Authorities Give Credence to Story of Dr. Robinson About Planet

LONDON, Oct. 20. (UP)—Back from a 70,000,000-mile round trip to Mars, Dr. Mansfield Robinson will seat himself at the Rugby radio station on Wednesday and invite a skeptical world to tune in on a broadcast from the sister planet.

Robinson started scientific circles by announcing he had made the trip to Mars and that he had been in radio communication with the planet.

"Om ga wa na wa" came shooting across the ether to him, Robinson said. He recognized it immediately as a message from Mars for Robinson has studied the Marital language for a long time.

"The words mean 'God is in all' according to Robinson. On Wednesday, a message will be written, placed in a sealed envelope, and the radio operator will send the message out on an 15,500 meter wave length. Then the operator will tune in on a 30,000 meter wave length and wait for a reply.

"There's some woman on the other end of the wire," Robinson said, "and she seems to be a"

Asks Hotel Room Jailer Gives Aid

WALLA WALLA, Wash., Oct. 20. (UP)—G. R. Collins, laborer, tonight mistook the county jail for a hotel, and with eyes befogged and tongue thick, asked Jailer C. A. Woodward for a room.

"He wanted to see the girls," he said. Woodward accommodated him, but his room was with the men. A pint bottle of alleged moonshine was deposited at the desk for safe keeping.

Smith Flip-Flops On Issues Curtis Charges in Talk

HARTFORD, Conn., Oct. 20. (UP)—Governor Alfred E. Smith has changed his position on every important issue now before the electorate, particularly the tariff. Senator Charles Curtis said before a large audience at the Foot Guard armory tonight, "The average reader can't keep up with him," Curtis said.

The republican nominee for vice president quoted from several interviews with Smith at various stages of the governor's career. In a speech at Stapleton, N. Y., in 1922, Curtis said Smith made the following statement about republican high protection:

"What is the truth about tariff? The fact is that it is a cold-blooded and deliberate hold-up of the whole American people in the interest of a few who are only too well represented in Washington."

Curtis contrasted this statement with Smith's pronouncement at Louisville, Ky., that he stood on the tariff plank of the democratic platform and believes in enough duty to protect American labor from ruinous competition.

"We republicans propose to protect American labor, industry and agriculture, not only from ruinous competition, but from all competition from foreign countries," Curtis said.

WALLA WALLA, Wash., Oct. 20. (UP)—Emil Pfaff, 25, alleged murderer of Deputy Sheriff James Smith, of Starbuck, was captured this afternoon in a dry well on the Penner ranch, northwest of Starbuck. Pfaff declared he did not shoot to kill and expressed surprise when told his shots had taken the life of the small-town jailer. The shooting happened Friday night and Alois Hayden, charged with smuggling the fatal pistol to Pfaff, also is in jail in Dayton.

Hoover To Talk In New York Monday

Republicans Believe That by Getting Out Uptate Vote They Can Win State

WASHINGTON, Oct. 20. (UP)—Herbert Hoover's visit to New York for his Madison Square Garden speech Monday night carries him into the home town of his democratic opponent, Governor Alfred E. Smith, for the most important mission of his campaign.

Forty-five electoral votes, more than a sixth of the 261 needed for success, are at stake in the state.

Both contestants for this prize will be within the state Monday. Hoover will spend the day conferring with state and county republican leaders in New York City, while Smith will begin a few days of rest at the executive mansion in Albany before starting on his final tour of the east.

The republican candidate will seek contact with party leaders, rather than by appearances before the rank and file on the sidewalks of New York, to stir republican forces to a last supreme effort to swing the state in his column. He will use the organizing ability for which he is famed. There will be no parades. Under the program few will see him until he appears in Madison Square Garden for his address. Twenty thousand are expected to be there.

COUNTY FINISHES 123 MILES NEW ROAD DURING 1928 SEASON

When winter rain and snow finally put an end to the county road building program for 1928, 123 miles of county road will have been completed. County Road Engineer E. B. Henry, announced yesterday. This does not include state highway construction projects.

Three months ago, Mr. Henry announced that at the outside, only 75 miles of county road would be built. Activity of the county court coupled with the plea of various districts to get roads built before winter began, has materially increased this original estimate.

Most of the roads, of course, are the half million dollar bond issue roads, but there are also several roads financed by regular market road and county road funds.

Following are the projects under construction which will be finished this fall: in some instances only half of the original projects will be completed:

Fort Klamath-West highway, four miles; Seven Mile Fort Klamath, six miles; Fort Klamath-Wood River, five miles; Alcoma, three quarters of a mile; Midland-State line, nine miles; Merrill-White Lake highway, five miles; Whitney bridge road, one and three-quarters miles; Miller Island road, three miles; Miller Hill road, two miles; Langell Valley market roads, 20 miles; Shasta Way road, one mile; Big Campbell road, three miles; Big North Fork road, six miles; Youna Valley highway, 13 miles; Kono-Worden road, two and one-half miles; Youna Valley Market road, five miles; county roads in Altamont and Henley districts, five miles; north Poe Valley road, five miles and miscellaneous road construction one and one-half miles.

Projects already completed this year include the Rock Creek road, nine miles; Altamont-Dixon road, three and one-half miles; Otenechain-Wilson Bridge road, one mile; Spring Lake road, two miles.

Contract for the Bonanza-Lorenz Mill Road job let to Dunn & Baker at a bid of \$12,669 for seven and eight-tenths miles of grubbing, clearing and grading. The contract was let subject to the approval of the state highway commission, as it will probably be a market road.

Bonanza residents desire the road to give them an outlet to the Klamath Falls-Lakeview highway and to allow them to market their products in the Big territory.

Other bids received were: Lewis Angeles, \$13,687.70; J. A. Maddox, \$16,929.50; Bunnell & Vicory, \$11,958.20 (not including clearing); Wren & Greenough, \$15,459.50 (not including clearing); L. F. Ireton, \$15,127.50.

"This is one of the cheapest and best bids received this year on any road," Judge Fred R. Goddard stated yesterday.

The scene of the incident was between Femberton and Quincy, Ohio, Governor Smith was at the dinner table when he heard the shot and caught only a glimpse of the burning cross as his train rushed past. No one could be seen near the spot in the light of the burning cross.

Only half of the cross bar had caught fire and members of the Smith party were not aware of its significance until the other half began to blaze.
