Would You Come

If you were satisfied that your grocer carried quality merchandise, that his service was excellent and that his prices were just—in addition to which you would receive, absolutely free, a dozen cans of milk or its equivalent, with the purchase of an order, would you patronize his store? You would.

If this sounds interesting, try Stone's for your next order. Our merchandise is good, our service is the best, our prices are the lowest, quality considered, and the savings effected on a week's food supply for the average family would easily buy the dozen cans of milk.
