LEADERS IN QUALITY MEATS FOR OVER THREE YEARS

New Tricks in Salads

by Mary Blake

If you have mechanical refrigeration, don't fail to use this new convenience of the delightful new frozen dishes which it has brought into popularity. Not only are there a host of desserts which can be whisked together, slid into the refrigerator and frozen without packing and freezing, but salads have also been added to the list of refrigerator-frozen delicacies.

Some of these salads are made with fruit, others with vegetables, but all of them have one feature in common—a feature which makes both for deliciousness and economy—the use of whipped Carnation Milk as their base in place of whipped cream! My new book of refrigerator-frozen salads and desserts tells just how to whip Carnation Milk by boiling the can two or three minutes, then chilling it, and adding 1/4 teaspoon of gelatin for each cup of milk.

You have doubtless used Carnation Milk for various types of cookery—for soups and sauces because of the velvety texture and rich creaminess which result; for wonderful candies, smooth and fine-grained; for delicate, fragile cakes and puddings. And like every one else, you know how luscious it is for rich, velvet-smooth ice cream.

All of these results come from definite qualities. Carnation Milk is simply the purest and freshest of whole

Carnation Cheese Salad

1/4 tsp. gelatin, 1 tsp. cold water,
1/4 cup mayonnaise, 1 cup Carnation
Milk, whipped, 2 packages cream
cheese, 2 tsp. Carnation Milk, 1/4 tsp.
salt, 1 cup celery, 1/2 cup sweet pickles,
1/2 cup pecans. Soak gelatin in cold
water 5 minutes; dissolve over hot
water. Beat dissolved gelatin into
mayonnaise; fold this into whipped
Carnation; fold whipped Carnation
into cheese which has been softened
with 2 tsp. Carnation. Add salt
and chopped celery, sweet pickles and
pecans. Freeze without stirring; cut
in cubes; serve on crisp lettuce, garnish
with slices of pickle or parsley.
Serves 10.

SAVES ON CREAM

Carnation Milk, with its
double helping of cream,
makes particularly rich
and delicious gelatin
desserts and frozen salads.
In cookery its use saves
cream and butter. You'll
find it unusually convenient
and dependable.
