74 Ready to Participate in National Singles Championship

NEW YORK, March 13, (UP)—The 1929 major tennis season will open here Saturday with 74 contestants ready to enter their bid for the national indoor singles championship.

Frank T. Hunter, ranking No. 2 star of the United States, and Jean Borotra of France, will be the outstanding favorites and it is doubtful that any of the other contestants will be able to prevent them from meeting in the finals.

Hunter Favored
Hunter is expected to have fairly easy sailing throughout the upper bracket of the draw which was completed today at the offices here of the United States Lawn Tennis Association. Borotra, outstanding in the lower bracket, is not faced with a serious threat.

William Adyellotte, defending champion who surprised the tennis world with his triumph in 1928, is listed at the top of the lower bracket and may meet Borotra in the semi-final round. The Frenchman, if at all on his game, should be able to dispose of him.

Adyellotte Disappoints
The 1928 tournament failed to introduce any outstanding stars.

Adyellotte, although performing like a champion in the indoor meet, proved a big disappointment when the competition shifted to the turf and although he was regarded as a threat throughout the outdoor season, he failed to live up to the promise.

Hunter and Borotra should provide a lively match if they meet in the final round but it is likely that either will exhibit the brand of tennis that will be necessary on the outdoor courts.

The 1929 tournament will mark the return of Borotra in quest of the title he held in 1925 and 1927, after an absence of a year. At present he is ranked about even with Hunter.

Players in School
Hunter has been playing in the south for the past few weeks in company with William T. Tilden. The list of seeded players for the meet is not imposing. Aside from Borotra who was seeded as the only ranking foreigner, Hunter heads the list of eight, followed by Adyellotte.
Julius Seligson, J. G. Hall, H. L. Bowman, L. Kurzerok, Gregory Mungin and M. Cutler are the others.
The majority of the younger stars are in school at present.

Rock, Dept. 13-25, Box 757, Milwaukee, Wis., a prominent goitre specialist for over 25 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple, easy-to-understand manner how to treat goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today. Adv.
