BIBLE SELECTION AND PRAYER

January 27, 1929
THE BALM OF GILEAD—
Is there no balm in Gilead? Is there no physician there? why then is not the health of the daughter of my people recovered?—Jeremiah 8:22
PRAYER—"Love of God, so pure and changeless. Blood of God, so rich and free. Grace of God, so strong and boundless. Magnify them all in me."

NEGLECTED CEMETERIES

We notice a bill before the legislature providing for permanent care of rural cemeteries. It is a good bill.

But, why confine it to rural cemeteries? Look at the Klamath Falls cemetery and then join in a movement to extend the power of the legislative act to include cities of this class.

It is with profound regret that most people view the cities of the dead in the smaller communities.

Benjamin Franklin once said, "show me your cemeteries and I will tell the kind of people who dwell nearby," or words to that effect.

Realizing that people nowadays do not look after their graveyards as they should one legislator has had the courage to make it mandatory that neglect of cemeteries shall cease.

WHAT ARE THE BONDS FOR?

According to the news stories Klamath county is to vote on another bond issue.

It may be needed but it is about time that a thorough understanding of any needs sufficient for a bond issue be discussed at length before voters are asked to pass upon it.

This issue is to be for \$150,000 and, according to the statements made, the money is to be used for betterment of school properties and for the erection of new ones.

Now, that is hardly sufficient. What the voters are entitled to know is detailed information as to what school houses are to be improved, and what new school houses are to be erected.

Too long has the custom been of calmly subscribing to any expense made in the name of education.

We have reached a point when we bond ourselves to hire busses to deliver to the different school houses, and then we bond ourselves more heavily to build gymnasiums to exercise those children.

This newspaper is not against any needed thing

TODAY

By ARTHUR BRISBANE

**We're Happy
Wall Street Nervous? Why?
Einstein's Discovery
Publishers, Cheer Up**

Copyright, 1929, King Features Syndicate, Inc.

RAMSAY MacDonald, formerly British prime minister, says "Relations between the United States and Great Britain grow increasingly unhappy." Not on THIS side of the water. We are happy, although rather foolish with our peace pacts and other poor substitutes for airplanes, submarines and cruisers.

ACCORDING to Professor Scott Nearing, writing for "Masses," Great Britain in 1876 produced 6,400,000 tons of pig iron, while this country in that year produced only two million tons. In 1925 Great Britain produced only 4,400,000 tons, as against 10,400,000 tons in 1913. Whereas the United States in 1925 produced 37.4 million tons. In other words, Britain in 1925 produced exactly the amount produced fifty years earlier. This country in 1925 produced almost eighteen times as much pig iron as in 1875.

IN 1875 Great Britain produced 132 million tons of coal, as against 47 million tons in the United States. In 1925 Great Britain produced 247 million tons of coal. In 1925 this country produced 528 million tons.

That's part of the trouble with our British friends, but they should blame, not their Uncle Sam, but something or somebody nearer home.

WALL STREET was nervous for awhile yesterday, didn't quite know why. Afraid of "dear money," perhaps.

But England is shipping gold to us, and more is expected. Steel has gone to the highest price ever, and promises to go higher.

Copper is selling for 17 cents a pound, and Uncle Sam has the copper. We ought to be happy, not frightened.

But nervous prosperity is the worst kind of nervousness.

M. R. SLOAN, head of General Motors, looks forward to regular annual production of 5,500,000 automobiles a year—a reasonable estimate.

With more than 30,000,000 cars running, 6,000,000 new cars a year will be needed merely as "replacement."

THE world of science, including Bertrand Russell, called the greatest living mathematician, is interested in Professor Einstein's announcement that electro-magnetism and gravity are practically the same. This discovery, says the learned Dr. Pupin, of Columbia university, places Einstein beside Galileo and Newton.

ALL interested in physics await a demonstration that there is only one kind of force in the universe. That light, heat, motion, electro-magnetism, gravity are all the same. Einstein seems to confirm part of Herbert Spencer's definition of evolution, which describes the "retained motion" as undergoing a transformation from "an indefinite, incoherent homogeneity to a definite, coherent heterogeneity."

MORE interesting to practical publishers of newspapers is the fact that the big Woolworth concern plans an enormous advertising campaign amounting to \$3,000,000 the first year. Abandoning the theory that selecting

for education. We believe in it, especially for the rural and grade schools.

But, we do most heartily believe that we have reached a limit in this bonding business and that when a bond issue must be voted complete and detailed information regarding the needs be put forth.

Klamath county does not elect her school superintendent as nearly every other county in Oregon does. As a result the close contact between the schools and the voters is lost to a certain extent.

It would be well, indeed, for the county to dig deeply into not only this proposed bond issue, but into every other one that is offered.

the right location makes advertising unnecessary, proves the wisdom of Woolworth's president, Mr. H. T. Parson.

GET the best position, for your store by all means. But get also the best "position," and the best copy, for your advertising in a newspaper.

Have what the people want, then let the people know you have it. That's the secret of success.

BOOTLEGGERS plying their trade between Canada and Detroit had a happy day on the ice. The Detroit river was entirely frozen over in some places, almost entirely frozen over in others, ice six inches thick.

Old-fashioned seeds, tobaccos, sleighs were taken out, loaded with liquid refreshments containing more than half of one percent alcohol, and whisked over the ice. On the United States side of the frozen river large furniture vans were waiting.

When water turns to ice and helps the whiskey trade, it's discouraging.

JAMES DE LASOS, Greek, with his first naturalization papers, is rejected as jurymen in Washington. He did not know there was a prohibition law in this country.

A visitor from Mars might be here some time without suspecting that we have a prohibition law, either.

MANY respectable visitors from Europe, entertained in New York, beginning with strong cocktails, going on through champagne to brandy, say they find it hard to believe that we have a prohibition law.

LORD ROTHERMERE, who owns many British newspapers, says labor will return to power and select a prime minister to write the king's speeches at the next election. British labor, he says, will revise the treaty signed at Versailles.

Lord Rothermere may be mistaken, probably is.

Army Aviator in Six-Mile Jump

(Continued From Page One)

meteor, hurtling down out of the sky.

But to Lieutenant Haddon, who is a test pilot at Wright Field, it was just another episode in his regular army work. As soon as he landed he walked to a nearby farm house and almost apologetically called the commander of the field to tell about one of the most amazing escapes from death ever recorded in aviation history.

He merely reported his airplane caught fire in the air and he was forced to descend by parachute.

His plane was wrecked, he explained.

LEAVE FO SOUTH

William Duvall, owner of the Owl Cafe, and Harry Clover, of the New City Laundry, will leave today for Southern California points for a vacation trip. They will visit San Francisco, Los Angeles and San Diego.

Many Klamath Falls people are making the

DEATHS

MAURICE DE ROY LYON

The remains of Maurice De Roy, son of Mr. and Mrs. Claude M. Lyon, were forwarded to Stockton, Calif., where funeral services will be held and interment made in the family plot Monday. Arrangements were under the direction of the Earl Whitlock Funeral Home, Pine avenue at Sixth.

FRANK YOUNGKIN

Interment of the remains of Frank Youngkin was made Saturday afternoon in Linkville cemetery. Services were held from the Towey chapel, Pine avenue at Eighth, with Rev. Frank Wemmett officiating. There were a large number of floral tributes. The Eagle lodge was in charge of graveside services.

GORDON JENSE PERNOU

Gordon Jense, the infant son of Mr. and Mrs. Merrin V. Pernou of the Siding Lake district, passed away in this city Saturday morning at 11 o'clock, following an illness of two days. The child was born at Spring Lake January 8, 1929. In addition to his parents he is survived by two sisters, Alice and Ada, and one brother, Vernon. The funeral was held Saturday afternoon at 4 o'clock at the graveside in Linkville cemetery. Arrangements were made under the direction of the Earl Whitlock funeral home.

Hour at 5:00 p. m., with devotional period at 6:30.
