

Assembly Votes to Have Hardy Tried

(Continued from Page One)

not included in a list of five names nominated for the board of managers who will conduct impeachment proceedings. Under the impression that he had been "double crossed," Clowdsley jumped to his feet and broke into a heated tirade against the other members of the committee who had opposed Judge Hardy. While speaker Edgar Levey vainly pounded for order, assemblymen near Clowdsley quieted him and amid the utmost confusion the assembly adjourned without naming a board of managers.

**Recite Almee Tale**  
The incident closed a morning and afternoon of debate in which the entire Almee Temple McPherson "kidnaping" story was recited, with emphasis on Judge Hardy's relation to the noted evangelist.

Discussion was then begun by the assembly. The attitude of assembly members favoring impeachment was that Judge Hardy was only being given an opportunity to vindicate himself by a trial before the senate.

Decidedly more vindictive was their attitude toward Mrs. McPherson.

**Almee Temple Hit**  
"I do not know how I am going to vote on this question," said Assemblyman E. G. Adams of Livingston, "but I would freely vote to impeach or even imprison the woman who is at the bottom of this filthy mess, Almee Temple McPherson."

Hardly less scathing was the statement of Assemblyman Henry McGinnis of Dunsmuir, who said, following a speech by another assemblyman extolling Mrs. McPherson and her Angelus temple:

"I hate to hear altars and shrines discussed in the same breath with those money-grabbing hypocrites at Angelus temple."

Byrd Expedition Makes Discoveries

(Continued from Page One)

Louis Post-Dispatch and associated newspaper announced today a delayed dispatch (dated Monday, February 18) from their correspondent with the Byrd Antarctic expedition, describing a new exploration flight begun by Commander Richard E. Byrd over King Edward land to the south of the mountains he discovered recently.

The flight is being made with two planes, a Fokker in which are Commander Byrd, Bont Balchen, pilot, and Lloyd Barkner, radio operator, and another plane in which are Captain Parker, Arnold Jane, pilot, and navy radio operator.

**Dispatch Brief**  
The correspondent's brief dispatch was sent by dog team from Little America, the Byrd headquarters ashore, to the steam barque City of New York, at the ice barrier, for transmission by wireless.

At the time it was sent, the correspondent reported wireless messages from the planes showed that the flight was still in progress and already had been productive of important discoveries which would be made known when the planes returned to their base.

**Important Finds Made**  
The Byrd expedition, prepared to stay in the Antarctic for almost two years, already has made a number of important discoveries on airplane flights, according to previous announcements of a similar nature to the above.

The Byrd base "Little America" is established not far from the Bay of Whales in the Ross sea. From this base Commander Byrd and his associates plan to make extensive exploration flights over the Antarctic continent, with a flight to the South pole as one of their objectives.

MONOTONY IN DIET IS UNDESIRABLE

Eat Wide Variety of Food Sweetened for Enjoyment

If a diet expert could visit every home in the United States and combine all the diet mistakes into one phrase, he would doubtless say, "too monotonous." Food authorities are complaining that the richest nation of the world is sacrificing both health and enjoyment by eating monotonous, unappetizing foods.

There is a remedy that, with a little thought, can be applied in every home. Make a study of all the varied healthful foods, being sure to include milk, eggs, cereals, vegetables, fruits and meats. Serve varied foods in the regular diet, and learn to use the right amount of sugar to make the various dishes tasteful and delicious.

It is simply impossible to keep well without eating the varied foods that contain all the health elements. It is almost impossible to eat these foods unless they are pleasing to the taste. Sugar, in addition to being a wonderful food, is nature's perfect flavor.

Make delicious milk-shakes with milk, sugar and flavoring. If you want your family to like eggs, learn how quick and easy it is to make healthful egg-nogs. Remember applesauce, stewed dried fruits and cereals for breakfast. Remember the rule of one cooked and one raw fruit and vegetable a day properly sweetened, and cakes, cookies, and ice cream for dessert. Most foods are more delicious and nourishing with sugar.
