

Church League is Proposed at Meet

LAUSANNE, Switzerland, Aug. 15, (A.P.)—A league of churches, following the idea if not the policy of the league of nations was suggested this morning to the world conference on faith and order by the Rev. Dr. Peter A. B. Widener, representing the church of disciples of Christ in North America. Dr. Ainslie is one of the leaders of the church unity movement in the United States.

"Is it not high time," he asked, "that the churches should form a league, each church holding to all it has and seeking to contribute something to that divine life that has been released for the growth of mankind toward God?"

The covenant, he continued, need be no more binding than this conference but it would afford opportunity for a larger understanding by future conferences and a cooperative effort, making possible the way for growth into unity which can never come so long as we remain isolated from and indifferent to the causes of others.

regardless of his position at the start.

The second prize of \$10,000 goes to the second plane to finish.

Lieutenants Bennett, Griffen and Albert Henley, both of Oklahoma City, will be the first away. In the drawing for the positions, Griffen picked the No. 1 slip and held the advantage through being the first to qualify.

Start at Noon.

It is planned to send the Griffen-Henley ship off promptly at noon and the others at two-minute intervals thereafter.

As soon as the blue and yellow plane, is in the air, the monoplane "El Encanto," named by Lieutenants Norman A. Goddard and Kenneth C. Hawkins, will soar away from the start of the runway. Its nose pointed toward the Pacific.

2. Jack Frost, San Francisco.
3. Augie Pedlar, Flint, Michigan.

CALGARY, Alberta, Aug. 15, (A.P.)—The Prince of Wales and Princess George showed that they can make hay while the sun shines today, each wielding a lustrous fork for several hours in the morning, and one hour after lunch. Other members of the royal entourage, however, found other means of amusing themselves.

Young Angler Takes Three Days to Land Big Fighting Fish

NELSON, B. C., Aug. 15, (A.P.)—An endurance fish championship of these parts is claimed by Don Bush, 15, who arrived here with an 18-pound salmon it took him three days to land after sinking a fly hook. The boy was using a light line which did not permit him to adopt vigorous measures, after the salmon retreated under a rock. On the third day he approached the problem with a rowboat and landed his salmon.

Plane May Not Enter in Race

MUNICIPAL AIRPORT, OAKLAND, Calif., Aug. 15.—(A.P.)—Possibility that the Air King biplane, City of Peoria, may withdraw from the Bole Honolulu airplane race loomed today when a recheck of gasoline consumption showed the plane had a fuel storage supply sufficient to carry it 2100 miles, 300 miles short of Honolulu.

A conference between Charles W. Parkhurst, pilot of the plane, and Ralph Lewis, navigator, today with factory representatives of the builder, developed that the storage tanks were built on the assumption that the plane would travel 90 miles an hour. Its tested cruising speed revealed that it travels only 50 miles an hour at top speed.

A retort of gasoline consumption was planned by the pilot this afternoon.

Life's Most Gripping Stories
 WHAT is more thrilling, more soul-stirring than the swift-moving drama of life itself? The novel, short story or play merely entertain. The frank records of human experience grip the imagination, and stir the emotions because they are true.

That is why the narratives in True Story Magazine have won such a vast reader audience. They are actual happenings involving real people. They reveal intimate details of the human temptations, errors, struggles, triumphs and failures that make life colorful and tame in comparison.

The 16 big features in September True Story, for example, are fairly packed with inspiration and thrills. You cannot afford to miss this remarkable issue. Your newsdealer can supply you. Get your copy today.

True Story

Quaker Oats
 RECENT commercial investigations show that almost 70% of the day's important work in offices, stores, etc., falls into four short, before-luncheon hours. Likewise, 80% of the day's important classes in nearly every school and college in America fall, too, into the same period.

Thus breakfasts of well-balanced, complete food—food that "stands by" you through the morning—are being urged widely today by experts.

Quaker Oats, containing the excellent food balance of protein, carbohydrates, minerals, vitamins "B" and the essential laxative "bulk" of oats is ideal food for that purpose.

No other cereal grown compares in food balance. Delicious and enticing, Quaker Oats corrects the mistake of inadequate breakfast eating.

Start now with Quaker breakfasts. Note then your mornings. Grocers have Quick Quaker (cooks in 2 1/2 to 3 minutes) and regular Quaker Oats.
