

A Harvard Medical Expert Says— AVERAGE GIRL UNDERWEIGHT AND WEARS TOO FEW CLOTHES

CHICAGO, June 20—What are the average young men and young women like in this day of Flaming Youth, anyway?

Dr. Reginald Fitz, associate professor of medicine at the Harvard University Medical School, can answer that question about as well as anyone can, at least as far as physical characteristics go. Not long ago he made a series of examinations of a large number of college boys and girls, ranging in age from 19 to 25; and in the current issue of Hygiene, the magazine of the American Medical Association, he summarizes his findings.

The average girl, he finds, is, first of all, a bit underweight. "She tends deliberately to undernourish herself in order to keep thin," he explains. "One gets the impression that a girl's present aim is to keep thin at all costs; failing to attain this end she may become discouraged and conclude that the effort is more bother than it is worth, in which case she may go to the other extreme and placidly eat herself into abnormal obesity."

In the second place, she doesn't wear quite enough clothing.

Dr. Fitz found that two pounds of clothing, including shoes, is considered excessive by the average girl. 12 ounces seems just about right to a great many.

These two traits have effects which a doctor can readily spot. Too light clothing makes the average girl constantly cold—in the winter time, at any rate. Body temperature fully two degrees below normal are often encountered; blood pressure also tends to be subnormal. The result is not good for the health.

"She"—the average girl—"is constantly below par and thus liable to minor infections in the way of colds or sore throats and may readily incur more serious troubles," writes Dr. Fitz. "Thus in my group it was found that 36 per cent of the women had lost two or more weeks' time from minor illnesses during the preceding two years, while only 16 per cent of the men had been bothered by a similar loss of time as a result of illness."

"Even more striking was the number of girls who complained of getting easily tired, a complaint almost unheard of among the men. This, perhaps, is a more serious matter. The modern girl requires pep at all costs. Her popularity and dash depend entirely on this altogether indescribable characteristic. It is not especially to be wondered at, therefore, that the modern, undernourished girl who continually feels cold, who is liable to minor infections and gets easily tired on very moderate effort, acquires the habit of obtaining pep by artificial means."

On the whole, however, Dr. Fitz gives the average girl a good bill of health.

"She was active and graceful in the handling of her body, had good posture, was fairly tall, had well formed shoulders and a small waist, was perhaps a little thin, but well muscled and sturdy," he writes. "On the whole, she appeared to be perfectly healthy, both in mind and body, and was much more of the athletic than the flapper type."

He lists a few physical characteristics of the average girl thus:

Age 22 years. Height, 5 feet 4 inches. Weight, 126 pounds. Temperature, 98.2 degrees. Pulse rate, 82. Blood pressure, 129.

All in all Dr. Fitz is highly encouraged about modern youth. "On the whole, the youth of today are a fine crowd of young men and women," he writes. "As they have their innings, they will carry on the work of the country in the best possible way. No doubt they will, in turn, presently come to be more or less bewildered by the conduct of some of their own young people."

"She was active and graceful in the handling of her body, had good posture, was fairly tall, had well formed shoulders and a small waist, was perhaps a little thin, but well muscled and sturdy," he writes. "On the whole, she appeared to be perfectly healthy, both in mind and body, and was much more of the athletic than the flapper type."

He lists a few physical characteristics of the average girl thus:

Age 22 years. Height, 5 feet 4 inches. Weight, 126 pounds. Temperature, 98.2 degrees. Pulse rate, 82. Blood pressure, 129.

So much for the average girl. And the average boy?

The boy tends to keep his weight up to par better than the girl. Indeed, he is apt to be slightly overweight rather than

AGE 22 YEARS
HEIGHT 5 FEET 4 INCHES
WEIGHT 126 POUNDS

AGE 22 YEARS
HEIGHT 5 FEET 10 INCHES
WEIGHT 159 POUNDS

After making physical examinations of a large number of college boys and girls, Dr. Reginald Fitz, associate professor of medicine at Harvard, arrived at these "average" types. Note the proper heights and weights.

underweight. He enjoys good health and is decidedly of the athletic type—sometimes to a greater extent than is good for him.

"They tend, perhaps, to lead to strenuous an existence," he writes. "It is a question whether so much violent and spasmodic exercise as many are taking for recreation may not prove to have a detrimental influence on the heart and blood vessels by throwing on them an unnecessary load which will be harmful in the long run."

Here are his figures on the average boy:

Age, 22 years. Height, 5 feet 10 inches. Weight, 159 pounds. Temperature, 98.7 degrees. Pulse rate, 82. Blood pressure, 129.

All in all Dr. Fitz is highly encouraged about modern youth. "On the whole, the youth of today are a fine crowd of young men and women," he writes. "As they have their innings, they will carry on the work of the country in the best possible way. No doubt they will, in turn, presently come to be more or less bewildered by the conduct of some of their own young people."

"She was active and graceful in the handling of her body, had good posture, was fairly tall, had well formed shoulders and a small waist, was perhaps a little thin, but well muscled and sturdy," he writes. "On the whole, she appeared to be perfectly healthy, both in mind and body, and was much more of the athletic than the flapper type."

Age 22 years. Height, 5 feet 4 inches. Weight, 126 pounds. Temperature, 98.2 degrees. Pulse rate, 82. Blood pressure, 129.

So much for the average girl. And the average boy?

The boy tends to keep his weight up to par better than the girl. Indeed, he is apt to be slightly overweight rather than

Flying Cloud To Finish Marathon About Midnight

GRANTS PASS, June 20. (UP)—Flying Cloud, Karook Indian leading the Redwood Empire Indian marathon, was expected to cross the finish line of the 482 mile race from San Francisco to this city about midnight tonight.

The Karook tribesman took little rest during the afternoon and evening. Although leading the other contenders in the race by a wide margin, Flying Cloud was maintaining a five mile an hour gait.

Provided nothing happens to slow down the fleet Karook, he had an opportunity to substantially cut the record for the event made last year by Mad Bull.

There was still about 80 to 100 miles to go. Flying Cloud, Melika, a 62-year-old Klamath of the Klamath tribe, and Lightfoot, a Digger, were plodding the highway within a few miles of each other.

Sacramento Drops to Second Place

SAN FRANCISCO, June 20. (UP)—Sacramento, leader of the Pacific Coast league for several weeks this season, dropped into the second division today.

The Senators lost their second game of the week to the league-leading San Francisco Seals by a score of 11 to 3, while the Missions were defeating the Seattle Indians, 7 to 2, to ascend to the first division.

Hollywood, second place team of the circuit, beat Portland, 4 to 1, and the Stars and the Seals drew further away from the other teams of the circuit. The San Francisco team now has a seven game lead over the third place Angels, while Hollywood is four games ahead of Los Angeles.

The Seals made four runs in the first, four in the fourth, two in the sixth and one in the seventh against the Senators. A Sacramento rally in the last of the ninth netted four runs, but the Seals still had a comfortable margin. The teams made 29 hits.

Shelburne, Hollywood, held the Beavers to five scattered hits, and the stars won, 4 to 1. Oakland required 13 innings to defeat the Angels, 4 to 3.

RUDIE WILHELM FORGES AHEAD

PORTLAND, June 20. (UP)—Bud Stein, western amateur golf champion, was eliminated from the Pacific Northwest amateur championship tournament on the Portland Golf Club links today by Rudie Wilhelm, Portland, defending northwest champion.

Wilhelm was two up on the Seattle champion at the end of the morning round and continued in the lead to the end of the match. Frank Dolp, Portland, 1926 champion, defeated Eddie Hosan, 16-year-old youth who tied for medal honors Monday, 4 and 2.

Dr. O. F. Willing, Portland, defended the quarter final by defeating Johnny Reback, Portland. Don Moe, 19-year-old Oregon state amateur champion, easily defeated L. D. Heptinstall, Oneida, N. Y., 10 and 9.

Other quarter finalists will be Alex Duncan, Seattle, George Shaw, Los Angeles, Asa Smith, Portland, and Jack Marshall, Portland.

Cardinals Thrash Chicago, 6 to 2

By United Press
The St. Louis Cardinals tightened their grip on first place in the National league Wednesday by defeating the Cubs 6 to 2.

The hapless Cincinnati Reds continued their slump and lost to the Pirates, dropping to third place below the Giants who were idle.

Frisch's triple with two on in the sixth started the Cardinals on the road to victory after being held scoreless for five innings by Percy Lee Jones.

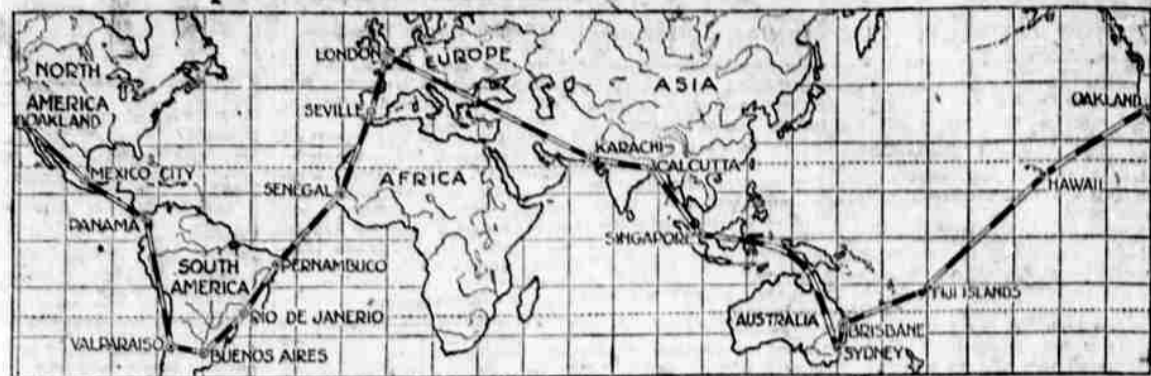

Pete Scott's single in the second scored Wright and Traynor, the latter making a brilliant dash from first to home on the hit, giving the Pirates victory over the Reds. Ray Kremer had a slight edge over Eppa Rixey in a well pitched game.

Don Hurst, young first baseman of the Phillies, continued his terrific hitting as the last place Philly club beat Brooklyn 5 to 2. Hurst hit his eighth home run of the season and a single.

Ralg prevented the Giant-Braves doubleheader.

Hop 'Round World Planned for Southern Cross

The four occupants of the trans-Pacific monoplane Southern Cross plan to spend a brief time in Australia and then continue around the world, according to recent reports. Starting from Oakland, Calif., they spanned the Pacific ocean, via Hawaii and the Fiji Islands. From Sydney, after a stop at Brisbane, they plan to fly over the Dutch East Indies, probably by way of Singapore, to Calcutta thence their route would take them to Karachi and across Europe to London. From London they would drop down to Seville, Spain, and thence to Senegal, Africa. At Senegal they would begin another ocean hop, to Pernambuco, Brazil, flying next to Rio de Janeiro and Buenos Aires. Then would come a hazardous flight across the Andes, probably to Valparaiso, followed by a trip up over Panama City. The last hop would take them from Mexico back to Oakland, the starting place.

FATHER-IN-LAW SLAIN IN ROW

LONG BEACH, June 20. (UP)—G. W. Priest, 75, was near death in a hospital here tonight after he had been shot through the left breast at close range by his son-in-law, Harmon Temple, 36.

Temple told officers he "shot to kill" when he thought his father-in-law reached for his hip pocket as he rose from his chair after a heated argument over the younger man's marital affairs. Priest denied reaching for a weapon and said Temple fired without provocation.

Democrats Worry Over Prohibition

(Continued from Page One)
erate protection, while it is not yet ready to embrace that policy by name, it is actually tending that way in principle.

One reason is that the democrats intend to make a hard fight for the Atlantic seaboard states and the inland industrial states of Ohio, Illinois and Indiana. They want to lay down no principle that will alienate the powerful industrial influences in those states.

A second reason, is that the great democratic south, strong for free trade as long as it was a one-crop cotton country, is now becoming industrialized rapidly. Textile mills are moving from New England down to the Carolinas, Alabama and Georgia. Textiles are the backbone of the New England protective doctrine.

Cordell Hull, outlining his platform ideas today, recommended a "conservative tariff plank," meaning conservative in the direction outlined above.

The makings of a real old fashioned democratic fight are here. It is just a question of whether the spark will be applied to set it off. Women drys are holding mass meetings here, W.C.T.U. workers here a series of speakers denounce Governor Smith. Some of the leading ministers are influential leaders of public opinion all over the south.

—are insisting the party remain dry. J. Frank Norris, well known Baptist preacher of Fort Worth, Texas, said Hoover was good enough for us. Texas, the host to the convention, has pledged its delegation to oppose any wet presidential candidate.

The Smith forces are not opposing the 18th amendment. They are strongly in favor of a platform plank calling for a strict enforcement and are prepared to outdo the republicans on that. They also are in favor of modification of the law, however, and here is where they come to a parting of the ways with the drys. Norman Mack, New York national committeeman, said today he is as strongly in favor of modification as ever and will exert his influence to write this principle into the platform.

"Smith always will stand for personal liberty and state's rights and is opposed to prohibition; he is for temperance," Mack declared in a statement this afternoon. He regarded it as "absolutely criminal" for this country to lose the tremendous revenue now spent by Americans in Canada for liquor or here for liquor obtained from Canada.

MATCH CALLED OFF
GRANTS PASS, Ore., June 20. (AP)—The wrestling match between Jack Rolter and Billy Sandahl, billed for last night, was called off when only a hand full of spectators attended.

Mr. and Mrs. E. J. Murray are expected to return here within the next few days from San Francisco, where they have been for a fortnight. They will visit here briefly on business before returning by motor to their home at Marshfield.

Myrtle Point—Oil syndicate will drill test well on 2600-acre oil lease.

Twelve Dead In Mid-West Storms

(Continued From Page One)
body was taken from the arms of her mother, who thought the child was sleeping.

Eleven persons were on the upper floor of the house and the wind turned the upper floor upside down, hurting the occupants down upon six persons beneath.

Elbert Reaves, 20, was struck by a bolt of lightning during a cyclonic storm near Frederick, Okla. Several small buildings in farming communities were destroyed. Eight other persons had been reported previously killed in storms earlier in the week.

In addition to the loss of life and property damage in the wind storms untold amount of damage was done to crops by rivers overflowing their banks as a result of abnormal rains. Volunteers have worked for more than a week strengthening levees weakened by the deluge of water.

Swollen tributaries pouring into the Missouri river caused fears that the Missouri may flood land in some districts and a warning was issued at Columbia, Mo. today by the U. S. weather bureau to persons along the river between Booneville and Herman.

Central Missouri was restoring communication and transportation lines that were crippled today by the heaviest rains in years. The rainfall amounted to from 3 to 4 inches and virtually all automobile and railway traffic was halted. The Burlington railroad was the only road reported open between St. Louis

PITTSBURGER TRIES AGAIN

RENO, Nev., June 20. (UP)—The same judge who had granted Frank B. Ninness, Pittsburgh business man, a divorce during the day married him to his second bride tonight.

Ninness, who had won his freedom from a woman he married in Pittsburgh in 1926, wed Genevieve J. Roache, formerly his secretary and a prominent Pittsburgh society woman, at a Lake Tahoe resort.

In his suit for divorce Ninness had charged that his wife had accused him of improper conduct with his secretary and insisted that he discharge her, but he did not name the assistant.

and Kansas City. All other railroads were routing trains over the Burlington tracks.

C. O. Barringer, of Arkansas City, Kans., late today rescued two boys from a tree in the center of the Walnut river flood. The boys had walked out on a piece of drift, and were carried to the river and finally caught hold of the tree. Both the Arkansas and Walnut rivers are receding in Kansas.

The Verdigris river in southeastern Kansas still threatened to flood additional farm lands with rapid rise reported at Independence, Kans. The Neosho river was out of its banks from Chanute to Oswego.

Medford—Pulp and paper experts investigate prospects for mills here.

Mexican To Plead In Circuit Court

E. G. Soto, Mexican, employe of the Politan Bay Lumber company, will enter his plea to a charge of assault with intent to kill, in Circuit Court today before Judge A. L. Leavitt.

Soto was indicted Monday by the Klamath grand jury and arraigned Tuesday.

Marvin Middaugh, charged with larceny, will be arraigned Thursday morning at 10 o'clock. No date for the arraignment of Milt and S. D. O'Neill, charged with receiving stolen property, has yet been set by the district attorney's office.

Typos Choose Head at Salem Conclave

SALEM, June 20. (UP)—R. P. Pettipiece, Vancouver, B. C., was chosen president of the Northwest Typographical conference at the session just concluded here. Cliff Martin, Seattle, was chosen vice president, and C. R. Alexander, Portland, secretary-treasurer. The three other members of the board of directors are W. B. Rawley, Medford, Ore., Ray N. Castle, Boise, Ida, and Frank Finnegan, Anaconda, Mont.

NO MORE PROSPECTORS
LOS ANGELES, June 20. (UP) End of San Gabriel canyon's picturesque gold miners was proclaimed today when the county board of supervisors authorized purchase of 40 claims being worked by old time prospectors.

Many Klamath Falls people are making the

Mary Short \$3,900 On Customs Deal

NEW YORK, June 20. (UP)—Mary Pickford paid \$3,900 to the customs officials today and got back her 12 trunks which had been held in the appraisers' storeroom since the movie star and her husband, Douglas Fairbanks, arrived from Europe Saturday. The trunks were held temporarily for an investigation of their contents.

CARD OF THANKS

We will always hold in grateful remembrance the many acts of kindness shown us in our recent bereavement, the illness and passing of our darling Biddle. We are especially thankful for the expressions of sympathy both verbal and floral, tendered us. The attentions shown us by Dr. and Mrs. Paul Baron will be forever remembered by us.
MR. and MRS. VICTOR OLSON and FAMILY.

CARD OF THANKS

We thank our heartfelt thanks to all our friends who so kindly assisted us in our recent bereavement, also for the many beautiful floral offerings.
MR. A. GANT and CHILDREN.
MR. and MRS. C. W. LATTA.
SIDNEY LATTA.
HARRY LATTA.
MRS. OLIVER DIXON.

Latzo Leads, But Doesn't Land

Here's a bit of fast action in the fifth round of the light-heavyweight bout at Brooklyn, N. Y., when the aggressive Pete Latzo, of Scranton, Pa., was making things troublesome for Champion Tommy Laughran, of Philadelphia. Laughran, after a loss started by the fighting coal miner, who lost the match on points.

Let the Hotpoint
Phantom Maid
Do Your Cooking
It's like having a Maid at no cost
**WITH THIS RANGE
YOU'LL NEVER RUIN
ANOTHER MEAL!**
We all have been heart-broken when we discovered an unusually choice roast burned to a crisp—and have prayed for some one to develop a positive guard against scorching.
THE NEW HOTPOINT SUPER AUTOMATIC ELECTRIC RANGE HAS IT!
—and it's the lowest priced All-White, fully enamelled range ever made!!!
HOW does the Automatic control positively prevent over-cooking? It's simplicity itself. When you place the roast in the oven simply set **ONLY** the control at the correct temperature shown on the chart accompanying the range; then go shopping or take a nap—perfectly assured that the oven will cook the roast to a "T"! Let your old range help pay for the new!
