Camel

The cigarette you can smoke with real enjoyment

If all cigarettes were as good as Camel you wouldn't hear anything about special treatments to make cigarettes good for the throat. Nothing takes the place of choice tobaccos.

How to Buy Food How to Prepare

The Woman's Day

By ALLENE SUMNER

Two days ago Mrs. Florence of Paris, Tenn., had a stroke. She could plough, make butter, hoe dig, plant, bake, wash, iron, sew, and clean other little odd jobs. Her husband must do. Husband got mad at such in- and began cursing his incapacitated

action, summoning into him div- ers minions. They surrounded the cart. What an array of sil- ver salvers, melon forks, spoons, extra platters of ice, this and that, was here! Each melon half was imbedded in ice in a silver dish with a crystal dish. But this arrangement was only for the journey in! Now appeared more tankards of ice, more crystal dishes, more silver inner chambers, until by the time the melons were set before the diners, no less than six dishes each had been used, four waiters and the head waiter had officiated, and the melons had changed dishes thrice.

More Bunk
Day after day, whether we dine in hotel or luncheon, the same foolishness, on a lesser scale, is indulged in. Our food comes from the kitchen on a perfectly proper appearing plat- ter, but it must be shoveled from that onto another plate while our sleeves, unable to find parking space, dangle into both of them.

And the public pays and pays! I have often admired the visiting English celebrity who, ordering a meal to eat in his room, made the waiter return kitchenward, shove about half the plates, silver, and gim-teracks off his tray, and return to serve a meal with the simplicity a meal de- serves.

And Yet More!
The bunk in dining rooms is not the only bunk found in hotels either. Sit in any lobby and

Recipes Tested In Carnation Lab

By MRS. MARY BLAKE
Carnation Cheese Souffle
3 tbs. butter; 4 tbs. flour; 3-8 cup Carnation milk diluted with 3-8 cup water; 1-4 tsp. baking powder; 3-4 cup grated cheese; 1 tsp. Worcestershire sauce; if desired; 3 eggs; 1/2 tsp. salt; few grains of pepper.
Make white sauce of butter, flour, salt, pepper and milk. Add cheese, place over hot water until cheese is blended into sauce. Cool; add egg yolks, well beaten; fold in stiffly beaten whites and baking powder, blending well. Pour into oiled baking dish; bake in 300 degrees F. oven 45 minutes.

Chicken Souffle
3 tbs. butter; 4 tbs. flour; 3-8 cup Carnation milk diluted with 3-8 cup water; 1 cup finely chopped chicken; 3 eggs; few grains pepper; 1/2 tsp. salt; 1-4 tsp. baking powder; 1 tbs. chopped parsley.
Make a white sauce of the butter, flour, salt, pepper and milk. Add chicken and parsley;

look about you at a hodge-podge of expensiveness which is neither beautiful nor useful. Marble pil- lars and benches, real oil paint- ings, tapestried walls, lamps ex- cept where one needs a good light, red plush carpeting, arti- ficial flowers in imported pottery pots, anything and everything in- stalled for the sole reason of making the traveler feel he is getting his money's worth in his 88-a-night bed, and that he dare not give the bell boy less than a quarter every time he brings ice water or mail to the room.

And the public pays and pays and pays!

AUTUMN HOUSE CLEANING
If you neglected to have all your comforters and blankets cleaned thoroughly when you stored them, have them done now before winter starts.

HOT VINEGAR
Dip a rag in hot vinegar and wipe off your gas stove if you like to have it immaculate and spotless.

COLD DRINK
A delicious cold drink is made by using apple cider, and logan- berry juice in equal parts.

DINGY OVERSHOES
Dinky overshoes can be made more presentable if wiped off with a cloth wrung out of warm ammonia water.

Keep Baby's Milk Pure and Sweet

BABY'S food may be baby's poison if the milk gets stale. It takes ice to keep it wholesome at any season. In milk, unprotected by ice, bacteria multiply a thousand-fold. Long before it becomes sour to the taste, it loses much of its nourishment and its appetizing flavor.

You cannot trust the weather at this season. Outside of a refrigerator, food is also exposed to impurities in the air—dust and germs. It pays to take ice regularly. It saves food, protects health.
