real Dirt Farmers Welcome President

ARDMORE, July 16, (AP)—Real dirt farmers from South Dakota and Wyoming welcomed President Coolidge here today when he arrived from the summer white house to take part in their outdoor picnic.

With Mrs. Coolidge and the rest of his party, the president came to mingle with the farmers and to inspect the government station here, which is experimenting in making crop raising on semi-arid soil productive.

The trip to Ardmore was made in a special train from Custer, after an automobile ride to that city from the game lodge.

President Coolidge heard a demand for farm relief by Governor Bullow. South Dakota's democratic executive, who spoke before the farmers.

"This country ought to do one of two things," Governor Bullow declared, "either there should be adopted a policy that prevents artificial price fixing for the things the farmer has to buy and restore the economic law of supply and demand on a world basis, or else permit the industry of agriculture an equal opportunity for the establishment of artificial prices for the products that they have to sell."

"My own notion of the entire matter is that a repeal of the tariff legislation that discriminates against sections of our country would furnish ample and permanent relief."

gloating of Mauna Loa. They desire also to make a return to the island of Molokai where they landed Friday.

"We should like to say farewell to the friends who were so hospitable when we landed so informally," Smith said. Much comment is heard everywhere on the persistent efforts of each flyer to give the other full credit for the achievement. Both seem anxious to avoid formal functions.

The flyers Monday will visit General E. M. Lewis, commanding officer at the Schofield barracks and Admiral John D. McDonald at Pearl Harbor.

### TWO NEW LAKES ARE OPENED TO ANGLERS

Fishermen will find a new mecca now that Campbell Lake and Deadhorse Lake in the Upper Cheumancan country have been officially opened for fishing. Blue Lake on the Eastern side of Gearhart which has been closed for the last three years will also be opened.

The roads into the lakes are in good condition up to the Campbell Lake turnout. The road up to the lake does not present any serious difficulties to the average driver, but there are steep grades which require good brakes and careful driving. There is plenty of low gear work and the climb should be taken easily to avoid overheating of motors.

Every dress and coat at Bee Begin's store on sale today.

### NEGRO SENTENCED

PORTLAND, July 16, (AP)—"I didn't do it, your honor—the wine did it." James Collins, 29-year old negro of Yakima, Wash., told Federal Judge Robert L. Bean today when entering a plea of guilty to robbing a drugstore here Sunday night. "You should not have gone in that drugstore, drunk or sober," snapped the judge as he sentenced Collins to 13 months at McNell Island penitentiary.

### Lighted Air Lane Planned in South

FRESNO, Calif., July 16.—(UP)—An air line with beacons at ten-mile intervals will be in operation throughout the length of San Joaquin valley within six months, according to A. L. Curtis, federal airways extension superintendent.

Curtis, who is now on the ground mapping the route, said landing fields will be laid out every 30 miles, to be equipped with border, obstruction and guide lights. In addition there will be 3,000,000 candle-power electric beacons mounted on 50-foot steel towers to guide night flyers.

Giant arrows built of concrete and lying beneath the beacons will indicate the direction of the course. The arrow will bear the number of the course and flyers will select their routes as the motorist now chooses trunk highways.

The new service will be available to all flyers, civilian and commercial.

### At the Pine Tree

Attention of the man who declared that no successful play could be constructed without a villain is respectfully called to "McFadden's Flats," now showing at the Pine Tree theatre for Sunday and Monday.

For the screen production of this feature comedy, like the stage play that endured for more than 30 years of successful and continuous runs, is practically without the suggestion of villainy.

While more laughs, numerous, unusual and side-splitting situations have been added to the original stage play in order to fit it for the screen, it is as much without the usual "heavy" work of the ordinary play as when it first was produced.

"The substitution of many laughs must have made up for the lack of villainy. Newer productions are proving that audiences, the world over, love to laugh and that they don't mind if the usual rules of production are overlooked in the finding of those laughs. Successful entertainment of the future will run more to humor than soba, and money will be expended for ideas rather than lavish settings."

### At the Liberty

Tony, Tom Mix's noted horse that is known to all theatre patrons the world over, made a new friend during the filming of "No Man's Gold," which is showing at the Liberty Sunday and Monday.

The picture was filmed in the desert and among the company was Mickey Moore, a 9-year-old veteran of 25 picture dramas. Tony took a fancy to Mickey, and almost adopted the boy. The famous horse has been with Mix in scores of pictures and knows the desert and it seemed that he sensed danger in permitting Mickey to wander about alone across the sands.

Any time that Mickey left the immediate vicinity of the camera and Tony was loose, he was right at the boy's heels and kept a careful eye on the lad and before the first day's work ended the two were real cronies.

Among the cast with Mix are Eva Novak, who has played leads opposite the famous cowboy in half a dozen pictures, Frank Campeau, Harry Gripp, Farrest Taylor and Malcolm Waite.

All Veterans of the Spanish-American war are admitted free, on Tuesday and Wednesday, for the showing of "Across the Pacific," as guests of Mr. H. W. Poole.

### GIRL IS INJURED WHEN CARS CRASH

Miss Gertrude Roark received a sprained arm Friday evening while going north on The Dalles-California highway near Modoc Point, when the car she was driving was hit by a car driven by George L. Fowler of Berkeley, Calif.

The California car turned out to pass and then swerved back, wrecking the Roark car so it would not go any farther on its own power, and injuring Gertrude Roark.

big debris when a tornado destroyed the Davis home.

About 25 other persons in the community were injured and a dozen buildings destroyed. The tornado covered a strip three miles long and a half mile wide. Other members of the Davis family were injured and the father and a sister were taken to a Topeka hospital.

C. B. Keller, a neighbor, suffered a broken leg and also was taken to Topeka.

Joseph High, who lost all his farm buildings except his house, suffered serious injuries as did the infant daughter of Mr. and Mrs. Frank Reiser.

The Davis house was left standing, but all other buildings were destroyed. Hall's accompanied the rain and tornado, and crops were severely damaged. Much livestock and poultry was killed.
