BREAD

Bread is truly the staff of life—but the busy housewife should give considerable thought to the brand of flour she uses. Bread not only gives you more real food value for your money—but it gives you the needed elements for the body in an easily digested and absorbed form.

CRATER LAKE & ANCHOR FLOUR

Crater Lake and Anchor flours are manufactured in Klamath Falls under the most modern scientific methods. We have our own bake ovens for testing purposes and know that every shipment of flour that leaves our plant is as near perfect as it is humanly possible to make. Bread made from Crater Lake and Anchor flour has a wholesome home-made flavor all its own and is the product that master bakers take pride in when they turn out the golden loaf.

A Home-Made Product

Crater Lake and Anchor flour is manufactured right here in your home town; every ounce of wheat is purchased in Klamath County. You know what you are getting when you buy these brands, or a visit to our mill will convince you.
