

LOUGHRAN WINS DECISION IN 15 ROUNDS

DECISION AT END OF HARD FIGHT IS FAIR

Slattery's Friends Still Believe Buffalo Boy Is Best Battler

MADISON SQUAARE GARDEN New York, Dec. 12 (U.P.)—After 15 rounds of fast and fancy fighting which had the customers on the edge of their seats throughout the bout, Tommy Loughran, of Philadelphia, won the judges' decision over Jimmy Slattery of Buffalo, in Madison Square Garden Monday night, thus acquiring the light heavyweight championship.

There was plenty of unreasonable opposition from the Slattery adherents among the 15,000 spectators, however, and there will always be many who believe that Jimmy is the Philadelphia's master.

The decision was entirely fair, Loughran being the aggressor throughout most of the bout, besides winning six of the rounds, with five going to Slattery and four even.

Back Pedaled

The new champion was ever ready to force the fighting, while "Slats" occasionally mounted a bicycle and back-pedaled as furiously as did Gene Tunney in the famous seventh round at Chicago.

But for all Tommy's superior aggressiveness and harder hitting this fight between the champion of the National Boxing Association and the champion of the New York State Athletic Association was well worth watching. Slattery showed flashes of fight in which he racked Loughran with left hooks and right crosses to the face which had the blood running from cuts beneath the Philadelphia's eyes and about his mouth.

Tennis Leaders Okeh Davis Cup Tournery In U. S.

NEW YORK, Dec. 12 (U.P.)—The recommendation of the Davis cup committee that the United States shall challenge for the Davis cup next year in the American zone was unanimously passed by the executive committee of the United States Lawn Tennis association at its annual meeting.

William T. Tilden, H. expressed himself recently as favoring the challenge in the European zone.

The reasons given by the Davis cup committee for deciding on the American zone follow:

1.—That it would be un sportsmanlike to desert the American zone after supporting the two zone system.

2.—That the chances of victory are greater.

3.—That time would be saved inasmuch as challenging in the European zone would necessitate sending a team abroad in March.

4.—That it would be unwise to ask the college players to cut short their scholastic work.

5.—That more players would be available in the United States and more combinations could be used.

MOOSE WILL PUT ON BIG FIGHTS HERE

The Moose Lodge of Klamath Falls is planning a series of fight programs throughout the winter which promise, under the direction of Glen LeBaron, matchmaker, to bring the glove racket back to its former prominent place on the local sports center.

In an effort to give the fans new faces and still keep the admission figures within the reach of everyone, the top notch local fighters are to be pitted against leading amateurs from outside points. More action is promised under the new plan as it is the big aim of the Moose management to give fewer but more exciting fights in the ring and make every card a prize fight.

It is not expected that the Moose will bring in the big city top boys for whom they would be forced to demand \$2.25 and \$2.25 prices. But rather they intend to introduce some of the excellent local talent now appearing in Medford, Ashland, Eugene, Bend and Weed, and charge accordingly, \$1.65 to \$1.19 with special prices for youngsters.

In the opening show Mike Daly, whose appearance in Medford of late have put fans of that city on their feet, demanding more of his services, will be featured. Mike's consistent knockouts of the past few weeks have put him in the main event class, and the boy, a product of Pelican City, is headed for high places.

LeBaron is making an effort to sign hitting Jack King, a newcomer in Medford, with Mike in this city. This man King is copying a lot of attention in the valley. He and Daly fought a six-round sensation at Medford and held 450 fans on their feet through two cantos.

Daly got the decision in that surprising exhibition of the mauling art because he scored just one more knockdown than King—and there were many.

"If the local match between the two is half as exciting as the Medford bout, the fans will kick the seats out of their chairs," LeBaron declared last night.

December 21 is the date of the first Moose card, to be staged in the Moose hall. A new ring is being built for the racket, and the hall in general will represent a real fight arena. Fall card is to be announced in a few days.

BASEBALL MEN GATHERED FOR BIG MEETING

NEW YORK, Dec. 12 (U.P.)—The baseball men gathered here today for the annual major league meeting, which failed to provide anything more startling than rumors of what might take place before the week is over.

The steering committee of the two leagues held a five-hour session behind locked doors at the Hotel Roosevelt and when it ended Judge Landis poked his ever-watchful head out and said, "No news, boys."

Since this is only the second meeting of the steering committee which came into existence a year ago to keep peace between Judge Landis and Ben Johnson, the status of the body are not defined clearly.

Judge Landis explained that one of its functions was to get as a clearing house for the business which was to come before the National league meeting on Tuesday and the American league meeting on Wednesday.

The steering committee is composed of three representatives from each league—the two presidents, John Heydler of the National and Ernest Barnard of the American, and Judge Landis. The National league was represented by William F. Baker of Philadelphia, William Veeck of Chicago and Barney Dreyfuss of Pittsburgh. The American league was represented by Phil Ball of St. Louis, Jacob Ruppert of New York and Frank Navin of Detroit.

Revision of Rule In Basketball Is Under Discussion

PORTLAND, Ore., Dec. 12 (U.P.)—Revision of basketball rules was considered by the Northwest section of the Pacific Coast Interscholastic Athletic conference in session here today. Several recommendations were made by coaches to be passed upon finally by the faculty members.

It was recommended that the playing court be 98 by 50 feet from 100 to 100. This would make the baskets 86 feet apart. Another recommendation was that the boundary lines be four inches wide, painted black.

Discussion of the official ball was settled by agreeing to use any unken valve ball with a hidden lace and unlined. Though the conference does not officially adopt any certain brand of ball this recommendation was expected to go a long way toward having all teams use the same style of basketball.

Dr. J. H. Bohler of Washington State College presided, and E. J. Reibarth, University of Oregon coach, acted as secretary.

The establishment of a disabled list for players out of the game for 60 days, the three-umpire system, the Matt Memorial and discussion of a rule to prevent any manager, manager or player from holding stock in any club, other than his own, are the most important matters to come before the business sessions.

PECKINPAUGH WILL MANAGE INDIAN CLUB

CLEVELAND, Dec. 12 (U.P.)—Roger Peckinpough, for many years one of the leading infielders of the American league, tonight was named to manage the Cleveland Indians during the 1928 campaign. An agreement was made by Alva Bradley, president of the club and Billy Evans, general manager. Peckinpough will make his first appearance as leader of the Indians at the annual winter meeting of major leagues in New York next week.

Peckinpough played with the Chicago White Sox during the past year. Evans announced he had secured his release.

Peckinpough is the product of Cleveland and lost winter his first chance in professional baseball by his seasonal playing with amateur teams here. He played with the Indians in 1919 when he was 19 years old. He then was farmed out to the New Haven club in the Connecticut league and spent the following season with the Portland club of the Pacific coast league. He was traded to the New York Yankees. He remained with them until 1922 when he was traded to Boston and then to Washington.

Peckinpough helped Washington win American league pennants in 1924 and 1925, and a world's championship against New York Giants in 1924. The Senators traded him to the Chicago White Sox last winter but a bad leg kept him off the field most of the past season and he acted as advisor to Coach Schalk.

He was field captain of the Yankees for several seasons and manager of the team for one brief period.

450 MILES ON A GALLON OF GAS

The president of the General Motors Research Corporation, in a recent article points out that there is enough energy in a gallon of gasoline, if converted 100% in mechanical energy, to run a four cylinder car 450 miles. Much experimenting has been done to convert this latent power into mechanical energy, but at present the amount waste in gasoline is appalling.

In an effort to conserve gasoline and to increase motor efficiency, Mr. Oliver, noted automotive engineer, has perfected an invention that slashes gas costs to the minimum. He is launching a campaign to equip every car with this wonderful invention, and as he is now appointing agents, is willing to send a sample for trial. For full particulars write Mr. Oliver today in care of The Whirlwind Mfg. Co., 2486 E. Third Street, Milwaukee, Wis.—Adv.
